## HOLD FINAL SERIES OF MEETINGS ON BOND PROJECT

Complete Details Will Be Given Public in Few Days, Is Report

Complete figures on the amount of the proposed sewer bond issue will be ready for submission to the voters of Glendale early next week, following a series of final conferences between members of the Glendale City Council and of the Chamber of Commerce with the engineers and City Council of Los Angeles on Monday, according to a decision reached at a meeting of the Chamber of Commerce sewer committee and the City Council held this morning.

Chester A. Smith, representing Burns & McDonnell, engineers, who have been making the survey for the sewers, submitted figures that had been reached after careful checking from every angle, and a final check of these figures will, it is stated, determine the exact amount of the bonds to be issued in the event that the voters of Glendale endorse the project at the election to be held on January 8, 1924.

Plan Conferences  
Councilman Asa Hall and A. L. Baird will confer with a number of the leading bond houses of Los Angeles and with several bankers to determine the rate of interest that the bonds are to carry, and Mayor Spencer Robinson, Councilman Sam Davis, Chester A. Smith and W. E. Hewitt, chairman of the Chamber of Commerce sewer committee, will hold a final conference with the Los Angeles city officials Monday morning to settle the last details that remain open for discussion.

Mr. Smith stated that he had been able, by effecting several changes in the grades laid out originally, to reduce his first estimates by the sum of \$200,000, and he stated that it is within the bounds of possibility that a further reduction may be made at Monday's conference.

Rights of Way  
D. B. Stone, city right of way engineer, stated that he has been successful in obtaining the rights of way over the greater part of the proposed route of the sewers without cost to the city.

The sewer system, as shown on the Burns & McDonnell maps, calls for eighteen miles of sewers in Glendale and close to ten miles of intercepting sewers in Los Angeles.

City officials will obtain a definite statement from the county assessor of the amount that would be added to the tax rate by the issue of the sewer bonds as soon as the final amount has been determined.

## Registry Service to Be Maintained Until December 8

Voters who have registered since January 1, 1922, and who have not changed their place of residence since registering are not required to re-register for the coming bond election, but those who have changed their addresses are under the necessity of registering if they desire to vote at the election on January 8, 1924.

The deputy registrars who are stationed at The Glendale Evening News office from 7:30 a. m. till 9 p. m. are placing the names of a large number of voters on the rolls, and this service will be maintained daily until the books are called in on December 8.

## Uncover Plot To Blow Up Scores Of Homes In Philadelphia District

### Christmas Cheer In Road Houses Will Not Be Permitted

LOS ANGELES, Nov. 24.—War on road houses selling or permitting the serving of illicit liquor and a dry Christmas were the predictions today of Charles F. Gailling, prohibition enforcement agent, who today took over the reins of this district from H. H. Doley.

Nuisance charges will be filed against each of the road houses in which liquor is found in the future and, in event of a second offense, the federal courts will be asked to close the place, it was announced.

The war on the road houses followed raids on several cafes between Los Angeles and the beach.

## STRESEMANN SUCCESSOR SOUGHT

President Ebert Striving to Organize New Cabinet to Run Germany

By S. D. WEYER  
For International News Service  
BERLIN, Nov. 24.—President Ebert today was seeking Germany's strongest man to form a new cabinet to succeed the Stresemann government which resigned last night when a motion expressing the Reichstag's confidence in the ministry was rejected by 230 to 155 votes.

It was regarded likely that the new chancellor would try to form a new coalition.

May Pick Albert  
There was some talk that the post of chancellor might be again offered to Gustav Stresemann, but the name heard most often was that of Heinrich Albert, minister of reconstruction in the Cuno government.

Various political leaders were summoned by President Ebert, who conferred upon the cabinet situation. It is virtually a certainty that socialists will have a place in the proposed new coalition government, but not communists. According to the best opinion, the new ministry will include centrists, democrats and socialists.

Stresemann was leader of the German people's party, an organization representing the industrial interests. Hugo Stinnes is a member.

Red Menace Nipped  
President Liebig of the Reichstag conferred with President Ebert. It was understood both agreed that another cabinet should be organized with the least possible delay owing to the seriousness of the situation in Saxony and Bavaria.

There is less danger from the communists today than there was forty-eight hours ago, as the Reichswehr, acting under orders from General Von Seeckt, director and national commander-in-chief, seized all the communists' arms and ammunition they could find.

### Girl Wife Sought As Slayer of Watchman

CHICAGO, Nov. 24.—Police of every station of Chicago combed the city today for the 18-year-old wife of Otto Matm, paroled slayer who completed the confession to a string of burglaries with the admission that his wife shot down Edward Lehman, watchman at the Delson Manufacturing company, the night of November 5.

## MANY HURT AS BOMBS EXPLODE IN CITY

People in Big Panic When Two Bombs Wreck Bank and Consulate

BULLETIN  
PHILADELPHIA, Nov. 24.—Plans of dynamiters to blow up the Wanamaker statue and scores of homes in the Philadelphia district, are revealed, the police believe, in an incoherent note picked up today near the bombed Italian consulate, by Antonio Riccardo, Italian policeman.

BULLETIN  
NEW YORK, Nov. 24.—Members of the police bomb squad today were assigned as guards to all the foreign consulates in New York as a precautionary measure following the blowing up of the Italian and Spanish consulates in Philadelphia early today.

PHILADELPHIA, Nov. 24.—Two terrific bomb explosions in the downtown district this morning injured scores of persons, damaged hundreds of houses and threw the southern section of the city into a panic.

The first explosion occurred in the Spanish consulate at 701 Pine street and the second at the Sons of Italy bank, Broad and Tasker streets. The Italian consulate is located in the bank building.

Most of the injured suffered from being thrown from their beds or being cut by flying glass.

Shock May Kill Woman  
Mrs. Rose Davis, 60, ill with heart ailment, may die as a result of the blast, physicians say. She was thrown across her bedroom by the explosion.

Among others injured at the Spanish consulate are: Dr. Lewis Chodroff, and four members of his family, bruised from being thrown out of bed. Dr. B. Kopeloff, bruised. Frank G. Poms, cut by falling mirror.

Probe Fascist Feud  
The police will investigate the reported secret conflict between the fascist and anti-fascist elements in the Italian colony.

One detective pointed out that the Italian consul is a representative of the Mussolini government. Don De Motta Y. Ortiz, the Spanish consul, today revealed that he had handled the bomb (Continued on page 8)

## BRIDE FACES DEATH FOR AIDING IN SHOOTING

Young Woman and Her Husband to Be Tried On Murder Charge

LOS ANGELES, Nov. 24.—The death penalty will probably be demanded by the state in the case of Jeanne Carleton, the "bandit bride," of Edward H. Carleton, both of whom are charged with the murder of Special Officer Robert McGee, it developed today when detectives claimed to have discovered evidence indicating the girl was primarily responsible for the slaying.

Belief that the girl planned the robbery of the J. C. Belding home in Irolo street, where the shooting took place Wednesday night, and induced Carleton to launch himself into a life of crime was expressed by officers working on the case.

Makes Decision  
District Attorney Keyes already intends to ask the death penalty for Carleton and statements of detectives today were also taken as meaning the same penalty will be asked for the girl.

Carleton and his young bride met face to face again today when they were called at the coroner's inquest over the body of McGee. Only police officers were to be called as witnesses and it was expected the coroner jury's verdict would be that both Carleton and the girl were responsible for McGee's death.

A heavy guard was kept over Carleton today following reports that he attempted suicide three times last night by trying to leap from a window and severing his wrists.

Sticks to Story  
The young bride is said to have stuck to her original story that she and Carleton were alone in the Belding home at the time of the shooting and that Carleton fired the shots that killed McGee.

Carleton, on the other hand, maintains that a mysterious man known as "Jack" was with them and did the shooting. Reports that Carleton tried to kill his young wife after shooting McGee could not be substantiated today.

## CLEAR AWAY TIA JUANA DEBRIS

Fire-Swept Section of Border Resort to Be Rebuilt for Tourist Rush

SAN DIEGO, Cal., Nov. 24.—Work was started this morning to clear away the debris caused by last night's fire, which destroyed a block in the heart of the business district of Tia Juana, picturesque border city, which is annually visited by a million pleasure-seeking American tourists. The block is considered the choicest in the resort town and the various business men affected announced that work would be immediately started toward rebuilding, with the object of resuming business by February 1—which is the winter tourist mid-season.

The property loss of \$1,250,000 will be practically complete, as little if any insurance is carried by Tia Juana merchants or property owners. The lack of fire protection, there being but the crudest of water systems, and the town boasting not a single fireproof building, makes insurance rates prohibitive, it was said. Most of the damage was sustained by liquor houses, stocks of high-grade wet goods, estimated to be worth half a million dollars (not at American bootleg prices) went up in smoke when the flimsy storehouses and saloons were burned. The alcoholic beverages sent columns of blue flame high above (Continued on page 8)

## ON OFFICIAL VISIT

MANILA, Nov. 24.—On his way to pay an official visit to the Dutch possessions, on behalf of the state department, Governor General Wood was to leave Manila at midnight for Java.

## LATEST NEWS

VON KARDORFF TO FORM NEW CABINET  
BERLIN, Nov. 24.—Herr Siegfried Von Kardorff this afternoon accepted the invitation of President Ebert to form a new German cabinet. He immediately began work of forming the cabinet. Von Kardorff is a member of the German people's party.

WITNESS SHOWS BANDIT'S STORY FALSE  
LOS ANGELES, Nov. 24.—The story of Edward H. Carleton, accused of the murder of Special Officer Robert McGee during a robbery Wednesday night that "another man" did the shooting was torn to pieces today at the coroner's inquest over McGee's body. J. W. Childress, next door resident to the house Carleton attempted to rob and where the shooting took place, was the witness who disproved Carleton's story. Childress said he saw Carleton and his young bride enter the J. B. Belding residence and if there was a third person he did not see him.

## Old Rivals In Annual Gridiron Battle

The rival captains, Bill Mallory of Yale, left, and Charlie Hubbard of Harvard. Below, an interesting photo of a Yale-Harvard game of 1912. Captain Wendell of Harvard, indicated by arrow, is scoring touchdown after picking up the ball, fumbled by Wheeler of Yale. Harvard won 20 to 0.

1921—Harvard 10, Yale 3.  
1922—Harvard 10, Yale 3.

## ARMY-NAVY GAME ENDS IN 0-0

Neither Team Is Able to Score In Grid Battle This Afternoon

NEW YORK, Nov. 24.—Navy upset all advance predictions by holding Army to a no-score tie here this afternoon before one of the most colorful crowds that ever witnessed an all-service classic in recent years. Playing on a wet and muddy field that, in reality, was little less than a quagmire, the Middies proved the equal of the highly-touted Soldiers, both on offensive and defense.

Yale is making its hopes and money on the fact that its team seems to be far and away the better of the two. Yale has two backfields, with the second one, seemingly, superior to the first. Harvard's attack, on the other hand, has been quite anemic to date. On defense, the teams seem to be about equal, the forward lines being something of a stand-off, and the punting of Neale of Yale, versus Hammond, of Harvard, being much the same.

Taken as a basis of comparison, (Continued on page 3)

Today's Grid Games	
At Bethlehem, first quarter—Lehigh 3, Lafayette 0.	
At Chicago, first quarter—Chicago 0, Wisconsin 0.	
At Ann Arbor, second quarter—Michigan 7, Minnesota 0.

rectors of the auxiliary, and they  
are urging a large attendance.The evening will be devoted to  
Verdi's "Il Trovatore," and Mayor  
Robinson and his talented daugh-  
ter, Miss Julia, will give vocal  
numbers from the opera and in  
addition there will be phonograph  
records of the operatic selections  
and a paper giving the story of  
the opera.**Elect Officers**At the meeting of the Berean  
Bible class of the First Baptist  
church, held Thursday afternoon  
at the home of Miss Elizabeth  
Bohannon, 314 North Maryland  
avenue, officers for the coming  
year were elected as follows.Mrs. M. J. Piercy, president;  
Mrs. C. E. Robinson, vice-presi-  
dent; Mrs. Charles Kent, secre-  
tary; Mrs. H. V. Sloat, treasurer;  
Mrs. Arthur Sisley, class teacher,  
and Mrs. Edith Dockeray, assist-  
ant teacher.The rest of the afternoon was  
devoted to an informal social  
time, when refreshments were  
served.**With Mrs. Rowe**One of the pleasant affairs of  
the week took place on Friday  
afternoon, when Mrs. George H.  
Rowe of 216 North Orange street  
presided over an "at home."Graceful bouquets of white  
chrysanthemums and pink dahlias  
and greenery were used artistically  
in decoration.The guests for the occasion  
were members of the "Kandy  
Booth" committee for the recent  
bazaar of the Tuesday Afternoon  
club, of which Mrs. Rowe was  
chairman. Mrs. Daniel Campbell,  
president of the club, was a spe-  
cial guest.**With Mrs. Carr**Mrs. Ernest A. Carr of 1120  
San Rafael street was hostess  
Thursday afternoon to members of  
her five-hundred club, entertain-  
ing from 2 till 5 o'clock.Music was also enjoyed and the  
first prize for the card games was  
awarded to Mrs. C. Hotchkiss.  
Mrs. Carr's guests were Mes-  
dames J. D. Rathbun, C. Roewe-  
camp, V. E. Conklin, R. Mescher,  
F. Sutton, C. Millbrook, G. Hotch-  
kiss, E. Holzer, George Graham,  
H. Clough and S. Nichols.**Teachers' Club**The City Teachers' club will  
meet Tuesday afternoon, Novem-  
ber 27, at 4 o'clock in the audi-  
torium of the Glendale avenue  
school. Dr. W. P. Woellner, lec-  
turer of University of California,  
will deliver an address on "Citi-  
zenship in a Democracy."Music numbers on the program  
will be vocal selections by Miss  
Julia Robinson and numbers by  
the City Teachers' Choral club.  
Mrs. Mary Ogden Ryan, presi-  
dent, will be in charge.**Good Templars**A number of members of the  
Glendale lodge of Good Templars  
are spending the day in Los An-  
geles at the district meeting of  
the organization being held at the  
Merrill lodge headquarters. This  
afternoon's activities will be con-  
fined to a business meeting, while  
a social and entertainment will be  
enjoyed this evening.**Live Cole Class**The Live Cole class of the Cen-  
tral Christian Sunday school held  
its regular bi-monthly business  
meeting last night in the church.  
The principal topic discussed was  
that of making plans for the re-  
finishing and redecoration of the  
class room.**Hold Wiener Bake**The Christian Endeavor society  
of the Tropic Presbytery church,  
of which Miss Frances  
Goldsborough is president, will  
hold a wiener bake at the Los  
Angeles river tonight. Miss Mil-  
dred Tubbs, social chairman, will  
be in charge of the evening's en-  
tertainment. All members are  
urged to be in attendance.**Presents Paper**One of the interesting features  
of the Delphian program on  
Thursday was a paper by Mrs.  
Charles Marshall of 525 South  
Central avenue on "The Mystery  
Play in the Church." Mrs. Mar-  
shall by a long residence abroad  
and as a teacher of experience was  
well qualified to speak on this  
subject.In twenty-one days and report a  
most enjoyable time.Mr. and Mrs. George C. Hast-  
ings of 319 West Lexington drive,  
have been entertaining as their  
guest for the past week, Mrs.  
Florence Atwood of Schenectady,  
New York. Mrs. Atwood came via  
the Panama Canal having a very  
pleasant trip. She leaves Sunday  
for San Diego to spend the winter  
expecting to return for a few days  
visit before going to her home in  
New York in the spring.Mr. and Mrs. Pierson Hanning  
of 235 North Orange street, en-  
tertained last night as dinner  
guests, Mr. and Mrs. Clay Smith  
and son Homer and Mr. and Mrs.  
Charles W. Smith recent arrivals  
from Hutchinson, Kan., and Miss  
Ethel Preston and father, J. F.  
Preston of Glendale. Mr. and  
Mrs. Clay Smith have decided to  
make their permanent home in  
southern California and have lo-  
cated at Van Nuys. The Charles  
Smiths are only visiting here and  
in a few months will return to  
their home in Kansas.**Birthday Party**Miss Ruth Van Kolken was the  
guest of honor at a surprise party  
tendered her Friday night by a  
group of friends who gathered to  
celebrate her birthday anniver-  
sary. The affair was given at the  
home of her parents, Mr. and  
Mrs. Robert Van Kolken, 718  
East Elk street.The decorations were artistically  
carried out in a pink and  
green color scheme with festoons  
of crepe paper forming a canopy  
over the refreshment table, which  
was also decorated in the same  
tints. A large birthday cake  
formed the table centerpiece.The evening was spent in play-  
ing games and a dainty supper  
was served at a late hour.The guests included the Misses  
Evelyn Matten, Dorothy Hornel,  
Fanny Rogers, Edna Lamb, Eileen  
Richards, Fay Chittler, Margaret  
Schierholz, Grace Scudder, Ruth  
Schierholz, Marie Krines, Helen  
Hobs, Ethel Lamb, Larine Cook  
and William Buckley. Robert  
Christman, Carl Buckley, Neil  
Christman, Fred Uhlman, Harold  
Christman, Richard Ball, Paul  
Foreman, Walter Scudder, Dana  
Van Loon, Norman Korb, Mr. and  
Mrs. Roy Van Kolken, Mr. and  
Mrs. Salewski, Mrs. C. C. Buck-  
ley and Mr. and Mrs. Robert Van  
Kolken.**Enjoyable Supper**The Indian supper given last  
night at the Tropic Presbyterian  
church by the members of the In-  
termediate and Senior depart-  
ments of the Sunday school  
proved to be an unusually enjoy-  
able affair. There were over thirty  
members in attendance.Miss Bessie Lawton of Los An-  
geles, who was president of the  
Jahnsi Girls' school in India for  
17 years, was a special guest. She  
appeared in costume and deligh-  
ted those present with Indian  
stories illustrated with many in-  
teresting Indian curios.During the evening Indian  
games were enjoyed and refresh-  
ments were served Indian style.**Business Women**The Business and Professional  
Women's club is to have a real  
treat at the meeting Tuesday  
night in the auditorium of the  
Glendale Commercial school at  
224 1/2 South Brand boulevard; Dr.  
Marian Tracy Whiting, presi-  
dent of the South Side Ebell club,  
Los Angeles, dramatic reader and  
vocalist will give a short pro-  
gram, beginning at 7:30 o'clock.Dr. Jessie A. Russell, newly  
elected president, will preside,  
and after the program there will  
be refreshments.**Luncheon Hostess**Mrs. W. F. Stahl of 424 West  
Wilson avenue entertained at  
luncheon Thursday the members  
of the calling committee of the  
J. O. C. class of the First Metho-  
dist church.Yellow chrysanthemums were  
used in decoration and the lunch-  
son table was decorated in yellow.After lunch the time was spent  
discussing plans for the new year.  
Those present were Mesdames  
Inez Hanning, May Knox, Frankie  
Poukks, Esther Knox and Maud  
Endsley.**Bazaar Success**Through Mrs. Loren Mitchell  
the women of the Central Ave-  
nue Methodist church announce  
that they realized \$200 on the  
holiday bazaar they held on  
Thursday.**Retiring Scout Chief  
Honored at Meeting**The spirit of youth was much in  
evidence last night at the dinner  
of the Men's club at the First Con-  
gregational church, for the sixty  
men present had as their guests  
ninety boys, including members  
of Boy Scout Troop No. 2.A special feature of the affair  
was honoring Ben Robison, retir-  
ing master of Troop No. 2. In  
bidding him farewell the Scouts  
presented him with a solid gold  
ring bearing the Scout insignia.  
Mr. Robison responded with a  
speech of appreciation. He was  
followed by Kenneth M. Bayne,  
his successor, who greeted the  
Scouts and the other boys and  
men present.Harry C. Wilcox, president of  
the Men's club, presided over the  
after-dinner hour as toastmaster,  
and before the evening ended he  
was chosen guide of the Glendale  
troop of Boy Scouts of America,  
for all boys under Scout age.  
Josiah Poeton, boys' secretary  
of Claremont, was honored guest  
and speaker, and told in an in-  
teresting manner of his work in  
the college town.Dr. C. M. Calderwood was an-  
other speaker.  
J. A. Myers led in community  
singing. The boys' Scout song  
gave demonstrations of signaling  
and first aid work.**BIRTHS**A son was born to Mr. and Mrs.

## CRESCENTA TEAM DEFEATS LOCALS

Touchball Contest Goes to Visitors By 7-5 Score at Glendale Ave.

The boys from La Crescenta school scored a second victory over Glendale when they yesterday and played off the second touchball game with the junior team of the home school, winning by a score of 7 to 5.

Tyler Robinson, the Mayor's son, starred for Glendale avenue, intercepting forward passes, and also distinguished himself while on the receiving end of several passes.

Robt. E. Lee, Wheeler Doll, and Orbie Hatcher, are also credited with star playing, and Kenneth Lewis scored a drop kick from the 25 yard line.

Jack Laughrey of La Crescenta intercepted a forward pass on his own 15 yard line and ran the entire length of the field for a touchdown.

### Score Deciding Point

A forward pass from Paul McOsker to Basil Brook, gave La Crescenta the deciding point, after the touchdown.

Stuart Collins and the Key brothers, were also outstanding players.

La Crescenta—Roy Peck, L. E.; Robert Telfer, L. T.; Willard Key, L. G.; Philip Brown, C.; Neil Darby, R. G.; Rudolph Blakely, R. T.; Basil Brook, R. E.; Paul McOsker, (Capt.), Q.; Jack Laughrey, F.; L. B. Key, R. H.; Stewart Collins, L. H.; Elmo Carter and Dale Craig, subs.

Glendale Avenue—Wheeler Doll, L. E.; Gus Gratts, L. T.; Frank Lathrop, L. G.; Tyler Robinson, C.; Billy Bogen, R. G.; Harry Conover, R. T.; Orbie Hatcher, R. E.; Kenneth Lewis, Q.; Robt. E. Lee, F.; Paul King, R. H.; Norman Schwartzkopf, L. H.; Geo. Peterson, Gordon Parkham, John Diederick, Geo Ward, Subs.

The La Crescenta team has not been defeated this year in touchball. A game is being arranged between their second team and the midgets of Glendale avenue. The visitors were accompanied by the principal of the school, A. T. Blanford, who refereed. H. E. Bremer umpired.

## Councilman Kimlin Undergoes Operation

City Councilman C. E. Kimlin, business manager of the Glendale Sanitarium and Hospital, underwent a tonsillectomy operation last evening. His condition is reported as satisfactory this morning.

## Leaders of the Army and Navy Teams

The rival captains, "Dinty" Mulligan of the Army, and Art Carney of the Navy.

By NORMAN E. BROWN

Take a firm hold on your chair. Have the wife hold an ice pack on your brow.

Forget the Einstein theory and the occupation of the Ruhr and stick with us.

We're going to tell you now how the Army-Navy game will come out.

The Army should win by a touchdown—or 6 points—and this is written before today's game.

Very simple. We take the comparative scores, which ordinarily don't mean a thing except in an argument, and arrive at that conclusion.

Seriously, though the ordinarily meaningless records of the rival teams may mean a little bit in the coming struggle of Uncle Sam's boys and if this should prove so the Army will be returned the winner by the margin named. Here's how:

The Navy and Princeton played a 3 to 3 tie—which places them on an even footing, so to speak.

Yale beat Princeton 27 to 0. Yale defeated the Army 31 to 10, a margin of 21 points, which leaves the Army an edge of 6 points over the Sailor Lads.

Probably these figures mean nothing but they furnish material for discussion. Here are the records of the two teams to date:

**Army's Record**  
Army 41, Tennessee 9.  
Army 20, Florida 0.  
Army 0, Notre Dame 13.  
Army 28, Auburn 6.  
Army 73, Lebanon Valley 0.  
Army 10, Yale 31.  
Army 44, Ark. Aggies 0.  
Army 20, Bethany 6.

**Navy Achievements**  
Navy 39, William and M. 10.  
Navy 13, Dickinson 7.  
Navy 27, W. Va. Wes. 7.  
Navy 3, Penn State 21.  
Navy 3, Princeton 3.  
Navy 9, Colgate 0.  
Navy 61, St. Xavier 0.

### TRAILED BY HOUNDS

WALLA WALLA, Wash., Nov. 24.—Posses with bloodhounds were engaged in a manhunt here today for three prisoners who escaped from the state penitentiary last night by scaling a wall under the protection of a cloud of steam from prison steam pipes in the yard.

## Hunt 'Locations,' But Kill 800-Pound Bear

SONORA, TIJOLUNE CO., Nov. 24.—A brown bear weighing nearly 800 pounds was bagged by John H. Fisher during a trip in the Strawberry valley with Cecil B. DeMille, head of the Lasky Motion Picture Company, A. J. Stout, cameraman, and Paul Poe, secretary to DeMille.

The four motion picture men were scouting for good locations for a prospective film and were accompanied by George Weston and F. J. Schoetgen of Columbia, an historic mining town often filmed by companies from Los Angeles.

Fisher observed the monster on the Patterson grade and dropped it with one shot.

### NEW OIL STOVE

When closed, a new oil stove for both heating and cooking, resembles a cabinet phonograph.

An ordinary brick will absorb sixteen ounces of water.

## HARVARD BEATEN BY YALE'S SQUAD

Bulldogs Again Hand Out Football Defeat to Old Time Rivals

(Continued From Page 1)  
Princeton's record gives a fair idea of the relative merits of the teams. Facing the Tiger, Harvard was given out to the last gasp to gain a victory of five to nothing and never once ventured inside the 2-yard line. Against the same outfit, Yale did not have to resort to extremes at any time in running up a 27 to 0 total.

**How They Line Up**  
Briefly, today's issue rests with the Harvard backfield. To date, it has been utterly innocuous and devoid of punch. It is even whispered that its mentality is under suspicion. However, whispers will be whippers.

The probable line-up follows:  
Yale—Bingham, L. E.; Miltstead, L. T.; Eckhart, L. G.; Lovejoy, C.; Diller, R. G.; Blair, R. T.; Luman, R. E.; Richeson, Q.; Neale, L. H. B.; Pond, R. H. B.; Mallory, F. B.

Harvard—Hill, L. E.; Eastman, L. T.; Dunker, L. G.; Greenough, C.; Hubbard, R. G.; Evans, R. T.; Combs, R. E.; Lee, Q.; Co-burn, L. H. B.; Cheek, R. H. B.; Hammond, F. B.

## America, Canada Plan to Halt Smuggling

WASHINGTON, Nov. 24.—The first session of the United States-Canadian conference on liquor and dope smuggling will be held at Ottawa, Ontario, Tuesday, November 27, the state department announced today.

The American commission will be headed by Assistant Secretary of the Treasury McKenzie Moss, while the Canadian representatives will be R. E. Farrow, commissioner of customs; G. W. Taylor, assistant commissioner; C. P. Blair, general executive, and W. F. Wilson, chief of the preventive service.

Not until 1912 did Harvard get under way for a winning streak. That year and the next three it won, and in those four years gave Yale the worst trouncings the New Haven club ever suffered. The scores ran as high as 41 to 0.

**Another Span Ended?**  
Now, after another period of four successful years, Harvard stands with its back to the wall, Yale seems to have the team which can halt the Tiger rush.

True, Harvard's victory over Princeton was a surprise to Yale and Yale followers. But, coming as it did on top of Yale's triumph over the Army mule, much of the psychological effect was lost.

Yale's work generally has been the more impressive all season, although the Harvard team may have been playing under wraps early in the season.

Harvard has one ace which Yale must fear. He is Card Pfaffman, the man with the wonder toe—the gent who sits nervously on the side lines for a whole game just to go in at the right moment and score three points with a field goal. Three points loom up big in any game these days. Ask Princeton. Yale must do more than check the Harvard line and break up the Crimson backfield combinations. It must smother Pfaffman's kicks.

News Want Ads produce results.

## Records Show How Two Teams Struggle

(Continued From Page 1)  
carcasses of the Crimson horde which has trampled him under foot four times in as many seasons.

In other words, Yale is ready for its annual battle with Harvard—the biggest battle of the football season regardless of the records of either team or the general grid situation. Tradition and prestige alone make it a great game.

Yale's troubles with Harvard became serious ones four years ago with the arrival at Cambridge of Bob Fisher. Yale had won the 1916 game, 6 to 3. The World war halted activities the next two years. Then came the Fisher regime. Four straight times his red-sweatered athletes turned back Yale. The Blue held the Crimson to 10 points or less each season, but was left to coddle a smaller score. In 1920 the Bulldogs failed to tally.

**Fifteen Lean Years**  
'Twas not always thus at Harvard, however. The teams started their annual scrap in 1875 and Harvard won, four goals to none. But the Crimson failed to win again until fifteen years later, when it trounced Old Eli 17 to 0.

The table shows that in the game of 1881 Harvard scored four safeties while Yale went scoreless, but Yale won. A rule then in effect stated that "in a game otherwise a tie the team scoring four or more safeties less than its opponents shall win a game." So spectators saw Yale win without scoring.

After that 1890 victory there followed another victory, then a defeat, another victory and then a long, lean spell, while Yale triumphed six times.

Invited to attend last night were Mr. and Mrs. John Robert White, J. M. Rhoades, A. T. Cowan, Mr. and Mrs. L. H. Wilson, C. F. Parker, A. D. Pearce, Mr. and Mrs. Frank Weller, Peter L. Ferry, Walter Nicoles, J. C. Sherer, R. L. McCourt, Mr. and Mrs. W. E. Evans, A. W. Tower, Harry E. White, Miss Eva Daniels, W. S. Ingram, D. J. Hanna, S. S. Gilhuly, Mr. and Mrs. Charles H. Toll, Mrs. Ella Richardson, Mrs. R. W. Meeker, E. A. Carr, W. E. Hewitt, W. S. Rattray, Mrs. Opal Greenwald and Mrs. E. W. Hayward.

A number of other Republicans had been expected to attend the meeting, but were prevented by previous engagements.

**EXONERATES DRIVER**  
SACRAMENTO, Nov. 24.—Warren McQueen, driver of an automobile which ran down and killed 8-year-old Douglas Traganza here last night, was released from custody today when the mother of the boy exonerated him of all blame.

The boy darted in front of the machine while trying to cross the street.

## Local Republicans Meet And Form Glendale Club To Carry on Campaign

Organization of a Glendale Republican club was perfected at a meeting held last night at the residence of Mr. and Mrs. John Robert White, 347 North Orange street.

The following officers were unanimously elected:  
John Robert White, president; Mrs. Frank Weller, first vice president; J. M. Rhoades, second vice president; Peter L. Ferry, third vice president; Mrs. Opal Greenwald, secretary; Harry E. White, treasurer.

The organization adopted the platforms of the national Republican party and the state Republican party for its guides in conducting its campaign for the success of the party.

**Harmony Prevails**  
Complete harmony prevailed at last night's meeting. Brief talks were made. W. E. Evans called the gathering to order and pointed out the need for a club here. Mrs. E. W. Hayward was chosen temporary secretary.

A committee composed of Mrs. John Robert White, A. D. Pearce and W. E. Evans was appointed to outline to the club the principles it should adopt and this committee, reporting later in the meeting, proposed the adoption of the state and national platforms.

The club's membership rolls are open to all local Republicans and any of the organization's members are authorized, it is stated, to secure members.

**Plan Social Session**  
Another meeting will be held soon and Mr. and Mrs. White have offered the use of their residence. It is probable that the next meeting will be in the nature of a social gathering.

Invited to attend last night were Mr. and Mrs. John Robert White, J. M. Rhoades, A. T. Cowan, Mr. and Mrs. L. H. Wilson, C. F. Parker, A. D. Pearce, Mr. and Mrs. Frank Weller, Peter L. Ferry, Walter Nicoles, J. C. Sherer, R. L. McCourt, Mr. and Mrs. W. E. Evans, A. W. Tower, Harry E. White, Miss Eva Daniels, W. S. Ingram, D. J. Hanna, S. S. Gilhuly, Mr. and Mrs. Charles H. Toll, Mrs. Ella Richardson, Mrs. R. W. Meeker, E. A. Carr, W. E. Hewitt, W. S. Rattray, Mrs. Opal Greenwald and Mrs. E. W. Hayward.

A number of other Republicans had been expected to attend the meeting, but were prevented by previous engagements.

**EXONERATES DRIVER**  
SACRAMENTO, Nov. 24.—Warren McQueen, driver of an automobile which ran down and killed 8-year-old Douglas Traganza here last night, was released from custody today when the mother of the boy exonerated him of all blame.

The boy darted in front of the machine while trying to cross the street.

## Scoutmaster Is Host to Troop 3 Members

W. L. Walker, Scoutmaster of Troop No. 3, was host last night, entertaining thirty of the troop members and fifty parents in the gymnasium at the Glendale Union High School.

Harry A. James, monologist, entertained the boys and parents, with an illustrated talk on the making of phonograph records, and later gave his monologue, "The Englishman at the Football Game." Following the monologue he played the record he made of the same selection.

Francis Henry led in community singing and Harvey R. Cheesman, Boy Scout executive, talked to the boys on "Leadership."

Under the direction of Scoutmaster Walker several first aid patrol contests were held and games played.

After the salute to the flag the company met in the cafeteria, where the mothers served refreshments. Mrs. Eva Cunningham was chairman of the mothers' committee, and was assisted by Mesdames Frank Ayars, R. L. McCourt, LeRoy Bosserman and H. W. Bogen.

**Ministers Sponsor Thanksgiving Service**

Glendadians are to worship on Thanksgiving day at the First Congregational church at the corner of North Central and Wilson avenues. This will be the annual Thanksgiving day union service sponsored by the Ministerial association of the Glendale churches.

Rev. Clifford A. Cole, pastor of the Central Christian church, will give the Thanksgiving day message and music will be given by the Congregational church choir, directed by Howard E. Cavanah.

The offering received will be used for Near East relief.

**MRS. CARUSO TO WED**

LONDON, Nov. 24.—The wedding of Mrs. Enrico Caruso, widow of the famous Italian tenor, and Captain E. A. Ingram, Scotland, will take place Wednesday at the Brompton oratory. Rev. Father Talbot will officiate. The honeymoon will be spent in the United States.

Have faith in the protective substances, naturally in your blood, and they, not it, will overcome most of your minor ailments.

# JUST A NEWS ITEM PURE and SIMPLE

WHEN a man who has made his life work the repair of all makes of cars, who has been the owner of several large garages, makes a selection when purchasing a new car HIS CHOICE SHOULD COMMAND ATTENTION FROM THOSE IN THE MARKET FOR AN AUTOMOBILE.

Such a man is C. A. Johnson, of 410 Michigan Avenue, Tujunga, and his choice of all cars is a Nash Six-Cylinder 1924 Sport Model.

Until three years ago, when Mr. Johnson came to California, leaving the automobile business to enter the contracting field, he had been the owner of several large garages in various parts of the United States. Immediately prior to his move here he had operated a garage for five years at Portland, Oregon. During this time all makes of cars, from the cheapest to the highest priced, came under his close observation.

"It was a hobby of mine," said Mr. Johnson, "to study the types of engines, frames and bodies of various machines. I made it a point to talk to the owners when possible to find out if their car was giving satisfaction. Without exception the Nash owners stated their cars were giving good service. Not satisfied with this, however, I studied the effect of continued service on the engine.

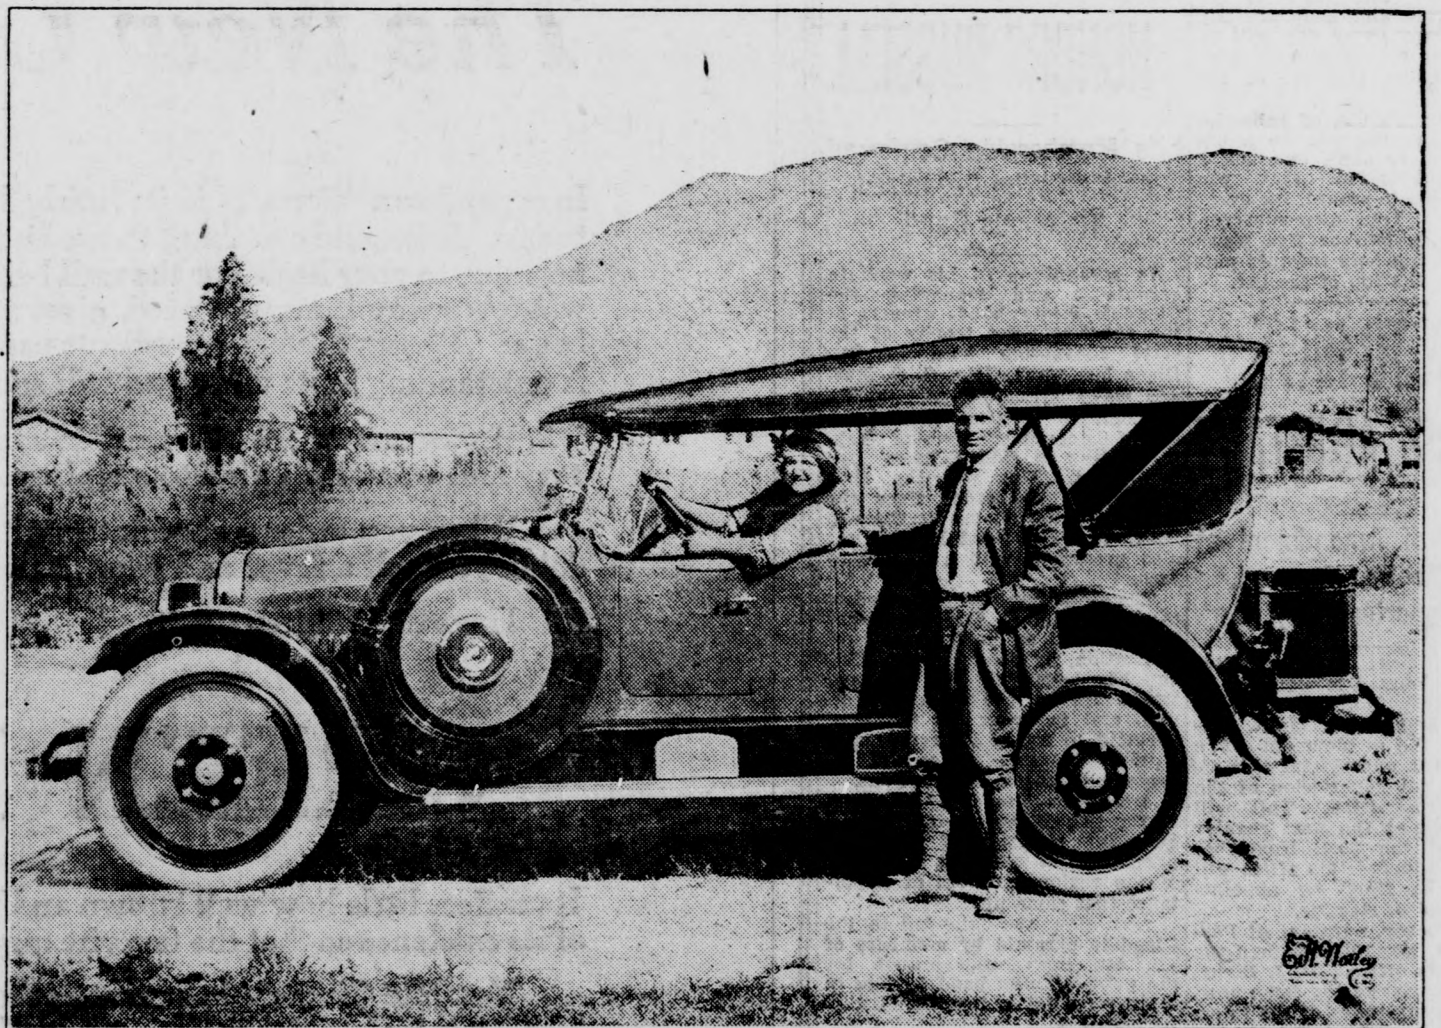

"One month ago my wife and I decided we wanted a car. We went straight to the Nash dealer and purchased a Nash Sport 'Six.' The deal was closed in a few minutes, as I had made up my mind what I wanted."

Mrs. Johnson is even more enthusiastic about the new car than her husband. Naturally she looks at it from a different angle, from the beauty viewpoint. Mrs. Johnson has always said that a car, to please her, besides being easy to handle, must have a suggestion of grace in its lines, harmony in its colors, and, above all, a general "complete appearance." "The Nash just fills the bill," she said to Donald C. Barbee, Sales Manager of the Nash Sales Company, Inc., of Glendale. "Mr. Johnson bought for power and I bought for looks, and we both are pleased."

# FIRST PERIOD IN CAMPAIGN CLOSES

Last Minute Subscriptions Win Greatest Number in Prize Races

By J. A. MALCOLM.  
Salesmanship Club Manager.  
Look at the calendar.  
Today, Saturday, November 24, is the last day in the Glendale Evening News \$10,500 salesmanship campaign. Today is the last day of the campaign that you can get the most credits for the subscriptions, and if you fail to heed this warning and let some of the subscriptions slip by without the necessary effort to get them you will be the one who will lose.  
Today is the most important one of the entire lot in the eight weeks in which the campaign extends. It should be one of the most important days of your life and you should not fail to make every moment count. Make it a red letter day in your fight to win. Do not be satisfied with winning one of the smaller prizes when you can win the building lot in Sparr Heights or the lot in Oakmont Heights.  
**Work Till Last Minute**  
Work right up to the last minute tonight and work as late as possible, for the campaign department will be open until 9 o'clock and later, if necessary, to take care of the club members and the subscriptions they bring in. Be sure and do not overlook a single subscription that you might be able to secure, and if you have some subscriptions promised for later try and get them today. Explain to the people that you get more credits on the subscriptions today than you will at any other time during the campaign. Don't wait until the last moment to see your friends, but make sure of them now. Get every subscription possible for any human being to secure during the limited time that remains before the close of this first period, the most important one of the campaign.  
The leadership in this campaign is worth a lot to you right at this time, for the public is watching the standings from time to time, and as every one loves to help a winner the ones who are closer to the top of the list will receive many subscriptions that would otherwise go to some of the others who are lower on the list.  
As the campaign grows older the competition grows keener, so it is important that you hold your own against all comers in order to be assured of winning some one of the grand capital prizes that are being offered.  
Club members should remember that credits earned with last-minute subscriptions will be a help to tide them over the top when the final day of the campaign rolls around and the final counting has been made.  
Less than four more weeks remain in the campaign and the time will soon pass away and the club members who put forth the best efforts and keep steadily plugging away every day will be the ones who will eventually carry away the most valuable of the prizes.  
A few more clubs of subscriptions this evening will be a big help to you, so don't overlook a single subscription that you might be able to secure, for every one counts. Your own subscription for one, two or five years would be a big help towards putting you at the top of the list.

# LEGION TO HAVE PAID ADJUTANT

Adoption of Amendment at Next Meeting Assured, Supporters Say

An amendment to the constitution was presented to members of Glendale post, No. 127, of the American Legion last night, providing for the employment of a paid adjutant, and placing this office under the supervision of the executive committee. This will be voted on at the next regular meeting of the post, November 30, and if adopted this office will hereafter be filled by appointment instead of elective.  
D. J. O'Leary, adjutant of Pasadena post, No. 13, explained the duties of his office. D. J. Bixby, past commander of the same post, also past commander of the inter-post council and at the present time state executive committee man, spoke in favor of the plan. He gave the history of the Pasadena post, pointing out the benefits accruing from the establishment of the office of a paid adjutant, and recommended the adoption of the system by the local post. He stated that it enabled the American Legion to get in closer contact with the other organizations of the city which were working in unison for the welfare of the community, kept the ideals and aims of the Legion in front of the public, and in every way increased the efficiency of the organization.  
**Will Adopt Plan**  
There is little doubt, it was indicated last night, that the amendment will be adopted, and the new adjutant, if the plans are carried out, will be given his first real work in supervising the exhibition to be given by the Charles A. Wortham shows under the auspices of the Legion from February 4 to 12, inclusive. The contract with this company probably will be signed today.  
Nerve splicing is said to be one of the latest achievements of curative science.  
Sealing wax contains no wax, but is a compound of shellac and turpentine.

# BISHOP JOHNSON LAUDS ST. MARK'S

Honored Guest at Parish Supper Given by Women of Church Guild

Greetings and congratulations of the Los Angeles diocese of the Episcopal church were brought to Rev. Philip K. Kemp, rector, and the parishioners of St. Mark's Episcopal church last night by Bishop C. A. Johnson, when he and Bishop Coadjutor W. B. Stevens and Mrs. Stevens of Los Angeles were honored guests at the parish supper served in the beautifully remodeled Guild hall by women of the St. Mark's Guild.  
"It has been with the utmost satisfaction and gratification that I have witnessed the growth of St. Mark's church. Its growth has been in keeping with the wonderful growth of the beautiful city of Glendale. On this occasion may I congratulate Rev. Kemp and his parishioners on their progressive spirit and accomplishments and plans for future development," said the bishop.  
**Former Rector Guest**  
Other special guests at the dinner were Dr. George Cornell, who served the parish previous to Rev. Kemp's arrival; Mrs. Cornell and Miss Cornell of Pasadena; Arthur Benton of Los Angeles, architect in charge of the recent work on the church building, and C. N. Rodolph of Glendale, contractor.  
Greetings to the honored guests and to the church people were given by Rev. Kemp, who later introduced Bishop Johnson.  
Mrs. LeRoy Bosserman was chairman of the program, which included, in addition to the speeches, two piano solos by Alonzo Wolter, and a group of vocal numbers by Mrs. Charles A. Parker. Mrs. Bosserman accompanied Mrs. Parker.  
During the afternoon and evening the Guild held the annual holiday bazaar and the brilliantly decorated booths added interest to the parish gathering. Mrs. Katherine Goodwin, general chairman of the bazaar, and her assistants were complimented on their weeks of work in preparation for the annual event and their efforts were well rewarded by the realization of a fine sum for the Guild treasury.  
The booths were in charge of Mesdames Grace Rowsey, J. S. Farber, F. S. Card, Miss Louise Packer and the Girls' Friendly society. Mrs. Speck had charge of tea, cake and popcorn balls, and Mesdames Frank England and Sarah Hill had charge of the dinner.  
During the afternoon and evening members of the parish and their friends attending the bazaar and dinner were interested in noting the additions and remodeling work done on the building.

# SCIOTS' PYRAMID HONORS RUSSELL

Life Membership Conferred on Man Who Organized Victorious Band

In recognition of his work in organizing and managing the Glendale Sciots' band, winners of the supreme Scioto trophy at the state convention held in San Diego last week, Scot G. O. Russell was presented with a life membership certificate in the order of Sciots at the regular weekly meeting in Odd Fellows' hall last night. This was the first meeting of the order since the band took the honors at the San Diego conclave. Scot Russell was also presented with a gold card case.  
The silver cup was presented to the band and to Toparch Harry W. Bennett, as head of the organization, by Scot Russell. This cup has been held for the past two years by the Fresno pyramid, and in order for the local pyramid to retain it permanently it must be won in contest at three consecutive conventions.  
A report was made by delegates to the San Diego convention, acquainting members of the local pyramid who were not delegates, of the various matters of importance that came up.  
Invitation was extended to the Glendale pyramid by members of the San Bernardino branch for the prize-winning band to join in the ceremonial at San Bernardino December 8.

# Kiwanis Plan Annual Thanksgiving Dinner

Announcement of the club's annual Thanksgiving dinner dance was made yesterday at the Kiwanis' luncheon. This year the affair will be held at the Tuesday Afternoon clubhouse on Monday night, November 26, at 7 o'clock. Arrangements are being made to take care of at least 150 couples.  
A special feature of the evening will be the appearance of the Camp Perry orchestra from the Yosemite valley, which has been engaged to furnish the music for the dance which will follow the dinner. This organization on the day following will start on a tour of the principal cities of the United States on the Orpheum circuit. The orchestra will be accompanied by their famous out-door singer, Mr. Flood.

**STORM WARNINGS**  
PORTLAND, Ore., Nov. 24.—Following a night of heavy rains and violent winds, storm warnings were continued today at all North Pacific coast stations in anticipation of another severe wind and rain disturbances during the next twenty-four hours.

# PERMITS SOAR TO NEW HIGH LEVEL

Glendale Will Soon Be in Million Dollar Class for November

Less than \$100,000 is needed this month to put Glendale in the "Million Dollar Class" for November. At the close of business last night at the office of Building Superintendent H. C. Vandewater, permits to the value of \$907,177 had been issued this month, with the yearly total at \$9,012,024.  
The following permits have been issued recently:  
Mrs. Amanda R. Traxler, 6 rooms and garage, 255 Lorraine, \$5,000.  
W. M. Gottschalk, 6 rooms and garage, 3,500.  
E. O. Kirk, remodel, 505 North Brand, 2,500.  
Jack Crane, garage, 1735 Glendale, 400.  
Mrs. C. H. Lowinsky, addition, 210 North Central, 100.

# Miss Cora Hodgson At H. S. Webb Store

Miss Cora Hodgson is greeting her Glendale friends at the H. S. Webb store on North Brand boulevard, where she has purchased the toilet goods and drug department. She is offering a splendid stock to her patrons and is featuring the Elizabeth Arden Beauty preparations.  
Miss Hodgson is well known in Glendale, for she was formerly associated with the Spohr Drug store.

**BLACK ROOF COATING**  
30c per gallon; many other bargains in paints. Glendale Decorating Studio, 119 W. Harvard St.—Advertisement 11-22-23-24.

# Grand Army Bodies in Regular Session

An unusually large attendance was present at the regular all day meeting of the G. A. R. and W. R. C. held yesterday at the G. A. R. hall on South Glendale avenue.  
During the morning the members of the local post held their business session when several candidates for membership were initiated. Dinner was served at 12 o'clock, followed by a short impromptu program. At this time several of the visitors present gave short talks which were greatly enjoyed.  
Following the program the regular business session of the W. R. C. was held with the president, Mrs. Flora M. Pixley, in charge. Two new members were initiated and one transfer member was initiated. The new members were Mrs. Wood of Eagle Rock and Miss Helen Page, and Mrs. Katherine Ketchum of Illinois, the transfer member.  
Several announcements were made and business transacted of interest only to organization members.

# Major Operations at Glendale Sanitarium

The following operations have been performed recently at the Glendale Sanitarium and Hospital:  
Master William Smullin, 513 North Painter avenue, Whittier, major.  
Mrs. H. W. McGuire, 1221 Justin avenue, major.  
Mrs. I. M. Templeman of Glendale, minor.

**FLAT WHITE, IVORY OR GRAY PAINT**

Coffee—Tea—Milk

# COMALT

## The New Chocolate Malted Milk

In syrup form "Comalt" in its finished state forms perhaps the most adaptable food product that is before the public today. It is quite one thing to use and consume something that while it may be pleasant enough to eat or drink has no value to your health or the well being of your children. A drink of "Comalt" cold, a cup of "Comalt" hot, or whatever way it may be used, gives you all the pleasure while consuming it and then the real healthful effects begin. The nutritious ingredients used in "Comalt," all of the best quality, combine to make a perfect product that is outstanding in its value and will soon form one of your regular household staples.

If you cannot get "Comalt" in syrup form for household use from your own dealer you can get it from the factory and we will be glad to supply you until your dealer or druggist has it in stock.

When you order a chocolate malted milk at your favorite fountain or drug store ask for "Comalt." You are doing yourself a favor and your dealer is selling you something that will keep your custom.

Have the children use it.

# GREEN HILL BEVERAGES

It matters little how well known and liked any article may be, it is necessary sometimes to remind the buying public of its existence so that the favorite may be kept before them, and this applies to "GREEN HILL."

You like Ginger Ale or some other bottled drink. You should realize that ANY bottled goods bearing the "GREEN HILL" label are the best that knowledge and care of manufacture can be given you and there is also the added factor that they are MADE HERE IN GLENDALE. Your demand for these goods is not asked from any sentimental standpoint but purely on quality and value, and your realization that you are getting the "MOST OF THE BEST FOR THE LEAST MONEY" that can be given you. The plant of the S. W. Brown Co. is here, is open to you and you are welcome to inspect it and the public must begin to understand that their interest in the plants that make what they eat and drink will help keep up standards and create a better understanding, more especially in this case, as "GREEN HILL" and "COMALT" are local products and form part of an industry, the SUCCESS OF WHICH MEANS MUCH TO GLENDALE.

## Sunday at the Ball Park

The S. W. Brown Co. have pleasure in announcing that GREEN HILL PRODUCTS and COMALT will be sold on the grounds and will help to make the day a pleasant one. Go out on Sunday and enjoy the game and realize that this is an added Glendale attraction and deserves your attendance and support.

## MANY FAVORITES IN CAST OF PLAY

Well Known Local Amateurs  
Present Leading Parts  
in 'Oh-Ho' Comedy

A welcome array of the favorites in local theatricals will greet their many Glendale friends when "Oh-Ho" is staged. Practically every "lead" in the show will be taken by someone who has proven his or her right to a warm place in the hearts of the Glendale theatrical public, through past appearances here.

In three of the feminine leads will be seen Mesdames Charles A. Parker, Malburn Barker, and R. A. Puffer, Jr. Fine singing opportunities fall to Mrs. Parker and Mrs. Puffer, which will be pleasing news to their host of admirers, while Mrs. Barker has a most charming comedienne role that she is handling with her usual skill.

**"Fat" Comedy Roles**  
Joe Griffin, Captain D. Ripley Jackson, and Jack Stalling have the cream of the male roles. Each of these parts are what are theatrically termed "fat" comedy parts, and from the manner in which the comedians of the "Oh-Ho" show are taking to their roles it is certain that the Tuesday Afternoon Club will resound with the good hearty laughs on the nights this production is given.

Altogether the cast of "Oh-Ho" numbers in the neighborhood of fifty. These include, besides the "leads" a number of Glendale's fascinating girls, who will be seen in the many graceful dances in the college extravaganza, and some of the jazziest young men who will make merry with the college songs, yells, and campus "stuff" this show will put over.

Mrs. A. H. Montgomery, chairman of the show committee of the Tuesday Afternoon Club, claims that "Oh-Ho" will present a little more than two hours of the rarest theatrical entertainment that has been seen in Glendale in years.

## Music Program to Be Given at St. Mark's

An unusually interesting collection of music has been chosen by Mrs. Charles A. Parker, musical director, and Mrs. Joseph Kitt, organist, for the pre-Thanksgiving services tomorrow at St. Mark's Episcopal church.

In the morning the order of music will be: Prelude, "Offertoire" (Battiste); Processional, "For Thee, O Dear, Dear Country"; Venite (Robinson); Te Deum (Swift); Benedictus (Haudel); Introit, "Blest Are the Pure in Heart"; offertory, "The Recessional" (De Koven); recessional, "Brightly Gleams Our Banner"; postlude, "March from Queen of Sheba."

At night the music will be: Prelude, "Duetti" (Russell); processional, "Guide Me, O Thou Great Jehovah"; Magnificat (Russell); Nunc Dimittis (Pittman); Introit, "Jesus, the Very Thought of Thee"; offertory, "Berceuse" (Lamare); recessional, "All Praise to Thee, My God, This Night"; postlude, "Hosannah" (Diggle).

## Debris of Tia Juana Fire Is Cleared Up

(Continued From Page 1)

the red glare that the wooden buildings gave forth.

Hundreds of American visitors were courting the goddess of chance in the foreign club and the Tivoli casino in adjacent blocks when the fire broke out. They hurriedly left the roulette, dice and card tables and joined the rabble and rihald of the resort in a mad scramble for the free champagne that was being all during the feeble efforts of the saloon owners to salvage a portion of their choicest stocks.

Mexican authorities today denied reports that the fire had uncovered a money counterfeiting plant and a \$250,000 cache of narcotic drugs.

The race track and the larger gambling casinos are situated some distance from the scene of the fire, and were undamaged. The fire will in nowise affect the racing plant, which has announced its annual opening on Thanksgiving day.

In some quarters there were today expressions of gratification that the block had been destroyed. It was one of the oldest group of buildings in the town and presented a shabby contrast to the newer adjacent blocks. Fine buildings will be erected where the old ones stood, it was said.

## Teacher and Students Attend French Rally

Mrs. Ethel W. B. Bailey, instructor of French at the high school, and several members of the French club, went to Los Angeles Thursday afternoon, as the guests of the French colony of Los Angeles.

The occasion was the regular meeting of the French clubs of the Los Angeles and outlying schools, held at the Virgil Intermediate school, which furnished the program for the afternoon.

## VETERANS ARE GUESTS

Many of the members of Glendale Post No. 67, Spanish-American War Veterans, were guests of Ensign Bagley, Post No. 30, of Pasadena, last night. A short program was given, after which refreshments were served, followed by a social hour.

The tree-climbing kangaroo is common in North Queensland, Australia.

## COMMENT That's All

Young Men of Today, Read!  
Opportunities Not All Gone.  
Real Life to Reel Life.  
In the Good Old Days.

By Gil A. Cowan

Young men today are prone to deely conditions. You will hear them exclaim that they have not the opportunities of their forebears. And in the cities you find hundreds of young fellows milling away at jobs which never will support a family—without the wife working.

Talking with an old-timer last night who confesses he has been "a man and man" all his life and he is 65 today, so he has had some little experience. What is it that this veteran trader says? In summary, this:

"If I were a young man today I would trade around until I got two or three thousand dollars or more (which he claims to be an easy feat for an industrious and thrifty youngster) and then I would buy me some farm property and develop it. Yes, sirree, I would get out and raise things, including a family, here in the West where opportunity is best."

There you have an old-timer's declaration, folks, that opportunity still exists. Now for a couple of concrete examples: High school boy presented with some calves by an uncle to enter in a farm test. Boy gets great idea that he can be a cattleman at age of 16. Keeps his stock, invests his savings, borrows from his uncle, and, bingo! at the age of 19 he has herd of several hundred head and marketing a carload every whip-stitch. Fact is, he has a bank account and a business head that gives him a chance to buy out his uncle's mercantile business. So far everything is fine and he will likely be retired when we are able to earn an honest living writing comment.

Another instance of a Glendale high school boy who is making good in much the same manner. He went to war and served in the navy for four years. When he came home he was a hard-hitting, hail fellow with a desire to do something, but he had little money and no practical training for business. His personality might have made him something in a medicine show, but he never could have sold linens.

Well, this friend of ours has gotten started in the dairy business and doing fine. He is paying out on some valuable land which is increasing in value every day he keeps the cows, although he has to live in somewhat of a shack.

But to him that place is a palace. It is his own. He can do as he pleases with it. He can have a dog or a phonograph without disturbing the neighbors. And in ten years' time he will likely have a wife, four children, a limousine and a bank account twice the size of any of us ordinary folks.

We could ramble on with these stories of real life, but we know you would prefer to read something of reel life. Which causes us to wonder if acting is not fast becoming a lost art. At the theatre the other night we saw a well-known vaudeville star carrying the heavy feminine role in a comedy-drama. True, she is competent, but what a whirl of fate it is to find vaudeville actors in films. Why?

And how about the pianists, traveling salesmen, former army officers, etc.? Is all life a stage and all of us its actors? Shakespeare said so, but William wanted experienced players. So does every other producer. And, if we analyze the situation correctly, the cause, effect and cure of our present lack of actors and directors, particularly in films, is this:

In the good old days every city of 5,000 or more had a stock company, perhaps for only part of the year. There it was that students of drama got their training and first taste of applause, which ultimately spells success. There it was that showmen had their opportunity to display their ability and ingenuity at putting productions together.

Now all of this class has been absorbed and emasculated by the film industry. The motion picture houses have put the 10-20-30-cent stock companies out of business. And the industry itself is choking for lack of new stars, new directors and new dramatists. Civil engineers, architects, musicians and the like have been pressed into service. It has been costly, but films had to be made at any price.

Now as to the cure. The industry is yet in its infancy. It cannot step out and make actors out of school boys and actresses out of sales girls. It will have to recruit. The office boy of today will be the technical director of tomorrow. The kid who carries the camera or the girl who takes community playing seriously, like the Glendale Community Players, will be the stars of tomorrow. For they alone know the art of pleasing the public—and that is what the public will pay for, nothing else but!

The month is fast drawing to a close. Only a week left in which Glendale builders can shove the total of permits over the million mark. Let's go! Glendale! "Fastest Growing City in America."

## ENTERTAINS PARTY

Miss Genevieve Burr of 1123 Campbell street is hostess today to a party of friends who motored to Ontario to attend the San Bernardino-Glendale championship football game. Members of the party are Misses Gladys Jordan, Gracia Boynton and Margaret Sharpe, and George Hall and Richard Randall.

LEASE FOR SALE

## WILL DISTRIBUTE REOS TO VALLEY

Glendale Agency Will Handle  
San Fernando Region  
Market for Cars

Glendale is to be the distributing center for the San Fernando valley for the Reo motor cars, it was learned this morning when announcement was made by Scott Company, 110 West Harvard street, that a five-year lease on the property at 124 South Orange street had been taken by the Reo Motor Car company of California. The property is owned by Fred S. Hill.

Work of remodeling the building, a one-story brick, 50x140, is already under way and will be ready for occupancy about December 1.

The building will be devoted wholly to Reo service, with space provided for accessories and repair work. All Reo cars for the San Fernando territory will be distributed through this branch.

## Rev. Kline to Talk to Epworth Leaguers

"Win My Chum Week" has been observed this week by the Epworth league of Casa Verdugo Methodist church with a series of special meetings. The opening meeting was held Sunday night, led by Miss Alice Green. An indoor campfire will be a feature of an informal meeting tonight, Saturday, when the young people will be addressed by Rev. Lee C. Kline, pastor of the Central Avenue Methodist church. The closing meeting of the series will be held Sunday night, led by Miss Maud Soper, president of the organization.

## Authority on Judaism Will Lecture Sunday

Dr. Thomas Chalmers, of New York, an authority on Jewish Missions, editor of the "Jewish Missionary Magazine" and author of several books on prophetic subjects, is making a tour of the Pacific coast, and will speak at the Gospel Tabernacle, corner of Louise and Chestnut streets, at 11 o'clock Sunday morning.

## COMALT DISPLAY FOR HOUSEWIVES

New Malted Milk Product Is  
Used as Base in Many  
Tasty Delicacies

"Comalt" is becoming a most familiar word to Glendaleans and those who have already been won by this chocolate malted milk drink from the S. W. Brown company at 463 Los Feliz road, will be interested in a display recently at the Brown plant illustrating the value of "Comalt" to the housewife.

The display included tempting pies, cakes, puddings, custards and other delicacies fresh from the oven, all built on "Comalt" as the basic ingredient.

This added value to this remarkable new chocolate malted milk in the syrup form indicated a tremendous growth in what is destined to be one of Glendale's leading industries.

In connection with these uses of "Comalt" there is being arranged a recipe book, telling what "Comalt" will do and how it can be done. Glendaleans interested are invited to send their names to the Brown company and these cook books will be sent to all desiring them. All envelopes are to be marked "Household Department."

## WORKING TO-DAY FOR TOMORROW

**FERBER'S**  
108 So. Grand  
The Store of the Town

## NAZARENE SERVICES

A special service is to be held at 7:30 o'clock tonight by the Nazarene church at 1032 South Glendale avenue. Rev. Hatfield will speak, and there will be special music.

Anticipated payments are demanded from the richest man if he is to gain an enviable position.

## Two Bomb Explosions Wreck Bank, Consulate

(Continued From Page 1)  
that damaged his office, unconscious of its deadly menace.

"I came home from downtown," he said, "and saw the package on the top step against the door. I picked it up and

looked it over, then set it aside as I had work to do. Until ten minutes before the explosion, I was working not two feet away from the package. I went upstairs to get some papers.

"When the blast came, the door to the room was torn off its hinges. I ran down to the street, then made my way to a telegraph office and sent a cable to Madrid."

"I blame the outrage on an-

archists—organizations of communists with Bolshevik ideas. Personally, I have no enemy in the world," Senor Ortiz concluded.

## BIG INCREASE IN FACTORY OUTPUT

Third of Million Cars Are  
Built in October; 50  
Per Cent Boost

DETROIT, Mich., Nov. 24.—Production figures for October exceeded all expectations, according to shipping reports made to the National Automobile Chamber of Commerce. It is estimated that approximately 361,000 cars and trucks were built, thereby dealing a death blow to the croakers, and the gentry who once placed the automobile in the luxury class. This represents an increase of 51 per cent over the output for October, 1922, and is 11 per cent greater than the month of September, this year.

Production for the General Motors group in October was the outstanding feature, the corporation establishing a new high monthly record by building and selling 86,800 cars. May of this year held the previous record with an output of 75,000 cars and trucks. Incidentally General Motors schedule for November calls for the production of 83,000 cars.

**Set New Mark**  
Ford continues at a record-breaking pace. October was the third largest month in the company's history with an output of 185,824 cars and trucks. Cadillac reports for the first six weeks after the launching of the new V-63 show an increase in sales of 44.8 per cent over a similar period in the sale of preceding model. Production for the same period is also running 42 per cent higher.

More than 60 per cent of the output of Detroit and Michigan factories is being devoted to closed cars, thereby fulfilling predictions made early this year. An encouraging feature uncovered by reports, is that the increase encompasses the entire market, instead of being confined to any one price group.

**Great Increase**  
Production for the ten months ending October 31 was 3,388,785. This represents an increase of 60 per cent over the corresponding total for last year, which was 2,119,111.

Shipment figures for October show a total of 41,700 carloads, 39,200 driveaways and 3000 shipments by boat. Carload shipments were the highest since May, while oddly enough despite excellent weather driveaways show a slight falling off over September.

## Girl Autoist Now Is Threatened by That Bulgin' Shin

SACRAMENTO, Nov. 24.—"Bulging shin," developing on the right leg of young women students who use the automobile excessively, is the latest menace to California university and high school co-eds and may have a material effect on the length of skirts in generations to come, according to the startling announcement made by Dr. Herbert R. Stolz, state director of physical education.

"This unique malformation," said Dr. Stolz, "makes its appearance from the knee down on the leg with which the school girl motorist steps on the accelerator. 'Bulging shin' among school girls is much more prevalent than the lopsided effect recently observed among co-eds at the state university and attributed to the fact that books are habitually carried on the same arm. The average co-ed spends more time each day driving a car than she does carrying books."

## Motometer Rise Is No Cause for Grief

Do not be alarmed if the motometer seems to register a higher radiator temperature after you have filled up the cooling system with water. It makes a difference in the reading, whether the water or just the water vapor comes in contact with the stem of the thermometer. If actual contact with the water makes enough change in the reading of the motometer to lead you to assume that the motor is running hotter than usual, it is best to drain off a little water. Perhaps when the excess of water is drained off, the motometer will still register higher than usual—an indication that the other causes apply.

## Crowding on Crossings Dangerous Practice

Following closely in the wake of another car when crossing a railroad track is bad policy. The driver of the car ahead may not take the simple precaution of looking to see whether the coast is clear. He may just get over in time. Thus the man who follows directly behind him may be a moment too late, and if he does not happen to know how to shift up he will find the road ahead blocked by the other car.

## MANY ENDURE HARDSHIPS ON ROAD

Spell of California Is Too  
Appealing for Poor  
To Resist, Claim

That many people who are coming to California by automobile are experiencing hardships because of their inability to support themselves and their families along the way, is the substance of reports which have been heard here recently. Others, more fortunate than their fellow motorists, have met these destitute families of California-bound tourists and have been astonished to hear their stories of suffering.

The coming of cold weather in the East has prompted many of these wandering families to migrate to the West. Inexpensive automobiles have aided these people to leave their homes, pack their household goods into every available space in the family "lizzie" and set out for the unfamiliar country called California.

Consequently, one cannot make a transcontinental journey these days by motor car without encountering dozens of just such families, men, women and children and sometimes the family dogs and cats—all facing hardships that they may reach the "land of sunshine." Sometimes the head of the family gives up a job and with his meager savings leaves for California, where, he believes, there will be plenty of work for him to do. Often these emigrants have a vague idea of this state, and when asked where they are going reply: "Out to California. We don't know where we will go when we get there." It takes courage to undertake a journey of this kind, with the goal so obscure, but these humble folks are not lacking in that attribute.

**Broke But Hopeful**  
Here is the story of one family encountered in one of the desert towns which in itself is so ominous to the traveler, be he rich or poor. The head of the family accosted a prosperous-looking motorist with this question: "Say, stranger," he drawled, "can I sell you a good wrench?" "Why, I don't need a wrench," replied the p. l. motorist. "Why do you want to sell me the wrench?" "Well," said the descendant of the Arkansas traveler, "you see, I'm broke and I've got to sell (Continued on page 3)

## Traffic Official Finds Defects in State Motor Law

SAN FRANCISCO, Nov. 24.—California's new motor vehicle law is too far-reaching in its provisions, and steps should be taken to show its defects at the next legislative session, Captain Henry Gleason, head of the San Francisco traffic bureau, told chief of police and traffic officers from ten nearby cities at a meeting here.

"In many cases the speeder criminal escapes because the new law requires the officer to cite the speeder and then let him go. Police officers are often at the mercy of speeding criminals who are escaping, and it is difficult to hold them under the new law," asserted Gleason.

Reduction in deaths in San Francisco automobile accidents for the first ten months in 1923 to seventy-nine, as against 104 in the same period in 1922, was largely due to the public safety department's campaign, according to Percy E. Towne, chairman of the automobile association's safety department.

## ATTACK UPON AUTO LAWS STARTED

Speeding Case Will Go  
Before Highest Court  
For Its Verdict

In the interest of uniformity and to clarify enforcement, the California State Automobile association, through its legal department, will attack the constitutionality of three provisions of the state motor vehicle act, George E. Stanford, the association's general attorney, announced.

The provisions in question cover the elimination of speed traps, the requiring of traffic officers to patrol the highways in uniform, and the giving to motorists of five days' notice on which to appear for misdemeanor violations of the act.

Recently, with the co-operation of Chief of Police Daniel O'Brien of San Francisco and Captain Henry Gleason of the traffic bureau, the association attempted a "short cut" to the supreme court through a test case. J. P. Barry, one of the association's attorneys, drove through a speed trap, was arrested by officers not in uniform, and charged with driving in excess of the speed limit.

**Wait Is Denied**  
Barry was booked immediately, found guilty by Police Judge Silvan J. Lazarus and went to jail when he refused to pay the fine imposed. Through this procedure, Stanford had hoped to obtain an immediate hearing in the supreme court through filing a writ of habeas corpus. The court, however, denied the writ on technical grounds and ruled that the matter should have come before it on appeal through the lower court. Stanford has now filed notice of appeal in Barry's case with the superior court and hopes to carry the case through until a binding decision is secured from the higher courts.

## Motor Truck Proves Adjunct to Education

California is not the only state where motor trucks are an important adjunct to education. The phenomenal growth of the consolidated rural school system in this state would be impossible without the aid of school busses to transport children to and from school.

Mississippi, in developing its rural schools, offers an interesting parallel. The state has gone vigorously into the plan of consolidating its one-room district buildings into centralized schools, which can supply all the advantages of the city, and 120 such schools were established in the past year.

The motor truck school bus has made this great advance possible, as 25,000 children are transported to and from school daily during the school season. It's a tip to dealers.

## WOBBLY WHEELS

The "shimmying" of front wheels is due to the housing of the steering gears working loose from its support to the frame of the car. In this case, a careful inspection should be made of the entire mechanism and all parts of support and contact should be tightened.

## REGISTRATION INCREASE

Registrations of motor vehicles in the United States have increased from 3,512,996 in 1916 to 13,002,427 on July 1, 1923.

## URGES PUPILS TO SUBMIT ESSAYS

Highway Board and Auto  
Club Interested in  
Annual Event

Glendale school children up to 14 years, who may be in the fifth, sixth, seventh and eighth grades, are eligible to enter the National Safety Essay competition, by writing essays upon the virtues of safety and prevention of accidents on the streets and highways.

The third annual contest of this character under auspices of the National Highway Education Board, Willard building, Washington, D. C.

The Automobile Club of Southern California, through its safety department, is co-operating with this body in arousing interest in the contest, according to M. B. Towman, manager of the Glendale office of the club.

"It is the hope of the Auto Club," says a bulletin received by Mr. Towman, "that every school boy or girl in Southern California who is eligible by the age limit, to enter the competition, will write an essay."

Rules of the contest provide that essays must not be more than 500 words in length, and must be placed in the hands of the contestant's grade teacher not later than December 4. The essays are forwarded by the teachers.

The first prize winner will get a free trip to Washington, D. C., and a gold watch. The second and third prize winners also will receive gold watches.

Nationwide interest in safety and accident prevention has been generated by these successive essay contests, it is stated. This interest is general, it is said, although the basic idea of the contest, is to inculcate the attributes of caution and safety among the rising generation—the motorists of tomorrow.

It is hoped that the rising generation will be more careful than the present adult population.

## Japan's Autos Mostly Destroyed by Quakes

At the time of the recent earthquake and fire there were approximately 12,500 licensed automobiles in Japan, of which 5,700 were credited to Tokyo, a city of 3,000,000 people. In Yokohama, with a population of about 400,000, there were about 1,000 cars. It is known that hundreds and perhaps thousands of automobiles were destroyed by the catastrophe. Much talk is heard here among representatives and dealers of foreign-made automobiles of the potentiality of Japan as a market for cars. It is evident, however, from a survey of the situation and existing conditions that there can be no great demand for automobiles in this country either now or in the remote future.

In no possible way can it be figured that Tokyo, Yokohama, Kobe, Osaka, Nagoya and all the other cities and towns of Japan with all their population combined can, in their present condition, absorb as many cars as are sold in a city of 100,000 people in the United States. The reasons are too apparent to leave room for argument, although enthusiastic trade boosters have visions of a removal of the physical, financial and other difficulties that now make Japan almost a nonentity so far as affording a market for automobiles is concerned.

## Weak Valve Springs Can Be Easily Fixed

A simple means of testing for weak valve springs is to insert a screw driver between the coils, so as to increase the pressure of the spring. The exhaust valve springs are the most frequent offenders and cause misfiring. The reason for this is that when the throttle is closed, the piston cannot draw in much of a charge and consequently it sucks the exhaust valve open and draws back some of the burnt gases, which spoil the charge in the cylinder, thereby causing it to misfire.

## Newspaper Is Best Advertising Medium

Automobile dealers who employed advertising in newspapers in the sale of used cars sold three times as many used automobiles and for higher average prices than did the dealers who did not use such advertising. This is a statement by Lynn M. Shaw, assistant general manager of the National Automobile Dealers' association, who worked out these results as one phase of his study of the used car business which he has been carrying on for the national association since October, 1921.

## America, France, Argentine, Italy To Be Represented In Thanksgiving Contest

LOS ANGELES, Nov. 24.—Southern California automobile racing fans will not only have an opportunity to witness a battle for the championship of the speedways on Thanksgiving day but they will also be present for an event that smacks of an international air. America, France, Argentine and Italy will be represented on the famed Beverly Hills mile and a quarter bowl.

While the contest between Jimmy Murphy, 1922 national champion and Eddie Hearne, title holder in 1919, will be the main attraction—titular contest always are most important in the eyes of the spectators; Martin De Alzaga, the mad driver from the Argentine and Antoine Mourre, equally reckless son of France, will furnish a lot of thrills that will bring even the most blasé spectator to his toes, those who have had the opportunity of watching these pilots practice declare.

**New Creation**  
And then there is Ralph DePalma, who has a record no other driver has ever been able to equal. Ralph will be behind the wheel of a brand new Miller creation, built especially for him by Harry A. Miller. DePalma with this car promises to be the great DePalma of old, the pilot who is satisfied with none other than first place. His popularity with Los Angeles speed fans is the same as with spectators everywhere else. Everyone is anxious to see him take the checkered flag.

In February he was out in front of Jimmy Murphy and driving in his old style when a tire blew out, forcing him to his pits. Yet with even this handicap he finished third, bringing the assembled thousands to their feet and again by his wonderful generalship.

In practice Ralph has shown enough speed to make the other competitors look worried. They found by clocking him he was circling the Beverly bowl in record time and doing it consistently. His new Miller car handled beautifully and with him at the wheel a week from tomorrow it will behoove the remainder of the field to watch out.

The question in the minds of many undoubtedly will be, "What about the DePalma luck?" On the dirt tracks this year he has been a consistent winner. Perhaps he is due now for a victory on the boards.

**Has Good Record**  
Mourre is a newcomer to the speedways. This will be his first race on a wooden tounen but on the Continent his feats of daring and generalship have made him a gentleman not to be held lightly.

Now then, comes the big question—Will James Anthony Murphy be returned champion for a second year, or will "Grandpa" Eddie Hearne take first honors? Sentiment seems evenly divided between the two, though Murphy's battle has more color to it than Hearne's.

Jimmy went to France the leader in points; he returned to find a veteran out in front. They

## INSTRUCTION BY EXPERT BIG AID

Novice Driver Gets Good  
Words of Advice From  
U. of C. Engineer

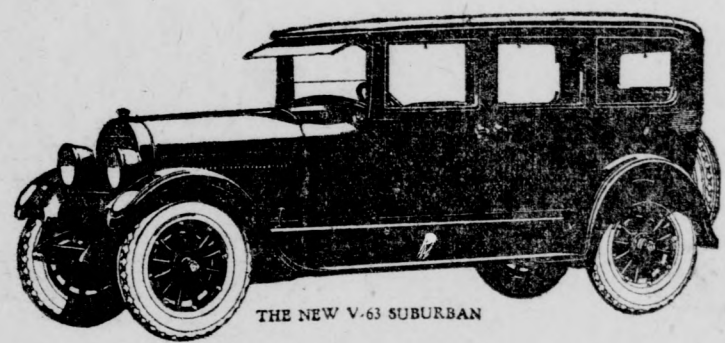

By B. D. MOSES  
Agricultural Engineering, University of California  
"A little knowledge is a dangerous thing." We often hear it quoted, and when talking to a friend who has learned a little, by hearsay principally, about automobiles and he tells us how he primes his engine when he stops it by speeding it up and shutting off the spark; and how he cools his motor nicely by running down hill on compression, little do we think of what damage he might cause us to do to the best mechanical friend we have.

Suppose someone were to tell you that every time you stopped your sewing machine you should take a rag and carefully wipe off all the oil from the bearings and then when you started up next time reoil it. Would you take his advice? This is, in effect, what you are doing when the engine is speeded up and run several revolutions with the spark off.

**Proves Harmful**  
Raw fuel is drawn through the carburetor, condenses in the cylinders and quite thoroughly washing all the oil off the cylinder walls and pistons and then when the engine is started again instead of finding the cylinders and pistons with a good film of oil, they are dry. Not only is this the case but the engine can even be over-primed and continual practice of this treatment will very harmfully dilute the lubricating oil in your crank case.

A man recently told his friend that he had a stunt for cleaning his spark plugs. "I just retard my spark and let the engine run hot and burn off the oil on the plug," he said. Now, instead of getting out of the machine and locating the plug and cleaning it properly his fellow heats up his whole engine and then nine times out of ten does not get the results.

**Harder to Vaporize**  
Another fellow rejoices over the fact that he can use heavy fuel, maybe distillate, by simply patronizing his drug store and dropping in the gasoline tank a few moth balls. Now the real effect of adding moth balls to gasoline is to make it heavier instead of lighter, and at the same time make it burn with a heavier deposit of soot. So, instead of helping his engine materially, he's making the gas harder to vaporize and dirtier in its combustion.

THE NEW V-63 SUBURBAN

The beauty of the new V-63 bodies, the unequalled smoothness of the new harmonized and balanced V-Type eight-cylinder engine, the efficiency of Cadillac four-wheel brakes—all are reasons why you may approach the new Cadillac with great expectations.

## Here Is a Car Which Is Worthy of Its Pedigree

Packard reputation for building to finer standards goes back to the first Packard built 24 years ago.

Men who have known Packard cars for two decades will tell you that Packard prestige has grown every year.

The name Packard means more to-day in complete motor car satisfaction and enjoyment than it has ever meant.

For it means to the present generation something infinitely more than superior design and finest manufacturing.

How Packard brought fine car engineering and workmanship

within the financial reach of new thousands, is one of the outstanding achievements of motor car manufacture.

Packard represented to older generations the finest in fine car manufacture.

Packard Single-Six today means all that, plus an amazingly low first cost, plus 16 to 18 miles per gallon of gasoline, plus up to 20,000 miles and more from a set of tires, plus minimum maintenance costs under Packard's service plan, plus many years of perfect performance.

Don't fail to ride in the Single-Six.

## UNEQUALLED CAR VALUES OFFERED

Hudson and Essex Autos Are Bringing Lowest Prices In Firm's History

Despite the hue and cry of depreciated money values, never have buyers of automobiles been afforded such buying opportunities as today," said P. J. Kelley, of the Kelley Motor company, 228 North Brand boulevard, distributors of Hudson and Essex automobiles. "This applies to nearly every make of car," he continued, "but particularly to the Hudson and Essex lines, which are selling at the lowest prices in their history despite the much added value. Only recently the Hudson Motor Car company announced substantial reduced prices on all Hudson models.

"This has all been accomplished through improved factory methods, and perfecting a design in car which the Hudson people have found to be right in every particular, and adhering to this design exclusively.

"The same quality material is used today in manufacturing Hudson and Essex cars as has always been employed, and there have been constant improvements in design."

## GROWTH OF AUTO BUSINESS SHOWN

Maxwell Agent Recalls the Days When Benzine Buggies Scared Horses

Twenty-five years ago somebody in Carben, Pa., built the first "benzine buggy." Then came the period of frightened horses and inventors driving their own creations in races to assure a smiling, skeptical public that the motor car was a safe vehicle.

Later whole towns turned out to see a chugging, coughing "horseless carriage" passing through. It was an event comparable to a balloon ascension and parachute leap.

But a little group of pioneer manufacturers kept going, kept growing and putting all the speed they could generate into their power wagons. Small workshops grew into little factories.

One of the most interesting developments in automobile business in years is the Maxwell and Chalmers organization. Three years ago they stood in seventeenth place on the list of cars sold in California. Last month in Glendale the Maxwell held third place.

There are eleven different models built in the Maxwell line and six different models in the Chalmers, making a total of seventeen cars to select from, and comprising one of the most complete assortments ever turned out by any manufacturer.

"We are proud to be the representatives of such an organization in this territory," says Lyman P. Clark of the Glendale Motor Car company, Maxwell and Chalmers dealers, 124 West Colorado street.

## TEST RUN SHOWS TRUCK ECONOMY

Gray Makes 10,152 Mile Journey Under Conditions That Prove Stamina

Maintaining the precedent established by Gray passenger cars, which hold the world's economy record of 33.8 miles per gallon of gas on a coast to coast run, the Gray truck, in a recent test, hung up an exceptional record for economy and reliability.

This test run covered 10,152 miles, with a 50 per cent overload, 5,700 miles having been made without stopping the engine. Three shifts of drivers were used, eight hours to a shift, and a continuous speed of twenty-four miles an hour was maintained for practically the entire 10,000 miles.

Throughout the run, every sort and condition of roads were encountered in this territory around Detroit, and even the steepest hills were taken on high without difficulty.

Economy of the low speed, low compression Gray engine was fully demonstrated, gasoline consumption for the entire run of over 10,000 miles averaging but eighteen miles to the gallon, while oil consumption was only one gallon to 700 miles.

"This test run has furnished additional proof," says W. H. Daniel, president of the Dixie Packard company, "that the many unique features of Gray construction have thoroughly vindicated themselves."

## HAZARDOUS SOFT TIRES

It is dangerous to run a car with a soft tire, especially if the rim is of the quick detachable type. Soft tires, especially on front wheels, make steering difficult, consume extra power, and may accidentally be pulled off the car easier than if they were properly inflated. Throwing of tires is dangerous; if the car is traveling at high speed, it may even cause the car to overturn.

Darting bat that catches insects—Poison things that make us ache—Winged mouse or furry birdie, As a friend you take the cake.

## NASH SCORES IN 487 MILE SPRINT

Australian Speed King Hurls Stock Car Over Roads in Record Time

Patrick John Browne, a well known racing driver of Sydney, Australia, came to this country a few weeks ago to complete his plans for participating in the various national automobile racing meets. Upon his arrival, he purchased, for pleasure and transportation purposes, a six-cylinder, five-passenger Nash automobile.

While in Southern California, the speed fever struck him. He left Santa Monica on Saturday, September 15th, in this car, with top, windshield, side wings and all of the usual equipment, with his mother and father in the back seat and his sister by his side—he left Santa Monica, mind you, at 7 a. m., and on the same day at 4:47 p. m. landed the party, bag and baggage, at the salesroom of the Pacific Nash Motor Company on the corner of Washington street and Van Ness avenue, San Francisco.

He was blocked by a train in Los Angeles for five minutes; took the wrong road at Oxnard, losing three minutes; stopped for gas at Santa Maria and Salinas, consuming eleven minutes and twelve minutes respectively, making the total time—out for stops thirty-one minutes—an actual running time of nine hours and sixteen minutes for a total distance of 487 miles, which gives an average speed of 52.5 miles per hour.

Patrick John Browne's idea of pleasure transportation is speedy, to say the least. This record is phenomenal, in that it has never been duplicated by high-powered automobiles with the stage all set; with the roads cleared, and with the creak of the various constables en route, or even with the United States mail franchise.

Patrick John Browne had none of this assistance. What he did have was the speed spirit, and a Nash automobile. This six-cylinder, five-passenger Nash automobile was stock in every respect, a duplicate of the thousands seen on the streets, daily—just "Another Nash."

"This record is authentic, even though not officially sanctioned," Patrick John Browne and his Nash were out for this record for the joy of the thing and no considerations were offered or received," says Donald H. Barbee, of the Nash Sales Co., Inc., 112 South Maryland, local agents.

## RICKENBACKER TO ENLARGE OUTPUT

Additions to Plant to Permit Doubled Production During Next Year

Preparatory to doubling its production for the year 1924, Rickenbacker Motor company is making several additions to its manufacturing plant, which now covers eight acres of floor space.

"Everything points to the biggest year the motor industry has ever known for next year," says Lewis F. Reed, 107 East Colorado street, Glendale distributor, "and, while we are not ambitious to make all the automobiles in the world, we plan to make one hundred cars per day next year."

"Our production for the present year averages about fifty cars per day, although at times we have hit as high as seventy."

"The principal addition now being made to the plant is that of a second story on top of the big main machinery building. This will add about 60,000 square feet of space, and release that much ground floor space in which we can install additional machinery and lengthen the assembly line a few hundred feet."

## DEPENDABLE CAR AIDS MOTOR JOYS

Reliability and Roadability Main Requisites for Long Auto Trips

The joys of automobile touring are enhanced when the trip can be made in a car that is dependable at every stage of the journey, according to Ray L. Galvin, sales manager of Tanner & Hall, 237 South Brand boulevard, distributors in this territory for the Buick cars, and the many unexpected demands that are made on the car, as well as the constant need for attention on the part of the driver, mean that a car must be trustworthy in every particular.

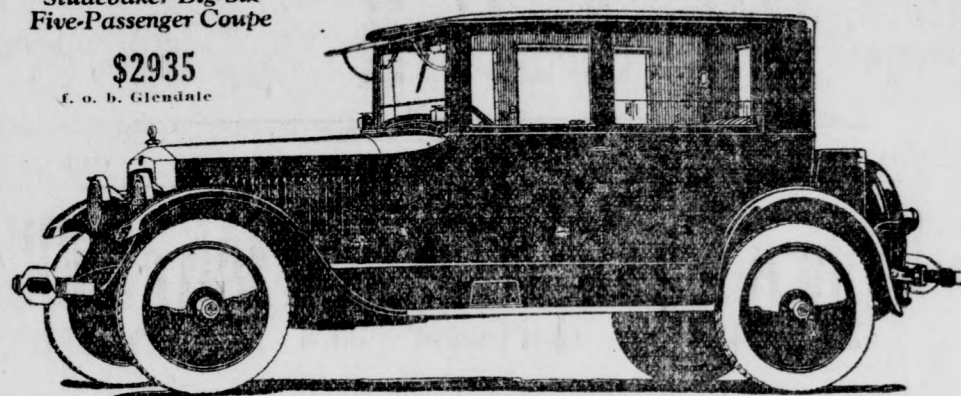

"Unexpected turns on the highway may demand a quick stop, steep hills or bad roads demand lots of reserve power, and many other touring obstacles are liable to crop up at a moment's notice to bother the tourist," Mr. Galvin continued. "And it is just in that kind of driving that the Buick stands pre-eminent, with its ease of handling that permits a driver to travel all day without a sign of fatigue, the reliability of its 4-wheel brakes that hold the car on a quick turn or on a steep descent, while its new engine sends it up and over the highest hills with an ease that is a revelation to motorists who have covered thousands of miles under all conditions."

"Buick touring is rendered

## HADDONS PRAISE OAKLAND METTLE

Four-Wheel Brakes Perform Wonders on Long Trip From Mississippi

Mr. and Mrs. Louis A. Haddon of Pontiac, Mich., pulled up in front of the Oakland agency, 215 West Colorado street, Monday morning to tell Thos. E. Ricketts, local Oakland dealer, the story of how their new four-wheel brake, true-blue Oakland had performed on the long, muddy trek across the mountains and prairies.

Mr. Haddon said: "You can not praise the new car too highly for sturdiness and dependable performance. We came through without any trouble, under road and weather conditions which would severely try the mettle of the sturdiest motor car." Mrs. Haddon added: "Whatever good you say about this car you really can not exaggerate."

They especially praised the way the four wheel brakes helped the car to hold the road in slippery going, noticing that while other cars in their group were sliding around all over the highway, the new Oakland plugged right along without any trouble, and without requiring chains.

The frugal air in which the Oakland calmly passed by gasoline stations was also very pleasing to Mr. and Mrs. Haddon when they noticed the regularity with which their friends in the caravan patronized these establishments.

It was a stock joke with the party that some cars in the group never missed a service station from the Mississippi river to San Bernardino.

In spite of the almost continuous muddy roads, Mr. Haddon reports a gasoline performance of eighteen and a portion miles to the gallon for the trip, which indicates that the new Oakland may even exceed the wonderful economy record of the Yosemite economy contest-winning 6-44 models. Contrasted with their hair-raising adventures in getting in and out of deep gullies, Mr. Haddon commented especially on the comfort they enjoyed with the glassed-in enclosures which convert the new Oakland from an open touring to a closed car in a few minutes' time.

They slept in their snug "house on wheels" every night, and, having a heater and electric lights at night, enjoyed the cozy comfort of a home, no matter how cold or rainy it happened to be outside.

Car Proves Mettle The unusual weather conditions which turned the trip into a real adventure and made it something to remember for a lifetime, also gave the new car an opportunity to prove its mettle, and the genuine and enthusiastic admiration of Mr. and Mrs. Haddon are the finest kind of a tribute to the sturdiness and reliability of the new Oakland.

Mr. and Mrs. Haddon are at 234 North Jackson street for the present and plan to spend the winter in Glendale and possibly may make this their permanent home.

## FORD PIONEERING IN SELLING CARS

Families of Moderate Incomes Offer Immense Market for Huge Outfit

"In the merchandising of automobiles it is rapidly becoming recognized by the dealers in other makes of cars that the Ford sales point out the general tendencies of the automobile industry from six to twelve months ahead of time," says Jesse E. Smith, local agent, 115 West Colorado street.

"In other words, the work done by Ford dealers is largely pioneering. According to the income tax returns, there are 350,000 families having an income of \$6,000 per annum or more, \$4,116,000 with an income of \$2,500, and it is to this immense clientele, as well as to the more wealthy residents of this country, that the Ford organization is appealing.

"Cheap and reliable transportation is one of the vital needs of the world today, and no organization is doing more to supply this need than the Ford Motor company. The terms on which the Ford cars are offered to buyers are bringing in orders that are steadily forcing the enlargement of the facilities of the Ford factories, as is shown by the monthly reports that reach us here, and the end of these improvements in the factory are not yet in sight."

## Endure Hardships to Reach Golden State

(Continued From Page 1)

something in order to buy gas enough to get to the next town." And he pointed to his famished and dilapidated looking car where his wife and child, half-starved, all of them, were waiting for his return.

"What are you going to do when you get to the next town?" he was asked.

"I dunno," he replied. "Perhaps I can get a job there. We're going to California."

Typical Incident This is only one incident in the experience of this family on the way to California. If they lived to get there, perhaps they have been fortunate enough to find work and a place to live.

Every day people of this sort, with more hope than knowledge, set out for what they believe is the land of promise. In many cases they cannot be blamed for leaving their surroundings in the

## CAR FORMS IDEAL CHRISTMAS GIFT

Chevrolet Agent Advocates Presents of Autos at Holiday Season

The "dotted-up, spiffy looking Chevrolet sedan that C. L. Smith, local district agent, is showing in his Colorado and Orange street show-rooms, is described by Mr. Smith, as being about all that anyone could desire in an automobile.

"This car," said Mr. Smith, "has everything that goes to make a good looking automobile. The black body, with the double gold line around it, carries an air of distinction, that gives this model a recognized standing among cars of any class, and allows the owner to park it alongside any of the higher priced automobiles without feeling in the least embarrassed. Taking this sedan from every possible angle, it is, in my opinion, just about the best looking model you ever saw."

"Now that so many people are planning their Christmas presents," continued Mr. Smith, "they easily arrange to surprise some member of their family with the gift of one of these sedans, or any other Chevrolet model, for that matter. The service that is given by the Chevrolet, during the year, is a powerful argument in favor of giving something useful, not only to the individual who receives it, but also to every member of the family. Upkeep charges are low on the Chevrolet; it facilitates the transportation of business, it lends itself to pleasure trips, and it renders its owner independent of other means of transportation."

## REVEAL DETAILS OF CAR'S TRYOUT

Cadillac Test of V-63 Model Averaged 318 Miles Daily Over 9000 Miles

An account of the hard tests to which the three first models of the new 1924 Cadillac were submitted, before they were placed on the market, has reached W. H. Court, of the Court Motor Co., Cadillac distributors, 235 South Brand boulevard, and the treatment that the three test cars had to stand, showed the in-built stamina and honesty of construction of the Cadillac in the most convincing manner.

The trip had been planned so that the officials and engineers of the company might appreciate the performance of the new cars under every driving condition, and the route followed from the factory to the Pacific coast and back, gave the cars every chance to show what they could do under any and all conditions, from mountain roads to battling gumbo mud.

The cars averaged 318 miles a day over a 9000 mile trip, and they only needed a few minor adjustments on the entire run. On the return to the factory, every part was found to be in perfect condition, the engines of all of them were running with a greater sweetness of action than when they started out, and Cadillac had written another chapter in the progress of the automobile with the introduction of the V-63 engine.

## CHAMPION SHOWS NOVEL FEATURES

Car Shows Clearly Defined Personality, Is Claim of Local Agent

"Here is a motor car—a closed car—that can be said distinctly to possess a clearly defined personality," remarked Geo. T. Smith of Smith-Sloan, Inc., 228 South Brand boulevard, local agents for the Willys-Overland company, after he had given the new Overland Champion a close and critical "once over."

Exclusive features, utilities and economies mark this model as one of the most convenient cars ever brought out. It is built to give the utmost in car benefits to the American family, the salesman, the merchant and the farmer.

Both front and rear seats quickly adjust forward and backward. The front seat adjusts to three positions, so that a tall driver can move it back to drive without leg cramp, and a short driver can move it forward so as to reach the pedals without stretching.

The rear seat can be adjusted backward so that rear seat passengers will not be crowded in the least when the front seat is adjusted backward. Both seats and upholstery can be entirely re-upholstered and made up into a comfortable bed the car, full length and width of the car, which is a much wanted boon for campers.

## AUTOS IN LIBERIA

The Republic of Liberia has only six automobiles in the entire country, which is fewer than are owned by many one-family groups in the United States.

East. They probably have slight conception of the difficulties to be encountered on the way or even of the distance to be covered. The desert stretches can only bring discouragement to them, and if they survive these hardships California must seem to them to be the Promised Land.

## U. S. AUTOMOTIVE ENGINEERS BEST

European Methods Far Behind Those of America, Says Oakland Man

The popular impression that European automotive engineering is superior to American engineering methods is not entirely justified, according to Benjamin Jerome, chief engineer of the Oakland Motor Car company, Pontiac, Mich., who has just returned from a two months' tour during which he visited the leading motor car plants of Great Britain, France, Belgium, Italy and Switzerland, and also the Paris and London auto shows.

"This is particularly true in reference to engineering that would make for production efficiency," explains Mr. Jerome. "In Europe the design of a motor car never seems to have economical production as its objective."

"Each individual tries to make a distinctive automobile, regardless of the cost. The result is that the individual features, in many cases, simply represent the whim of the designer."

"In fact, there is no foundation for the belief that European engineering is in advance of our American practice. Practically all of the features exhibited at the Paris and London shows are already found on American cars, including round wheel brakes, which are rapidly being adopted by the prominent makers in this country."

Thos. H. Ricketts, 219 West Colorado street, is the local agent of the Oakland Motor company.

## STUDEBAKER SIX IN NON-STOP RUN

5504 Miles in Seven Days Is Record Established in Syracuse Test

Running continuously for seven days for a distance of 5504 miles at an average speed of 32 9-16 miles per hour, a Studebaker Light-Six has just completed another remarkable performance record at Syracuse, N. Y.

The run was undertaken to demonstrate the merit of Studebaker Light-Six cars for performance, endurance and economy.

In seven days' time, the Light-Six delivered more than the average mileage for a whole year and did it so decisively that it is causing wide comment among motorists in that section of the country.

Outstanding features of the long run were the fact that the highest average for any one hour during the run was 48 miles; the highest speed, 67 miles an hour; the use of but three gallons of water for the whole run and the further fact that no air was put into the tires during the entire seven days.

The best gasoline average for a six-hour period during the trip was 23 miles, and for the whole trip, the average was 18.1 miles to the gallon.

Exclusive mechanical features of the Light-Six motor account largely for this remarkable record in the opinion of Stephen C. Packer, of the Packer Auto Co., 245 South Brand boulevard, local Studebaker dealers.

## Speedy Drivers Will Race on Turkey Day

(Continued From Page 1) ning in first and second places—sometimes Milton in the lead and sometimes Cooper—when they were forced out of the contest on account of motor trouble.

Reeve Dutton, manager of the team, in conjunction with Milton and Cooper, has been endeavoring to eliminate this trouble and announces the results he has obtained are quite pleasing. This means then that the two white creations are going to be dangerous.

The "Duesies" will be toiled by Bennett Hill, "Red" Shaver and possibly by Ernie Anstoberg, formerly mechanic for Joe Boyer and the late Roscoe Saries.

## Close Figuring

Hill needs no introduction. Everybody remembers the finish he and Murphy made at Beverly Hills, February 25. Only two hundredths of a second separated Murphy the winner from him for a moment or so thousands were undecided which had won. It was only the official announcement that brought the speculation to a close.

Bennett has circled the Los Angeles bowl at speeds better than 118 miles an hour in practice, so speedway followers know what that means. This is Shaver's first trip to the Pacific Coast, though he is reputed to be considerable of a dirt track star in the east. He has a "heavy" foot—and that means speed.

Announcement comes from the offices of A. M. Young, secretary-manager of the Los Angeles Speedway Association, that eighteen drivers will probably start Thanksgiving Day. Instead of sixteen as had first been stated. This number constitutes the capacity of the oval and if there are any more entries it will be necessary to eliminate all but eighteen.

## A TIRE TIP

Painting tires with liquid rubber, to which whitening has been added, gives them an attractive appearance and helps to preserve them.

## EAGLE ROCK AUTO FIRM WILL BUILD NEW HOME

Two Story Structure to Cost  
\$100,000 to Cover Three  
Lots on Colorado

One of the largest buildings in Eagle Rock will be erected at once by the R. A. McLean Motor Sales company at 2104 Colorado boulevard, on their present property and three adjoining lots which they have just purchased. The total consideration will approximate \$100,000.

Plans call for a two-story brick structure 125 feet on Colorado and 140 feet on Linden way. A spacious garage will occupy the rear of the property and the upper floor will be divided into sixteen offices.

The front will be either mission or tapestry brick. The ceilings will be high, it is stated, and there will be a mezzanine floor for the accommodation of the company's offices.

**Stars to Dance Tonight**  
The local chapter, Order of the Eastern Star, will close their activities for the year with a big dance in the Women's Twentieth Century clubhouse tonight.

Eagle Rock's \$250 contribution to the fire relief fund for the families of Clarence Edwards and J. W. McGowan of Glendale, who perished in the recent foothill fire, is "over the top," reports Mrs. J. C. Reiter of the Chamber of Commerce.

The Eagle Rock Parent-Teacher association has endorsed "any action looking toward establishment in this locality of a junior high school building."

All churches of the community will unite for Thanksgiving services at the Presbyterian church, 10:30 o'clock Thanksgiving morning, when Rev. E. J. Bradner of the Methodist church will make the address and other local ministers will assist in the ceremonies.

**"Tin Can Blues" Epidemic**  
Eagle Rock has the "tin can blues." It all dates back to November 10, when the trucks that were to come and collect the cans came not, neither did they collect.

Donnell G. Montgomery, secretary of the local Chamber of Commerce, then got on the wire with Mr. Los Angeles, with the result that one of the latter's representatives, J. Mather, who is in charge of garbage and tin can collection for the city, came out to Eagle Rock and looked over the situation.

As a result, he informed the aggrieved that their complaints were not justified, and departed after leaving for the perusal of the citizenry a number of do's and don'ts, too complicated to be reproduced here, but available at the local city hall on East Colorado boulevard.

However, every cloud has a silver lining, even if some of them

## OFFICIAL MINUTES OF COUNCIL

Following are the official minutes of the City Council which met in session at the City Hall Thursday night.

Council assembled at 8 o'clock p. m. All members present. Minutes of November 15th read and approved.

### Opening of Bids

In accordance with call, bids were opened, examined and publicly declared for furnishing the city with one Induction Feeder Regulator, from the following bidders:

Westinghouse Electric & Manufacturing Co.  
General Electric Company.

Bids referred to Superintendent of Plant and Production, for checking and report.

### Maps Adopted

Councilman Horn introduced a resolution entitled, "A resolution adopting map of Tract 7160, and accepting on behalf of the public the avenues, streets, alleys, and public places shown thereon," which was read, and on his motion, seconded by Councilman Hall, the same was numbered Resolution No. 2175, and adopted.

On motion of Councilman Davis, seconded by Councilman Hall, map of Tract No. 7531, same being outside the city, was approved.

On motion of Councilman Horn, seconded by Councilman Davis, map of Tract No. 7631, same being outside the city, was approved.

### O. M. Newby

Mr. O. M. Newby addressed the council, calling attention to a draw at the S. E. corner of Virginia and Cumberland, and the construction of a driveway which he claimed would divert flood waters upon his property.

On motion of Councilman Davis, seconded by Councilman Horn, duly carried, matter was referred to city attorney.

### Commercial District

This being the time set for hearing to set aside as a commercial district, lots 9, 10, 11, Tract 7160, clerk reported no protests received, and there were no protesters present. On motion of Councilman Horn, seconded by Councilman Hall, duly carried, city attorney was instructed to draft the necessary amendment.

**Improvement of Brand**  
This being the time set to receive protests against the improvement of Brand boulevard, with sidewalk, clerk reported no protests received and there were no protesters present.

**Improvement of Cerritos**  
This being the time set to receive protests against the improvement of Cerritos avenue, and a

look more like tin, and M. Le Moyne, who bought the original contract made by the then city of Eagle Rock, for the removal of such refuse, states that he will take away this trash.

To clinch the argument, the Chamber of Commerce has announced that if this garbage and can difficulty continues steps will be taken to foreclose the bond.

look more like tin, and M. Le Moyne, who bought the original

### Improvement of Windsor

This being the time to receive protests against the improvement of Windsor road, clerk reported no protests received and there were no protesters present.

### Opening, Widening Raymond

This being the time to receive protests against the opening and widening of Raymond avenue, clerk reported no protests received, and there were no protesters present.

### Improvement Watson Court

This being the time to receive protests against the improvement of Watson court and Elm avenue, clerk reported no protests received. Mr. Finney, a property owner in the district affected, addressed the council, protesting the proposed improvement. On motion of Councilman Davis, seconded by Councilman Hall, hearing was set for November 30.

### Chamber of Commerce

Communication from the Glendale Chamber of Commerce, regarding the improvement of Los Feliz bridge, and Los Feliz road, asking the council to take up the matter with the city council of Los Angeles, was read and on motion of Councilman Kimlin, seconded by Councilman Horn, ordered filed.

### Glendale Realty Board

Communication from the Glendale Realty Board, asking that council make a donation of \$200 to Glendale Baseball club advertising fund, was read and upon motion of Councilman Davis, seconded by Councilman Hall, duly carried, ordered filed.

### P. S. McNutt

Communication from P. S. McNutt, calling attention to danger from flood water on Sierra avenue, was read, and upon motion of Councilman Kimlin, seconded by Councilman Davis, duly carried, referred to city attorney.

### Commercial District

Petition signed by property owners, asking that lots 23, 24, 25 and 26, Tract 5196, be set aside as commercial district, was read. On motion of Councilman Kimlin, seconded by Councilman Horn, duly carried, city clerk was instructed to set the necessary date of hearing on December 6, 1923.

### First Class District

Petition signed by property owners, asking that lots 22 to 31 inclusive, Oliver's West Glendale tract, be set aside as first class district, allowing one single family residence on each separate lot, was read. On motion of Councilman Kimlin, seconded by Councilman Horn, duly carried, city clerk was instructed to set the necessary date of hearing for December 6.

### Industrial District

Petition signed by property owners, asking that a portion of lot 31, Tract 3784, be set aside as industrial district, was read and upon motion of Councilman Hall, seconded by Councilman Horn, duly carried, city clerk was instructed to set the necessary date of hearing on December 6.

### Lomita, Central to Brand

Petition signed by property owners, asking that a set back line be established on Lomita street, from Brand to Central avenue, both sides of the street, was read. On motion of Councilman Kimlin, seconded by Councilman Horn, a set back line of 10 feet was established, on the following numbered lots: 80, 81, 83, 86, 90, 91, Grider & Hamilton's Lomita Park tract.

### Set Back, Glendale Crest

On motion of Councilman Kimlin, seconded by Councilman Davis, a 3 foot set back line was established on lot 49 of the Glendale Crest tract.

### Lights, West Broadway

On motion of Councilman Kimlin, seconded by Councilman Davis, petition from property owners, asking that light standards be installed on Broadway, from Central to San Fernando road, was laid over.

### Sidewalk, Tract No. 7236

Application of John N. Carr to construct sidewalk in front of lots 1 and 2, tract 7236, was read. On motion of Councilman Horn, seconded by Councilman Hall, duly carried, recommendation of city engineer, that work be ordered done in accordance with petition, was approved, and so ordered.

### Trees on Monterey Road

Petition signed by property owners, asking that three oak trees on Monterey road be allowed to remain when street improvement is installed, was read. City engineer recommended that trees be removed for the reason that they would be dangerous to traffic. On motion of Councilman Horn, seconded by Councilman Hall, recommendation of city engineer was approved and so ordered.

### Los Feliz to Fernando

Petition signed by property owners, asking that proceedings be started to open an alley from Los Feliz road to Fernando Court, parallel with the Southern Pacific right-of-way, was read. On motion of Councilman Davis, seconded by Councilman Kimlin, matter was referred to city manager for investigation and report.

### Assessment, Kenneth Road

Petition signed by property owners, appealing from assessments made for the improvement of Kenneth road under resolution of intention No. 1875, was read. On motion of Councilman Kimlin, seconded by Councilman Horn, the following resolution was adopted: "Resolved: That all appeals from the acts and determinations of the street superintendent, in making and issuing his assessment and warrant for the costs and expenses of improving Kenneth road in the City of Glendale, from a line drawn thirteen feet northwesterly, and parallel to the southwesterly extension of the northwesterly line of Sonora avenue, to a line drawn one hundred fifty (150) feet northwesterly and parallel to the northwesterly line of Alameda avenue, and its southwesterly extension, and on portions of cor-

tain streets and alleys intersecting and terminating therewith, as described by resolution of intention, No. 1875, adopted and approved by this council, March 29, 1923, shall be heard by this council on the 30th day of November, 1923, at 8 o'clock p. m., at the council chamber, in the City Hall, No. 619 East Broadway, in the City of Glendale, and the city clerk is hereby directed to publish notice of the time and place of said hearing, in the form required by law for five (5) days in The Glendale Evening News, the official newspaper of said city."

### Improve Palmer

Communication from the Glendale city schools, regarding the improvement of Palmer avenue, from Central to San Fernando road, on motion of Councilman Davis, seconded by Councilman Kimlin, recommendation of city engineer, order to improve said street was amended to exclude the portion of the street fronting on the grammar school property from the district to pay the costs and expenses of same.

### Permit for Warehouse

On motion of Councilman Davis, seconded by Councilman Horn, Fox-Woodman Lumber company was granted permit to erect a warehouse at 714 East California, of frame construction, covered with galvanized sheet iron.

### Maple Street Reservoir

Superintendent of plant and production reported on the possibility of making a park at the Maple street reservoir. On motion of Councilman Davis, seconded by Councilman Horn, matter of ways and means was referred to city attorney for investigation and report.

### Call for Bids

On motion of Councilman Kimlin, seconded by Councilman Horn, city clerk was instructed to advertise for bids for one 100,000 gallon redwood water storage tank.

On motion of Councilman Davis, seconded by Councilman Horn, city clerk was instructed to advertise for two deep well pumps, capable of pumping 2400 gallons per minute, and one 2000 gallon pump, capable of pumping 2400 gallons per minute.

### Reward Check

On motion of Councilman Hall, seconded by Councilman Horn, check for \$25 received as a reward by the police department for recovery of an automobile was ordered turned over to Police-men and Firemen's Relief Association.

### Corral Verdugo Road

Report of sanitary inspector, regarding corral in the 2000 block on Verdugo road, was read and upon motion, ordered filed.

### Pacific Electric Stop

Communication from the city attorney calling attention to a letter received from the P. E. Railway, in which they call attention to the impossibility of making a stop at Fairview avenue, was read and upon motion, ordered filed.

### Marr vs. So. Calif. Gas Co.

Communication from the city attorney calling attention to report and notification from county clerk, that the case of Marr vs. Southern California Gas Company at al. was decided on the 21st day of November, and that judgment had been rendered for defendants and interveners, was read and ordered filed.

### Demands

On motion of Councilman Kimlin, seconded by Councilman Horn, demand in the sum of \$51.99 for taxes on lots 14 and 15, block 5, tract 910, was allowed and ordered paid.

On motion of Councilman Horn, seconded by Councilman Davis, demand in the sum of \$22.50 salary for I. K. Sands, sanitary plumbing inspector, was allowed and ordered paid.

### Improvement of Concord

Notice signed by Edwards & Wilkey, specifying irregularities in the improvement of Concord street, and other streets, was read. A communication from Cornwell & Henderson, contractors for said work, stating that they could not enter into the contract for doing said work, was read. On motion of Councilman Kimlin, seconded by Councilman Horn, all objections to the irregularities in the proceedings for the improvement of Concord and other streets, was sustained.

### Ordinances Adopted

On motion of Councilman Hall, seconded by Councilman Kimlin, an ordinance fixing the time for holding meetings of the city council, amended by changing the day of meetings to Thursday of each and every week and the first and last Tuesday of every month, and that ordinance shall take effect on December 13, 1923, was adopted.

The ordinance entitled, "An ordinance fixing the time and place for holding meetings of the city council of the City of Glendale, and repealing all ordinances in conflict therewith," which was introduced May 31, 1923, was read, and on motion of Councilman Horn, seconded by Councilman Hall, said ordinance was adopted, as amended, and numbered Ordinance No. 877.

On motion of Councilman Davis, seconded by Councilman Hall, "An ordinance licensing and regulating automatic vending machines in the City of Glendale, and placing the same under the supervision of the chief of police of the City of Glendale," introduced November 8, 1923, was amended as it now stands in the hands of the city clerk.

The ordinance entitled, "An ordinance licensing and regulating automatic vending machines in the City of Glendale, and placing the same under the supervision of the chief of police of the City of Glendale," which was introduced November 8, 1923, was read, and on motion of Councilman Davis, seconded by Councilman Horn, said ordinance was adopted, as amended, and numbered Ordinance No. 878.

The ordinance entitled, "An ordinance amending Ordinance No. 411, passed November 12, 1920, and entitled, "An ordinance regulating the construction and maintenance of public and private automobile garages, automobile filling stations, gasoline curb pumps, and portable filling tank or buggy

and repealing Ordinance 377," by amending Sections 10 and 12 thereof, and adding a new section thereto to be numbered Section 10a," which was introduced October 18, 1923, was read, and on motion of Councilman Davis, seconded by Councilman Kimlin, said ordinance was adopted and numbered Ordinance No. 879.

### Ordinances Offered

Councilman Davis introduced an ordinance entitled, "An ordinance amending Section 9 of Ordinance No. 635, passed August 7, 1922, and entitled, "An ordinance regulating the parking of vehicles on the streets and alleys of the City of Glendale," which was read and laid on the table.

Councilman Horn introduced an ordinance entitled, "An ordinance providing a procedure for the construction, reconstruction, extension, maintenance and repair of the public utilities of the City of Glendale, and the levying of assessments therefor, whereby the City of Glendale, may bid on said work done under the provisions of the Improvement Act of 1911, and the Improvement Bond Act of 1915," which was read and laid on the table.

Councilman Horn introduced an ordinance entitled, "An ordinance creating first class residential district No. 16 in the City of Glendale, and regulating the purposes for which buildings, structures or premises may be constructed, or maintained therein," which was read and laid on the table.

Councilman Hall introduced an ordinance entitled, "An ordinance creating first class residential district No. 17 in the City of Glendale, and regulating the purposes for which buildings, structures or premises may be constructed or maintained therein," which was read and laid on the table.

Councilman Kimlin introduced an ordinance entitled, "An ordinance amending Ordinance No. 529, passed January 12, 1922, and entitled, "An ordinance of the City of Glendale, establishing a residential district, an industrial district and four commercial districts in said city; regulating and restricting the location and locations of and the maintenance and carrying on of industries, trades and businesses in said city; providing for a residential, industrial and commercial district map of said city; prescribing the penalty for the violation hereof; and repealing certain ordinances," by adding thereto four new sections, to be numbered Section 4nn, Section 4oo, Section 4pp and Section 4qq," which was read and laid on the table.

Councilman Horn introduced an ordinance entitled, "An ordinance creating first class residential district No. 18 in the City of Glendale, and regulating the purposes for which buildings, structures or premises may be constructed or maintained therein," which was read and laid on the table.

Councilman Kimlin introduced an ordinance entitled, "An ordinance of the council of the City of Glendale, establishing the grade on a portion of Irving avenue, within said city," which was read and laid on the table.

Councilman Hall introduced an ordinance entitled, "An ordinance of the council of the City of Glendale, establishing the grade on portions of San Fernando road, all within the City of Glendale," which was read and laid on the table.

Councilman Horn introduced an ordinance entitled, "An ordinance of the council of the City of Glendale, ordering the opening, widening and laying out of Raymond Avenue in said city," which was read and laid on the table.

### Resolutions Adopted

Councilman Horn introduced a resolution entitled, "A resolution of the council of the City of Glendale, abandoning proceedings for the improvement of portions of Concord street, Patterson avenue, Fairmont avenue and Pioneer drive, in the City of Glendale," which was read, and on his motion, seconded by Councilman Hall, the same was numbered Resolution No. 2176, and adopted.

Councilman Davis introduced a resolution entitled, "A resolution of the council of the City of Glendale, ordering certain improvements to be made on a portion of Brand boulevard, in the City of Glendale," which was read, and on his motion, seconded by Councilman Horn, the same was numbered Resolution No. 2177, and adopted.

Councilman Horn introduced a resolution entitled, "A resolution of the council of the City of Glendale, ordering certain improvements to be made on portions of Cerritos avenue and Gardena avenue, within said city," which was read, and on his motion, seconded by Councilman Kimlin, the same was numbered Resolution No. 2178, and adopted.

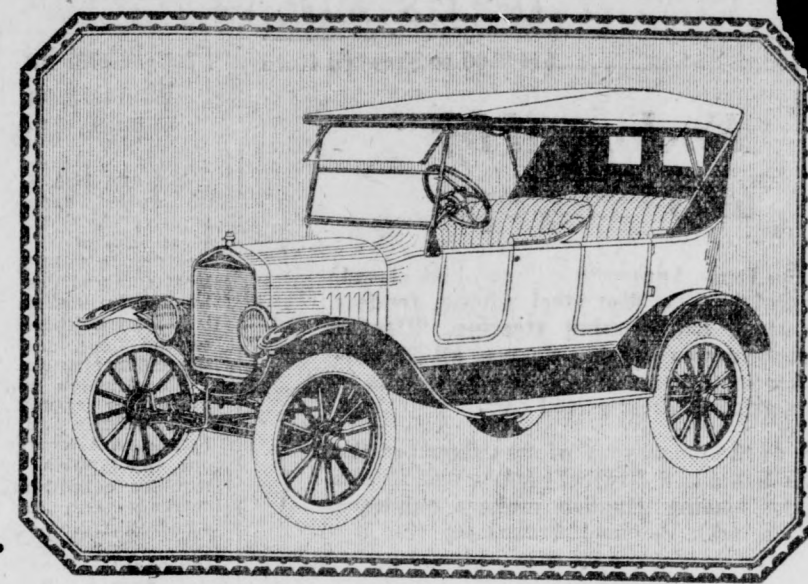

Councilman Horn introduced a resolution entitled, "A resolution of the council of the City of Glendale, ordering certain improvements to be made on a portion of Windsor road in the City of Glendale," which was read, and on his motion, seconded by Councilman Hall, the same was numbered Resolution No. 2179, and adopted.

Councilman Kimlin introduced a resolution entitled, "A resolution of the council of the City of Glendale, showing improvement of Thompson from Glenwood to Kenneth, which was read, and on his motion, seconded by Councilman Hall, the same was numbered Resolution No. 2181, and adopted.

Councilman Horn introduced a resolution entitled, "A resolution of the council of the City of Glendale, adopting certain plats and plans on file in the office of the city engineer of the City of Glendale," showing improvement of Thompson from Glenwood to Kenneth, which was read, and on his motion, seconded by Councilman Kimlin, the same was numbered Resolution No. 2182, and adopted.

Councilman Kimlin introduced a resolution entitled, "A resolution of the council of the City of Glendale, declaring its intention to improve portions of Windsor road, Garfield avenue, and Los Angeles street, with said city," which was read, and on his motion, seconded by Councilman Kimlin, the same was numbered Resolution No. 2185, and adopted.

## THE UNIVERSAL CAR

### New Touring Car

\$295

F. O. B. DETROIT

Ford utility, durability, and economy are embodied to the full in this new Ford Touring Car.

In addition, it is up-to-the-minute in appearance. It is finished in an enduring black, rich and deep in lustre, obtained by improved painting and enameling processes. A high radiator, enlarged hood,

graceful cowl, slanting windshield, and streamline body are pleasing details that enhance its style and charm.

With this handsome exterior, it combines every mechanical feature essential to open car utility. It is easy to handle, always reliable, ready for any trip at any time.

These cars can be obtained on the Ford Weekly Purchase Plan

Councilman Kimlin introduced a resolution entitled, "A resolution of the council of the City of Glendale, declaring its intention to improve portions of Concord street, Pioneer drive, Fairmont avenue, Patterson avenue and Doran street within said city," which was read, and on his motion, seconded by Councilman Horn, the same was numbered Resolution No. 2186, and adopted.

On motion of Councilman Hall, seconded by Councilman Horn, meeting adjourned.

Councilman Horn introduced a resolution entitled, "A resolution of the council of the City of Glendale, declaring its intention to

### Clean Running Boards With Gas-Soaked Rag

Giving the running boards an appearance of new is merely a matter of cleaning them with a clean rag saturated with gasoline. Kerosene is the best substitute.

### SAFETY FIRST TIP

Automobile owners who do much work around the car in the garage should be protected from the gases when running the engine. This is easily accomplished by running a metal pipe from the end of the exhaust out through a hole in the wall of the garage, thereby carrying the dangerous exhaust fumes out into the open air.

## Auto Owners ATTENTION!

The following is a letter which appeared in the "PRESS," Grand Rapids, Mich., in issue of October 17th, 1923:

"Editor of the Press:

"It seems to me the persons who object to having their brakes tested are taking an unreasonable position.

"My little girl, murdered so cruelly a short time ago on the streets of this city, might still be living if the brakes on the contrivance which killed her had been in proper working order.

(Signed) "CLYDE E. SMEDLEY."

Further comment on this sad testimonial is unnecessary.

General News and Gossip from Staff Writers at Home and Abroad.

TODAY—Post-Volstead Fetes; the Winter Now Looks Rosy.  
By ROLAND KREBS  
By International News Service

CHICAGO, Nov. 24. — That part of Chicago that gets its breakfast out of cocktail shakers and is always eager to go on a "bust" was complaining lachrymously about the winter getting a dull start until the artists of the Tree Studio building got together the other night and pitched a party. Now the winter looks rosy.

It was a party with a seventy-two-hour day—the kind where, when dawn glows, one asks, "Is this Wednesday morning or October?"

Just about everyone was there at one part of the evening or another.

It was a costume party if you choose, formal if you had a dinner jacket, or informal if you had no drinking clothes and elected to come in your workaday rags.

Out among the oaks and alfalfa, they'd call it a house-warming, although dancing was planned as the night's chief diversion. Dancing with anything other than the eyeballs, however, became impossible just as soon as the guests began arriving.

There is no dance hall of any kind in this building, you see. Someone wheeled a piano into one end of the corridor, took a clarinet down from the window sash it was holding up and fished a saxophone and trap drums up from behind the Japanese screen that hid the icebox, and the orchestra was assembled.

After everyone had been pretty thoroughly bruised in the dancing, visiting parties were organized and went from studio to studio, admiring each other's costumes and critiquing pictures as best one may after three copies of gin.

The costumes were bizarre. They always are. There were Shakespearean characters, East Indian pirates, Pierres, Zulus, Raggedy Ann dolls and hoboes.

After midnight visiting show people came tripping in and things got gayer and gayer.

These artists are great improvisors. They served their guests really appetizing rarebits cooked in kettles and things over comical little gas stoves. They got sandwiches out of cabinets that house brushes and shellac sprays. Tin receptacles meant for linseed oil made dandy cocktail shakers.

As might have been expected, everyone got to be one big family by daylight. Names were small matters for introductions. One managed that in this way: "Mrs. Zipf, I should like to present Mr. Onk. Mr. Onk and I went to different schools together, or something like that."

In fact, said one lady about to introduce a gentleman: "Let me see, what was your name again?" And he answered: "It slipped my mind just now; pick me out a good one."

Yes, siree; the winter certainly looks rosy.

## STILL MAY DISPLAY REAL GHOSTS

But She Must Arrange Parade All Herself

Mrs. Clarence H. Thompson, who has chance to show ghosts for that \$2,500 prize.

NEW YORK, Nov. 24. — Mrs. Clarence Thompson, Chicago spiritualist medium, may still have the opportunity of producing real honest to goodness spirits in the contest for the Scientific American's \$2,500 prize. But she'll have to arrange the ghost parade herself.

And that's that—on the word of J. Malcolm Bird, assistant editor of the publication.

Following her refusal to go through with tests the other night because the place selected lacked "the psychic atmosphere," the spooks were given the air by the contest committee and will remain out in the cold with only their thin garments to protect them. Bird's manifestations at the home of Raymond Hitchcock recently were baffling, but not necessarily supernatural. They were not made under conditions imposed by the magazine, however.

"I think Mrs. Thompson has gone as far as she safely can with these spirit manifestations," he added.

But Mrs. Thompson declares she hasn't begun to show her stuff—and ghosts as yet.

So the spook business is still up in the air.

grammatical errors as did Dr. Thompson, the medium's husband. When the ghost emitted a groan some unsympathetic spectator expressed the belief that the spirit might be sore because he was unable to complete his studies in grammar before the end came. Which wasn't nice.

Another fact that interested those present was the marvelous control over the spirits shown by Dr. Thompson. The spirits never stepped close to the front row of folks when the latter were holding hands. No one was rude enough to kick the ghosts, so the spooks went untouched.

Bird does admit that Mrs. Thompson's manifestations at the home of Raymond Hitchcock recently were baffling, but not necessarily supernatural. They were not made under conditions imposed by the magazine, however.

"I think Mrs. Thompson has gone as far as she safely can with these spirit manifestations," he added.

But Mrs. Thompson declares she hasn't begun to show her stuff—and ghosts as yet.

So the spook business is still up in the air.

## On the Spur of the Moment

By ROY K. MOULTON

**THE TAKING GIRL**  
She took my hand in sheltered nooks.  
She took my candy and my books.  
She took that lustrous wrap of fur.  
She took those gloves I bought for her.  
She took my words of love and care.  
She took my flowers, rich and rare.  
She took my time for quite a while.  
She took my kisses, maid so shy—  
She took, I must confess my eye.  
She took whatever I would buy.  
And then she took another guy.

### TO KNOCK OUT SOME OF YOUR EGO

Do you think that you swim?  
Can you swim with all of your clothes on and take them off in the water?  
Do you drive a car well? Can you spin around the floor of a crowded garage and get into a narrow space?  
Can you box? What would have happened to you if you had been in the ring with Dempsey recently?  
Have you a social position?

What would happen to you if you tried to make it in London or Paris?

Have you ability as a dramatic critic? What plays have you written? What would you look like if you tried to act even a simple part?—Marcel Steinbrugge.

Girls in Pennsylvania corset factory have gone on strike. But there are a lot of striking girls in this locality, too.

Marketing report says cotton is going up. We can only hope it will go so high they won't be able to put it into the "woolen" suits any more.

A pastor tells us that salvation is free. He probably says that of salvation because it cannot be said of anything else.

## Uncle Wiggily Bedtime Stories

— BY HOWARD R. GARIS —

**UNCLE WIGGILY AND THE TELEPHONE**

"Ting-a-ling-a-ling!" rang the telephone bell in Uncle Wiggily's hollow stump bungalow, one morning.

"Yes! Hello! Hello!" answered the rabbit, gentleman, talking over the wire. "Who is it? Oh, Uncle Butter, the goat. What's that? Oh, yes, I'm going adventuring today, of course. You'd like to come with me? Why, come right along—glad to have you!"

"To whom were you talking?" asked Nurse Jane Fuzzy Wuzzy, as she entered the room, just as Uncle Wiggily hung the telephone back on the hook. "Was that the Wozzie Wolf?"

"Indeed, it wasn't!" laughed the bunny. "That was Uncle Butter wanting to come adventuring with me. The telephone is a wonderful thing, Nurse Jane."

"It surely is," agreed the muskrat lady housekeeper, and she helped Uncle Wiggily look for his red, white and blue striped rheumatism crutch, for the rabbit had a little pain in his left hind leg that morning.

The crutch was found, at last, under the hat rack where Jackie Bow Wow, the puppy dog boy, had been playing it was a wireless set.

"Tata, Janie!" called the bunny gentleman, as he limped away. "I'm going to meet Uncle Butter and have an adventure."

"Good luck to you!" wished Nurse Jane. "Very likely I shall not be here when you get back. I am going over to see Mrs. Wibbly, the duck lady."

"All right," answered Mr. Longears. Then he hopped along and soon met Mr. Butter, the goat. The two friends set off over the fields and through the woods looking for adventures.

"If we could find a place where the sun didn't shine and melt the frost, we could take a slippery slide," said Uncle Wiggily, as he thought of the fun he had the day before.

"Thank you, but I don't care to go to the Alligator's valley to have a slide, as you did," laughed Uncle Butter. "Let's stay out in the sunshine and play golf."

So the rabbit gentleman got his bag of clubs and some little white balls, and Uncle Butter did the same, and soon they were playing the game.

But all things must come to an end, even golf, when you lose all the balls in the rough and haven't any more. So finally Uncle Wiggily and Uncle Butter started back home.

But as they neared the goat gentleman's home Jackie Bow Wow, the puppy dog boy, came running along, all excited, wagging his tail, and he barked: "Don't go home, Uncle Wiggily! Don't go home!"

"Why not?" asked the bunny in surprise. "Is my bungalow on fire?"

"It's almost as bad as that," said Jackie. "The Fuzzy Fox is in the kitchen waiting for you. I saw him slip in after Nurse Jane went out. He will hide behind the door and grab you as you go in."

"Yes," said Uncle Wiggily, "he could do that."

"Not if you play a trick on him," whispered Uncle Butter.

"What do you mean—play a trick on him?" asked Uncle Wiggily. "How can I play a trick on the Fox without going to my bungalow? And if I go there he is sure to catch me and nibble my ears. How can I play a trick on him, I ask you?"

"Play a trick by telephone," bleated Uncle Butter. "Listen! You have a telephone in your house. I have one in mine. You go to my house and call up your bungalow. As Nurse Jane is out, the Fox is alone there. He will hear the telephone bell ring and will answer."

"But what shall I tell him?" asked Uncle Wiggily.

"Pretend you are the Wozzie Wolf," said Uncle Butter. "Make your voice deep and growly-like and pretend to be the Wolf speaking. Ask the Fox to meet you over in the woods to help catch Uncle Wiggily. The Fox will run out of your bungalow, and then you can go home."

"It's a good trick! I'll do it!" laughed the bunny. He went to the goat gentleman's house and called up his own bungalow on the telephone.

"Hello, is that you, Mr. Fox?" asked Uncle Wiggily over the wire, speaking in a deep and dismal voice.

"Yes," barked the Fox. "Is that you, Mr. Wolf? I thought I knew your voice. Where are you? I'm in Uncle Wiggily's bungalow waiting for him to come home so I can nibble his ears."

"There is no use waiting there," said Uncle Wiggily, pretending to be the Wolf. "That rabbit will never go home as long as you are there. Come over in the woods and meet me, and we'll catch him."

"All right—I'll meet you in the woods!" snapped the Fox. "The telephone is a wonderful thing!" he barked as he ran out. And oh, how angry he was when he found that the Wolf hadn't telephoned him at all, and that it was only a trick of the bunny's.

"Gurr! Don't be wowed and scowled!" howled the Fox, he was so angry. But the rabbit's ears were saved. And if the door knob doesn't turn around so fast that it makes the keyhole dizzy, I'll tell you next about Uncle Wiggily and the red ears.

"Is that you, Mr. Wolf?"

## Timely Views on World Topics

### "EUROPEAN PEACE WILL BE ASSURED ONLY BY THE REAL COIN OF JUSTICE."

"Recent events have shown us with horrid clearness Europe slipping surely, although it may appear slowly toward the abyss," said Lord Edward Grey, former British ambassador to the U. S., recently.

"Does she realize how far down the slope she has already gone? How does liberty stand in Europe today?—that liberty our generation was brought up to believe could be secured only by popular representative government? Russia is as far from an elected Duma. Now Italy has practically a dictatorship. So has Spain. Germany is either under a dictatorship or in chaos.

"Real peace can be assured only by the real coin of justice; debased coin of injustice or even of tactics will purchase nothing but a counterfeit of peace. Europe has drifted helplessly but perceptibly towards a future war. The sinister course of recent events proves this."

### SCIENTIST SAYS INVESTIGATION REVEALS NO BOND WITH SPIRIT WORLD

Exhaustive research over a period of many months into the realm of spiritism and psychic phenomena has led J. Malcolm Bird, associate editor of The Scientific American and secretary of the committee of American scientists that has been investigating such phenomena for more than a year to two definite conclusions. On the one hand, he finds no evidence that communication between the living and the dead has been established, nor any demonstration of the survival of activity on the physical plane of deceased humans. On the other hand, he declares that some of the phenomena he has witnessed were genuinely psychic, and that telepathy, or subconscious communication between minds, does exist.

Mr. Bird, formerly a professor at Columbia university, has given virtually all of his time in the last year to this work. As an official of the scientific committee he has taken part in many test

### 10 Years Ago Today

From Evening News Files

After having waited nearly a whole year for electricity the Harry H. Parker home, 412 North Louise street, now has real, true electric lights. As a celebration of the same twelve friends were invited in Saturday afternoon to enjoy a "light party" as it were.

The local merchants and markets have a most remarkable display of groceries, meats, fruits and vegetables for Thanksgiving at prices that are unusually low. Trade at home!

A good game will be played Thanksgiving on the high school diamond between the Turf-Lyon Arms company of Los Angeles and the Glendale team. Gervais, who was with the Boston Nationals last season, has consented to help the Glendale fellows out.

**INDORSES STAR'S POWER, ECONOMY**  
Cross-Country Run of 7448 Miles Is Performed at Outlay of \$38.43

"The Star is the best riding, cheapest car a man can travel in," says John E. Dunkin, who is at present residing at 3966 Mission road, Glendale, after an extended trip of over two months across the continent.  
"We have run 7,448 miles at a total cost of \$38.43. The original tires are still on and appear good for another 3000 or 4000 miles.  
"Our Star has forded rivers, gone up mountains, pulled sixty miles over a rock road, the most of the way in low, and in sand holes, where other cars were stuck. Nobody ever gave me a push or a pull. The Star sure eats up traffic in crowded cities."  
Mr. Dunkin's trip took him through Chicago, Iowa, Wyoming, Yellowstone Park, Denver, and the deserts of New Mexico. He made extended stops at various points of interest, driving a roadster, accompanied by Mrs. Dunkin, and he declares that anyone who knows, intends to purchase a car, and who could see the Star perform under all conditions, would purchase this make without hesitation. In addition to himself and Mrs. Dunkin, the car carried 450 pounds of baggage.

**FINGER MOISTENER**  
For persons handling many sheets of paper, a finger moistener that fits in the palm of the hand has been invented.  
When a man disposes for a couple of months now, the members of his family don't send out tracers. They know he is busy somewhere writing a play.

**BURBANK**  
**\$3000 PAID OVER BY BOOTLEGGERS**

**Burbank Officials Love to Fondle Crisp Bills Taken By Court**

One of the largest bootlegger hauls in the history of this city has netted the local exchequer \$3000 in four crisp high-voltage bills, two for \$1000 and two for \$500.  
All the members of the police department have fondled these "scraps of paper" and members of several departments have done likewise. The bills are reported to have a very easy sort of feeling.  
And \$5000 worth of what is reputed to be very high grade whiskey was also in the possession of the Burbank police department, comprising forty-two cases—but this has been taken away to Los Angeles with the prisoners, after they paid their local fine, for they are now in the toils of the federal officers.  
But Burbank has that \$3000 and does not propose to give it up. For her, the incident is closed. For the bootleggers, it was no doubt a mere prelude to their difficulties.  
**Choralists on Air Tonight**  
Tonight, November 24, from 8 until 9 o'clock, the Burbank Choral club will be heard from KFI. The program is the same that they will give the night of December 4 in the high school auditorium.  
Mrs. Zefer Algots Sparrow at the piano and Mrs. Vera Holbrook on the harp will assist the choralists. The program follows:  
1. March of the Priests Mendelssohn  
Burbank Choral Club  
2. Harp Solo Vera Holbrook  
3. Listen to the Lambs R. Nathaniel Dett  
Burbank Choral Club  
4. Baritone Solo Charles Leroy Munro  
5. Piano Solo Zefer Algots Sparrow  
6. Cantata, "Hymn to Light" Schnecker  
Burbank Choral Club  
7. Harp Solo Vera Holbrook  
8. Give a Man a Horse He Can Ride O'Hara  
9. Piano Solo Zefer Algots Sparrow  
10. Springtime Strauss  
Burbank Choral Club  
**Fine Band Concert**  
Director White of the Burbank Municipal band expressed himself as very well pleased with the concert program that pleased the large audience of the Thomas A. Edison school.  
"My men have reached the point," said he, "where they can switch from the softest piano to the crash of the forte and back again as smoothly as the best of them. That is what makes good music."  
Lively marches, classical pieces and sprightly jazz mingled last night in a varied and delightful program that pleased the large audience and sent them away warmly enthusiastic for the new band.

**House Moving Starts as Occupants Sleep**  
Sleeping in a Pullman car is one thing, trying to sleep in a house that is being moved along the streets on trucks and rollers, is something else again, according to Robert L. Conover, sales manager of the Packer Auto Co., 245 South Brand boulevard.  
The Conover residence, that had been located at the corner of Central and Colorado avenues, has been moved to the 400 block on West Elk, but most of the moving was done during the day, which gave the family time to sit on the sidewalk and watch the house being hauled along the street, thus affording the children plenty of amusement, and a chance to get into trouble besides. So everything was lovely.  
But two nights ago, when the entire family was sleeping soundly, the moving gang came along and hooked on to the house and started her rolling, without taking the trouble to wake the family. The rumbling and jolting reminded the occupants forcibly of earthquakes, and Mr. Conover admits that when he jumped out of bed to see what was happening, he "lit a-running." However, when he discovered the real reason for the jolting, he calmed the fears of the family, and they sat at the windows and watched the street lights flash past, until the house reached the end of that stage of its journey.

**Students to Present French Language Play**  
The French department of the Glendale Union high school, has been signally honored by being requested by the French section of the Modern Language association, to prepare a program for one of their future meetings. The members of the class are already at work on scenes from "Le Bourgeois Gentilhomme."  
The recently adopted plan of the local school, of having scholars who no longer include French in their course of study, meet with the French club every Wednesday, has proved a great success, as it refreshes their memory and prevents their forgetting the French they have already learned. The club is at present studying French drama.  
The proper temperature for a bath is that which invigorates but does not debilitate.

**CHURCHES**

MANY interesting pre-Thanksgiving services are announced by Glendale churches for tomorrow. In many of the churches special sermons and musical numbers will observe the coming of the great national holiday.  
One service of significance will be the evening gathering at the Central Christian church, at which all members of the Kiwanis club and their families will be honored guests. The Kiwanians voted to attend the service in a body and they are promised a rare treat in the special musical program arranged by Mrs. Viva Lee Weidman, choir director. The entire service will be in charge of the choir. A full order of service is printed below in the regular church announcements.

**First M. E.**  
Church at corner of Wilson avenue and Knottwood street. Dr. Henry I. Rasmus, Sr., pastor; Rev. Henry I. Rasmus, Jr., associate pastor. Sunday school (graded) 9:30 o'clock; Prof. A. W. **"Precious" Cargo Left On Abandoned Launch**  
Insignia of General To Be Given Private

LOS ANGELES, Nov. 24.—Their confederates failing to meet them to take charge of their precious cargo, two rum runners abandoned a launch loaded with choice liquors on the beach at Los Pitas, between Seal Beach and Huntington Beach, according to the sheriff's office.  
The rum runners are said to have tried to use a Pacific Electric dispatcher's telephone, and this being denied rented an automobile and started on a hurried trip to get in touch with other members of their gang.  
A report of the rum runners' actions was made to the sheriff's office by the Pacific Electric dispatcher.  
Air (Root), Mesdames Stoler and Jodon, Messrs. Davidson and Mize and the Choir.  
**Central Avenue M. E.**  
Church at South Central and Palmer avenues. Rev. Leo C. Kline, pastor; Dr. Joseph Marple, musical director; Mrs. Casper Tuttle, pianist; D. C. Beard, superintendent; Mrs. Elsie Moore, chorister; L. Baker, president of Epworth League; Sunday school 9:30 o'clock; morning worship 11, sermon by Rev. Kline, Epworth League 6:30 o'clock; evening service 7:30 o'clock, sermon by Rev. Kline.  
SAN FRANCISCO, Nov. 24.—In a few days the overland mails will carry a package to Private Everett C. Parry, United States public hospital, Rutland, Mass. It contains the insignia of rank of a general of the marine corps ripped from his overcoat.  
Back in the hectic days of the St. Mihiel drive, General Wendell C. Neville of the marine corps tossed his rain-soaked overcoat of marine forest green over a wall to dry while he soaked by the roadside.  
Parry, a Missouri lad, driving a team of mules with supplies for the front, spied the coat, and thinking it one abandoned by a German officer jumped from his wagon and started to rip the insignia from the coat as a souvenir. He was arrested by a marine orderly, taken before General Neville and sent on his way with a reprimand.  
Sitting in his San Francisco office today, General Neville happened to relate the incident to a brother officer, and learned from him for the first time that the boy is a war-wrecked patient in the Rutland, Mass., hospital.  
"He wanted these insignia and shall have them," said General Neville, and without ado pulled out his knife, cut them off and started them in the mails for Parry.

**auCTION**  
Monday, November 26th, at 2 P. M.  
  
This exceptionally beautiful NEW 6-room stucco Bungalow, built of the finest materials; tile roof, and located on the best boulevard in Glendale.

INDUSTRY • BUILDING • SUBDIVISION • REAL ESTATE

PART THREE

GLENDALE, LOS ANGELES COUNTY, CALIFORNIA, SATURDAY, NOVEMBER 24, 1923

PAGES 1 TO 8

## TRAVEL INTO SOUTHLAND ASTOUNDS

About 1,340,000 Tourists to This Section in Past Ten Months, Claim

With 1,340,000 tourists emptied into Los Angeles county during the first ten months of 1923, according to the Los Angeles Chamber of Commerce, and the certainty that this number will be further swelled to 1,600,000 by the end of the year, the magnitude of such a staggering influx goes quite beyond the average comprehension, but may be readily grasped by considering that it equals the combined populations of the states of Delaware, 223,003; Idaho, 431,866; Nevada, 77,407; New Mexico, 360,350; Arizona, 334,162; Wyoming, 194,402; total, 1,621,190.

Most of Them Stay It is conservatively estimated that at least one out of ten tourists remains in the Southland or soon returns here to live, which means that the increase in population for Los Angeles county during 1923, from this source, will be a minimum of 160,000, which is equivalent to adding an entire city, such as Bridgeport, Conn., Grand Rapids, Mich., Memphis, Tenn., or Dallas, Texas.

It is also estimated that three out of every ten tourists remain as visitors for at least five months, another 480,000 population added to the county, for a five month period, every month in the year, which is equivalent to adding such a city as Buffalo, N. Y. And, in addition, the remaining 1,200,000 tourists stay over for a period of from a week to five months, pouring into Los Angeles county a flood of wealth. Should each one of the 1,600,000 visitors to this section during 1923, spend, while here, but \$5 a day, which is a conservative average, the golden shower dropped into the lap of the southwest, from their hands, would total \$8,000,000 a day, \$56,000,000 a week—(Continued on page 8)

## PROGRESS IN EDUCATION GROWING

Real Estate Classes Proving of Great Benefit, Says Association Head

By HENRY P. BARBOUR, President California Real Estate Association. Progress of real estate education grows apace throughout the state of California, according to the reports received by the California Real Estate Association. Real estate classes of instruction, under competent authorities, from realtorhood, are now being conducted in the following cities: Los Angeles, San Francisco, Oakland, Sacramento, Santa Barbara, Long Beach, Santa Ana, and San Diego, and will be organized in additional cities during the winter.

The courses usually cover the main points of the real estate business, such as buying and selling, ethics, contracts, renting and leasing, sub-divisions, residential and industrial tracts, mortgage and finance, loans, titles, improvements, the general relation of the seller, buyer and the agent, and the duty of the realty dealer under the California Real Estate license law.

May Enter Schools An effort is being made by the National Association, to put real estate courses in the high schools, and practically all of the standard universities of the country, are making provision for real estate classes and regular courses of instruction.

Some of the schools on real estate, are being conducted under university auspices, notably the University of California and the University of Southern California, and there are also responsible private classes on real estate reported to our association. There are 325 enrolled in the real estate class conducted by the San Francisco Real Estate Board, at the Palace Hotel. In Los Angeles, the third year of real estate—(Continued on page 4)

## Glendale's Vital Need Is Homes to House Newcomers

Glendale's most pressing need at this time is houses—and more houses.

The influx of newcomers to the city is steadily growing, and the warning note that has been sounded in several quarters, that more residences, apartments, duplexes and every other kind of house property are required immediately, should be heeded.

What shall it profit Glendale if she bring prospective residents here and then fail to provide them with some place to make their homes? If Glendale can but keep pace with the feverish demand for homes within her boundaries it is not \$10,000,000 in building permits that would be issued during the coming year, but two or three times that amount.

## Business Property Sound Investment

George R. Le Baron, a member of the Los Angeles Realty Board, spoke recently before the members of the Santa Barbara Realty Board on the subject of "Central Business Property." He stated that this form of realty "has consistently through the years, maintained its position as the most satisfactory business investment known to man, and coupled with maintaining such a position, has remarkable stories in business romance this country has ever known."

Mr. Le Baron gave as reasons for such investment the safeguards, the stability, the enhancement, the dividends, loan values and location. "In 300 years, central business property in New York has not failed, and today the great insurance companies of the country are looking upon central business property in our great cities in the same manner as they consider New York central property. Millions of dollars are being invested annually in loans on this class of property," were statements made by the speaker.

## HUGE GAIN IN REAL ESTATE TRANSFERS FOR 10 MONTHS IS SHOWN

Turnover Is Valued at More Than One Billion Dollars, Is Estimate; Income Tax Law Now Being Understood

Sales of documentary stamps by Internal Revenue Bureau from January 1 to November 1 indicate that during that period transfers were made in Southern California of real estate valued at \$1,112,230,000. For the corresponding months of 1922 the stamp sales represented transfers of \$690,963,000, a gain of \$421,267,000, or 60.9 per cent.

In making public figures pointing to this staggering turnover of real estate, Collector Rex Goodcell said that there seemed to be a general misunderstanding relative to the provisions of the internal revenue laws with respect to income tax in connection with the sale of property.

"Due to this erroneous interpretation," the collector continued, "many sales of property in which large amounts are involved, are not consummated because of the fact that taxpayers believe the government will require them to pay the major portion of the amount received as income tax. In many cases heavy penalties have been imposed because taxpayers failed to report in their income returns profits derived from real estate sales, owing to their misinterpretation of the law."

## Rate of Tax Is Changed by Law

Prior to the enactment of the 1921 income tax law, the surtax rates did apply upon income received from these sources, the same as upon all other income; however, it was appreciated by the government that it was not entirely equitable to tax, in the year of sale, when the increase in value was probably distributed over a number of years. In order to correct this injustice, Section 206 (a) of the Revenue Act of 1921 was enacted, which provides that any taxpayer may elect to be taxed at the rate of 12 1/2 per cent upon the profit realized from the sale of capital assets, in lieu of the regular rates provided by Sections 210 and 211. The term "capital assets," as used in the section, means property acquired and held by the taxpayer for profit or investment for more than two years, but does not include property held for personal use or consumption of the taxpayer. "It will be seen from the above that the government does not take as internal revenue taxes the major portion of the profits; and, if this new provision of the income tax law is thoroughly explained to taxpayers, it is believed the larger sales involving large amounts of profit will be more easily closed."

## Law Misunderstood, It Is Said

"It has also been brought to my attention upon numerous occasions by auditors in my office that there seemed to be a general misunderstanding of the application of the internal revenue laws relating to profits realized from the sale of property. Prior to the decision rendered by the supreme court, holding that profits from such sales did represent taxable income, many persons were under—(Continued on page 8)

## 9 Million Dollars in Building Permits! Now for 10 Million

With the announcement from the city building department yesterday that Glendale had passed the \$9,000,000 mark for permits for this year, Glendale has set her eyes toward the \$10,000,000 total for buildings before the close of 1923, and is determined to establish a record that will clinch her title as "The Fastest Growing City in America."

With another week left in November, Glendale will have a good start toward the tenth million before the December books are opened, and the speed with which new buildings of every kind are being started augurs well for the successful accomplishment of her ambition to pass \$10,000,000 by the time the old year passes into history.

## Urge Enrollment of Farm Lands Brokers

All farm lands realty brokers have received an invitation from the farm land division to enroll, and take a more active part in the work. This statement was given out by Herman Janss, secretary of the Farm Lands Division of the National Association of Real Estate Boards.

A survey of the farm lands market by E. N. Fisher in charge of the National Association's research division brings out the fact that farm lands conditions are better now than a year ago, and better than they have been since 1920, and the purchasing power of the dollar has increased 20 per cent in the past year. Application blanks for membership in the farm lands division have been received by Mr. Janss who will be pleased to supply the demands of the farm lands brokers. His offices are 733 Pacific Mutual Building, Los Angeles.

## BUILDING PERMITS

There is every indication Glendale will reach the \$10,000,000 mark in building for 1923. The total to date is now past \$9,000,000.

## STATE'S MINERAL OUTPUT EMBRACES WIDE VARIETY OF COMMERCIAL ORES

Mines Reveal Greater Assortment of Valuable Products Than Any Other Equal-Sized Area

More minerals of commercial value are mined in California than in any other community of equal area in the world, according to a statement received by the California Development Association from State Mineralogist Lloyd L. Root.

"California was originally a mining community, deriving the name 'Golden State' from the great stores of gold discovered in her mountainous regions," says Mr. Root. "The average person in thinking of California from a mineral standpoint visualizes only gold and silver, and sometimes copper."

"Though it is true that these minerals are among the leading mine products of the state, they do not by any means encompass the great mineral resources of this community. There are fifty-one minerals mined commercially in California, giving this state a greater variety of mining products than any other community on the face of the earth. This does not include a large number of semi-precious stones which are listed under gems."

"The value of the 1922 mineral production of the state was \$239,294,146. Gold and silver contributed only \$17,770,412 towards this amount. Not Generally Known "The great production of structural and industrial minerals of the state is not generally known. The largest single item of the group is cement. Since the starting of the industry in or about 1891, the value did not reach the million-dollar mark until 1904, and from then on it has gone steadily up to its present high level with a production of approximately \$18,000,000 yearly.

"Next comes miscellaneous stone, which includes crushed stone, macadam, ballast, rubble, paving blocks, sand and gravel. These are becoming more valuable yearly, due to the increased demand for the use of good roads, and has gradually been raising the yearly value up to the present value of \$7,834,000.

"Brick and tiles come next with a yearly production of \$5,570,000. This will no doubt always continue to be important. The market for face and fire brick will never be lacking. The varieties include common, fire, pressed, fancy, vitrified and various forms of hollow tiles. Granite Next "Granite comes next with a yearly production of \$725,000. In building purposes granite found in California is unexcelled by any similar stone found elsewhere. "Graphite, diatomaceous earth and lithia come next with a production of \$725,000. "Lime has a production of \$610,000. Magnesite has increased about 25 per cent over last year's value to a production of \$629,000, due to improvement in the demand for plastic purposes. "Pyrite has a production value of \$473,000. "Pottery clay has been quarried or mined in thirty-three counties, and refers to all clays used in the manufacture of red and brown earthenware, china and sanitary ware, flower pots, ornamental tiling, architectural terra cotta, sewer pipe, drain and roof tile. The value of these is \$362,000. (Continued on page 4)

## OFFERS LOTS IN HISTORIC TRACT

Woodbury Heights Presents Close in Property to Wise Investor

Woodbury Heights, located along Verdugo road, between Lexington drive and Monterey road, is the closest in restricted residential subdivision now offered in Glendale, according to T. W. Watson, of the T. W. Watson company, 708 East Broadway, developer of this historic tract, which was once a part of the famous Rancho San Rafael, and where Mr. and Mrs. George Woodbury, owners, have lived for forty years.

"Although many of the sites have been sold," says Mr. Watson, "there are still a limited number left for immediate building. Improvements are well under way, including sidewalks, curbs, streets, ornamental lights, gas, water and electricity."

"Woodbury Heights has been carefully planned as a high class residential park, and the improvements and restrictions are certain to keep values on the increase. Another peculiar advantage of the tract which makes for values, is the fact that it is so convenient to transportation, being just two blocks from the Eagle Rock branch of the Glendale and Montrose railway, which will become an electric line on January 1."

**Near Heart of City**  
"Still another value-making asset of Woodbury Heights, is its nearness to the heart of Glendale, being within easy walking distance of Brand boulevard and Broadway. Such property as this is not to be found elsewhere in Glendale, or elsewhere in Southern California, with an equal set of advantages coupled with its beauty and picturesqueness."

"A number of the lots are covered with a fine stand of live oaks, fully twenty-five years old, adding a charm that hints of days gone by. These live oaks are something that, valued in dollars and cents, are priceless, for they take longer than almost any other tree to grow and are essentially Californian."

An English officer, who lost both arms at the Somme, has invented arm-attachments which enable him to swim, play billiards and teach his son to play golf.

## New School at Flintridge

## SANS SOUCI HAS IDEAL LOCATION

Fine View. Lots That Please and Varied Prices for Homesite Seekers

Sans Souci, the subdivision "without a care," lying near the intersection of three main boulevards, in high and slightly La Crescenta, is offered by Robert A. Brackett, with J. M. Boland, 213 West Broadway, and by Wilson & Burton, Honolulu and Los Angeles avenue, La Crescenta.

Here the most delightful lots may be obtained at prices never to be equaled again, ranging from \$1,000 to \$1,600, with gas, water, electricity and graded streets, the agents point out, lots sized 60x149 and 60x292 feet.

Sans Souci is only two blocks from the carline, stores and schools, they state, being approached as follows: By the Glendale & Montrose railway, take car at East Broadway and Maryland avenue, Glendale, and get off at Los Angeles avenue, La Crescenta, and walk two blocks north to Altura avenue; by auto, drive out Verdugo road to Honolulu avenue, turn left to Los Angeles avenue and then north to Altura avenue.

"Sans Souci offers some of the finest view property ever put before the public," says Mr. Brackett, "and will not last long at present prices. Those contemplating the purchase of lots should not decide until they have investi-

## NEWCOMER BACKS BROKER'S CLAIM

Letter to Realty Man Tells Of Failure to Locate in Glendale

Mark A. Denman of 249 North Brand boulevard, real estate broker who stated in "The Glendale Evening News" of November 17 his opinion of the rent situation in Glendale, is in receipt of an anonymous communication which reiterates his feelings in the matter, stating in part:

"I speak for three other families who came to Glendale a few months ago, intending to locate here, but left with a bad taste in their mouths, as you say, never again to return."

"Furthermore, instead of heralding the good qualities of Glendale, these families will only tell what is true—that they were treated as 'suckers.'"

"We personally are giving Glendale another chance, and trust your open confession will have weight with other real estate brokers and property owners."

gated this property. "No one who has not actually seen the property has any adequate idea of the beauty of the surroundings. Michigan boulevard has long been famous as one of the finest highways of the state. It is now made available for home-owners of moderate means. "Sans Souci 'without a care,' offers the answer to the riddle, 'Where should I build?'"

## P. E. OPERATING FLINTRIDGE LINE

Railway Company Now in Charge of Bus System at Scenic Tract

Striking evidence of the growth of Flintridge is indicated by the acquisition of the Flintridge bus service by the Pacific Electric. This service will be operated by the Pacific Electric company and connects with its street car service in Pasadena.

The busses travel direct from Pasadena to Flintridge via Linda Vista and Devil's Gate, and hourly service is maintained between these two points. The busses are now operating between the hours of 7 a. m. and 10 p. m. As soon as the service demands it, arrangements will be made to increase the transportation.

The opening of the new Flintridge Highlands road is bringing scores of people to Flintridge. This newly completed drive offers an unusual scenic panorama of the Arroyo Seco, the most picturesque region adjacent to Flintridge. Plans are now afoot for the condemnation of the entire strip comprising the Arroyo and for its conversion into a series of parks and playgrounds.

**Beautiful Park**  
Under the plans now proposed a beautiful park, to be known as Victory park, will be created. This park will comprise about sixty acres and will connect with Sycamore Grove, through which a beautiful scenic highway of two fifty-foot roadways will be constructed. Work on the improvement of the Arroyo Seco is scheduled to be started very soon.

The Ideal Hillside Home at Flintridge this year has attracted a great deal of favorable attention. It is easily the most attractive model house that has ever been erected at Flintridge. It is complete in every detail and is especially well furnished. This home is erected on a commanding location, and from the piazzas and lawns one has an amazing view of the entire La Canada valley with the imposing Sierra Madre mountains in the background.

Continuing throughout this month the Ideal Hillside Home will be open daily and Sunday for public inspection.

Longest ski-slide in the world, extending over sixty miles, has been opened in Sweden.

# Edgemont Park

1st Unit Sold  
2nd Unit Sold

# Central Square

(Burbank's Beautiful Homesites)

## OPENS TOMORROW

(The Above Map Will  
Direct You to the Tract)

CENTRAL SQUARE is right in the city of Burbank, commanding a wonderful view of the valley, city and mountains.

Only fifteen minutes' walk to the new \$250,000 High School.

This tract has frontage on both Central Avenue and Buena Vista Street, each being 80-foot boulevards and the paving of Central is to start at once, which means Central Avenue will then be the most popular boulevard from Burbank to Hollywood via Lankershim.

You owe it to your family, pocket book, and self to see these lots before buying, as we feel positive that Central Square is giving the buying public the greatest value dollar for dollar that is to be had anywhere in Los Angeles County.

Gas and Electricity are now on the tract, the laying of the water pipes to each lot will start at once, decomposed granite streets, with each lot properly restricted, is what we are giving you.

You don't need two lots to build your home on, as every residence lot has from 50 to 65 feet of frontage by 138 feet in depth.

Don't wait—but drive to the tract today, get the first choice and you may be the one who gets this home absolutely free.

From—**\$450** Easy Terms

Several business lots fronting on 80-foot boulevards at very reasonable prices.

**FREE**—We are giving away this beautiful four-room bungalow on a lot 65x138 absolutely free to one of the first fifty-seven lot buyers.

This will make an ideal home for anyone, where you can sit on the porch and enjoy a wonderful view of the valley, city and mountains.

You can move right in the day you get this home as water, gas and electricity are installed.

## Oakmont Country Club at Sparr Heights

### Oakmont Country Club to Open Within Next Month, Is Promise of Officials

Opening of Oakmont Country Club in Sparr Heights within thirty days, was the tentative promise of officials yesterday to Barnum-Walters Co., developers of the new residential city of Sparr Heights in the Verdugo Hills.

The finishing touches are being put on the beautiful old-English style clubhouse, reputed to be one of the best looking golf plants in Southern California. The swimming pools and the tennis courts are being whipped into shape and the greens committee is spending a lot of money on the 18-hole golf course that stretches in front of Montecito Park, Sparr Heights' restricted residential district.

"We are very much pleased with the progress being made by the Glendale people backing the Oakmont Country club," declared M. Walters, member of the developing firm. "It is creating country club values here which are a decided asset to this \$12,000,000 project."

**Sales Keep Growing**  
Sales totaling more than \$500,000 are reported by Mr. Barnum for the last thirty days in Montecito Park and Sparr Heights.

"An unusually large number of contractors and builders are being attracted to Montecito Park," Mr. Barnum explained. "They have seen the \$60,000 home I have just completed for myself and looked at the other substan-

tial estates in the Park and have come to the conclusion that homes they build here will sell very readily."

Barnum-Walters Co. "are now swinging into the full measure of the improvement policy they set down when they undertook the development of this 'dream valley' twelve months ago."

**Will Beautify Park**  
"We believe in giving value for value," Mr. Walters said yesterday. "For that reason we are going to unusual pains to make Montecito Park a thing of beauty and a joy forever. One point that will illustrate this: When we come to a quick bend in one of our roads, on a hillside, we buttress this curve with many cubic feet of concrete, to keep the road from ever sliding."

"We are putting in concrete streets wherever desirable. We are laying sewer mains. And of course there are the usual water, light, gas, street lights, etc."

"When Montecito Park is complete, when lovely homes with plenty of room for children to grow in dot the hills, with their

proper landscaping, I predict that oldtimers in Los Angeles will bring their friends to see Montecito Park as a showplace, just as they have been driving them around Beverly Hills etc."

"New stores are being planned for Sparr Heights. As additional homes go up, there is a bigger demand every day which enterprising business men are keeping up with by planning mercantile establishments in the restricted business zone which will care for these wants."

**City Is Going Up**

"Swiftly and surely a new residential city, flanked by the Verdugo Hills, the San Rafaelis and the Sierra Madres is going up in this beautiful 'dream valley.' It's logical that it should. First, we have exquisite residential beauty. Second, we have a great through boulevard, Verdugo Road, with thousands of autos passing daily. Third, we are only five minutes north of Glendale; 25 minutes from Los Angeles—nearer in motor minutes than Hollywood is to Los Angeles."

"Glendale must grow north, by its very topographical limitations. And 'the neck of the bottle' opens up into Sparr Heights. We inevitably must receive Glendale's new growth and are receiving it. And we are equipped to handle it with an offering to the residence building public of the most beautiful district in the Southland."

The talapoin is the smallest of the monkey tribe, being hardly a foot long.

Number of living organisms in one gram of soil exceeds 40,000,000.

### LOW PRICES FOR LA CANADA LOTS

High Class Property Is Still at Moderate Cost, Says Lehigh Corporation

La Canada Acres, offered by the Lehigh Investment Corporation, 212½ West Broadway, general sales agents, still holds out a few more choice lots at pre-opening prices, it is announced.

When it is considered that these prices range from \$750 to \$1,500, the agents point out, it is seen that they are 50 per cent lower than adjoining property. Terms are 20 per cent down and 2 per cent a month, they state, making it easy for anyone to own a lot at La Canada Acres, which is located one block north of Michigan boulevard, La Canada.

For the first time, high-class property in this district is offered at moderate prices, the agents state, calling attention to the fact that such property in La Canada has long been desired and that only recently has it been possible to obtain any in lot parcels.

With the very great improvements going in along Michigan boulevard, and the numbers of buyers flocking to this locality to buy their homes, it is felt that an investment at La Canada Acres is bound to be a profitable one.

# LA CANADA ACRES

## A Few More Lots At Pre-Opening Prices.

Our present prices are 50% lower than any adjoining sub-divisions. Large view lots, properly restricted.

# Many Fine Homes To Be Built At Grande Vista

## VILLA SITES IN GREAT DEMAND

E. A. Key Is Building Home to Cost \$25,000; Others Make Investment

Among the fine homes going up at Grande Vista is a \$25,000 villa being erected for E. A. Key by Roy E. Diem of Glendale. This palatial residence is now nearing completion, reports H. N. Landon of 213 West Broadway, owner and developer of the tract.

Comprising two floors and seven rooms, the ground plan being 41x52 feet, it will be of stucco, in a very beautiful design. Frederick Hust of Los Angeles is the architect.

This home will command a view unparalleled in Glendale, according to Mr. Landon, who states that a number of Hollywood people, who have owned magnificent homes, are buying and planning to build at Grande Vista.

These people have in many instances, sold their Hollywood property when prices rose to where it was no longer economical to maintain them," he says. "That they are choosing this tract for their future homes, speaks well of the northwest section of Glendale.

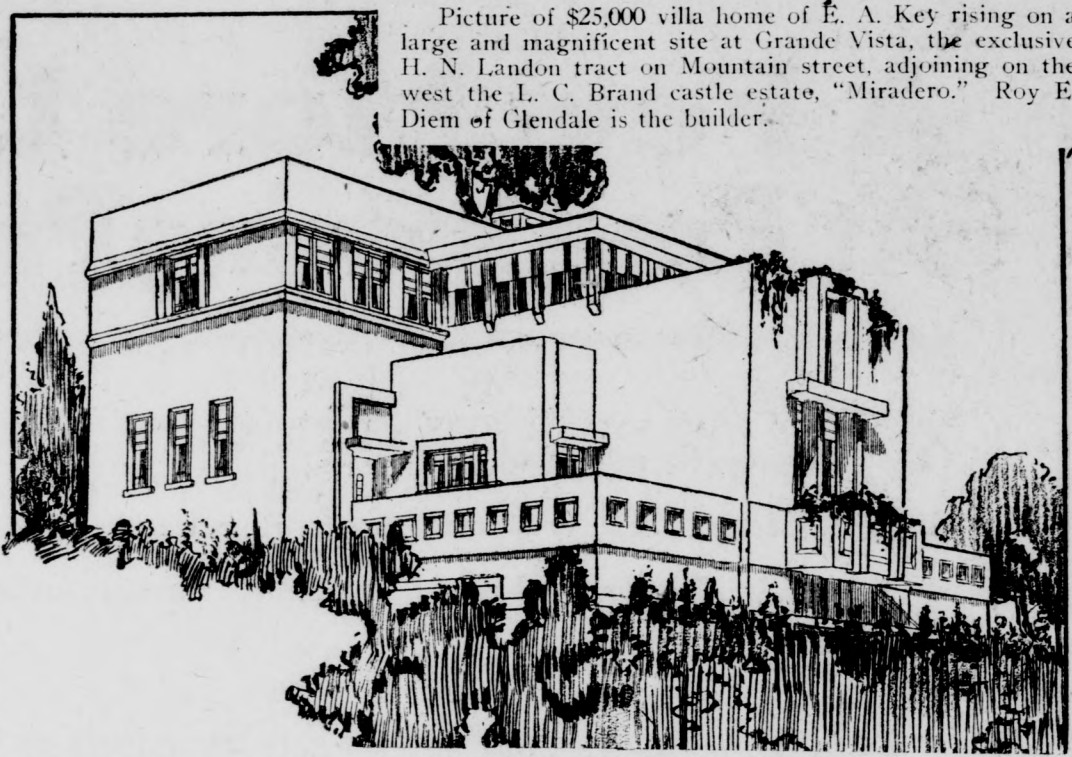

To further enhance Grande Vista, we are putting in a children's playground, tennis courts, and horse shoe grounds. Improvements include gas, water, electricity, winding drives, ornamental street lights, a beautiful parkway and numerous additional features. "There are only a very few lots left, and these range in price from \$3000 to \$20,000, with restrictions of from \$7500 to \$20,000, ensuring an exclusive neighborhood of the highest type. Lots are from 120 feet front, up to villa sites, offering a great variety of landscaping possibilities.

"Grande Vista is open to public inspection at all times, and cars are at the service of all who care to view the tract. With the health-giving altitude, and the marvelous panoramic view of Glendale, Griffith park, and the San Fernando valley, a more delightful location for the ultimate home, could scarcely be imagined."

### Realtors of Oakland Use Multiple Lists

The realtors east of Lake Merritt in the city of Oakland have put into effect, under state incorporation, their Multiple Listing bureau. The Realtors are members of the Oakland Real Estate Board. Oakland thus becomes the city's farthest north in California to adopt Multiple Listing for selling realty. A similar listing plan is under consideration among a group of members of the San Francisco Real Estate Board.

## \$25,000 Villa Home Being Constructed

Picture of \$25,000 villa home of E. A. Key rising on a large and magnificent site at Grande Vista, the exclusive H. N. Landon tract on Mountain street, adjoining on the west the L. C. Brand castle estate, "Miradero." Roy E. Diem of Glendale is the builder.

### Real Estate Classes Are Proving Success

(Continued From Page 1)

tate instruction is under way, and there are large classes, under auspices of the Los Angeles and Southwest realty boards.

At Long Beach, the Long Beach Board of Realtors has a regular board class of 90 members, and Allan McL. Bennett has organized a new class, under board and local realtor auspices, at which the attendance on the first night was over 150 registered.

The classes at Oakland, Santa Barbara, Santa Ana, and San Diego, are arousing widespread interest among the realtors. The instructors include some of the leading realtors of the Southwest, and the members of the class thus receive the instruction of some of the wizards in the upbuilding of the greatest state in the Union.

**Resolution Adopted**

The California Real Estate Association, at its recent state convention in Sacramento, adopted a resolution on university real estate education, that is being widely copied throughout the nation. The state association has, for the past nineteen years, been spreading the good word of the high standard of ethics and service by realty brokers and salesmen, and is witnessing now the culmination of its consistent work in California. This is the view of many of the realtors who attended the recent convention, when approximately seventy realty boards were represented by delegates.

The state association resolution is as follows:

"Whereas, the importance of a thorough program of real estate education is being emphasized throughout the country, with the aim of placing the business on the plane of a profession, with a high standard of ethics, and with special prerequisites of training and character, and, whereas, the University of Southern California, through its Extension Division, has for the past four years, been engaged in the development

of a program of real estate education, which now offers a basis for professional training in the practice of real estate, including eight distinct courses with specialized subject matter and carrying official authority to grant a certificate in real estate on the satisfactory completion of a group of courses, outlined by the faculty of the College of Commerce, and Business Administration.

Whereas, the said university is now ready to offer a correspondence course of twenty-two lessons, prepared by experts and covering all of the courses which have been developed through class instruction, including general real estate, real estate methods and practice, the law of real estate transactions, real estate advertising and selling, real estate accounting and office management and other collateral subjects, especially adapted to the practice in California, and granting a certificate in real estate practice on satisfactory completion. Be it resolved by the California Real Estate Association in convention assembled, that we do hereby approve the program in real estate education as presented by the University of Southern California, and also by the University of California and recommend that the California Real Estate Association appoint a committee of three to act as an advisory board, in co-operation with the said university extension division, with the object of developing the greatest possible service in this field for the state of California."

### GRAND CANYON TRAVEL

Travel into the Grand Canyon National Park for the season of 1922-23, embracing twelve months ending September 30, reached the total of 98,768, or an average of over 8,000 per month. This is according to information given out by the Santa Fe and the Fred Harvey Service.

That the canyon is gaining in popularity and interest is attested by the fact that 15,942 more people saw the Great Natural Wonder the past season than visited the park last year.

### NEW SUBDIVISION PROVES SUCCESS

Glendale Heights Extension Ready for Operations of Home Builders

Glendale Heights Extension, recently opened up by Hope, Hardin & Weldon, has proved an instantaneous success, they report. The tract is located at the intersection of Palmer avenue and Adams street and the headquarters of the firm is on the tract.

Will P. Hope, one of the partners in the enterprise, calls attention to the location of Glendale Heights Extension, which, as its name would suggest, is located just south of Glendale Heights, Glendale's wonder tract that sold and re-sold at such sensational profits, a year ago.

With road work being pushed and grading practically completed, Glendale Heights Extension is ready for building operations, the subdividers report, adding that prices range from \$1000 to \$2500 for sites of generous proportions, with reasonable terms and adequate restrictions. Prices include gas and water as well as paving and curbing.

The Hope, Hardin & Weldon firm aim to bring to Glendale, through the artistic development of this project, the same measure of distinction that accrued to Kansas City as the seat of the subdivision activities of the J. E. Nichols Investment company, with whom they all worked and where Frank J. Weldon is still employed.

### State's Mineral Output Embraces Wide Variety

(Continued From Page 1)

for the crude material at the pit and not the value that the manufacturer received for finished products.

"The ceramic industry of the state is very sadly neglected, and with the many and various uses of clays and the large variety of clays which California has is one that has an immense potential value and offers a wonderful opportunity for advancement.

"Limestone has a production for crude of \$305,000.

"Marble, a product which has been badly neglected, has a production of \$98,000 and is widely distributed in California in a considerable variety of color and grains.

"California has many beautiful and serviceable marbles suitable for almost any conceivable purpose of construction or decoration. In the decorative class are the onyx marbles of beautiful coloring and effect and serpentine marble for electrical switchboard work.

"Salines—Under this heading we list borax, salt, soda and potash, and a new one, calcium chloride, is added.

"This group has a value of \$2,750,000 yearly, and are named in their respective order. In borax, California is the sole producer in the United States."

Following is a list of the more important California minerals with the value of their 1922 production:

Gold	\$ 14,670,347
Silver	3,100,065
Copper	3,090,582
Lead	358,120
Zinc	172,963
Quicksilver	191,851
Platinum	90,288
Petroleum, oil and gas.	
Oil	173,381,265
Gas	5,250,000
Magnesite	594,665
Cement	18,000,000
Crushed rock, macadam, ballast, paving blast, sand and gravel	7,834,000
Brick, tiles, etc.	5,570,000
Pottery clays (crude at pits)	362,000
Limestone	305,000
Marble	98,000
Granite	725,000
Miscellaneous minerals	2,750,000
Salines, borax, salt, potash, etc.	2,750,000
Total	\$239,294,146

# GRANDE VISTA

## A HIGHLY RESTRICTED RESIDENTIAL HILLSIDE SUBDIVISION

Nestled High in the Foothills With the Green-Clad Verdugo's as a Background, Overlooking the City of Glendale, Griffith Park, and the San Fernando Valley

Each lot has a generous frontage of 120 feet, has a high elevation, a magnificent outlook—is ideally situated for that home of yours you have dreamed of.

These lots are highly restricted, thereby protecting the investment, creating value, and insuring the building of an exclusive neighborhood with a perfect setting of architecture and surroundings.

### Improvements

Paved streets—sidewalks—curbs—water—light and gas. Tennis court—golf course, and children's playground—All utilities laid underground in cables—Shrubbery-lined parkways.

## There are Only a Very Few of These Lots Left

They will soon be gone. IF YOU DELAY you will never again have the opportunity of securing one of these wonderful homesites at the present prices. Building has already started. Many homes are being designed and planned by leading architects and builders. Every lot in Grande Vista offers the opportunity of a splendid profit if one is seeking an investment.

### —Prices—

\$3,000 to \$20,000

Terms—20 per cent down and 2 per cent per month. Liberal discount for cash and immediate building.

### —Restrictions—

\$7,500 to \$20,000

Absolutely insure the quality and desirability of all homes.

How to Go There—Drive north on Central Ave. to Brand's Estate. Grande Vista adjoins it on the west.

## Panoramic View Showing Development of Oakmont Heights

### Pre-Opening Sale to Start Sunday at Oakmont Heights, On Winding Verdugo Road

Oakmont Heights, comprising just thirty-six lots in Unit 1, is now offered through the T. W. Watson Company, 708 East Broadway, at a special pre-opening sale starting Sunday, November 25, with prices ranging from \$1500 up, including gas, water, electricity, and graded streets, with adequate restrictions to insure desirable homes of the type in demand by the average home-seeker.

"If you love the charm and restfulness of the hills," says T. W. Watson, "if beautiful homesites along winding Verdugo road make their appeal straight to your heart, here at Oakmont Heights you will find what you have long desired."

"The property is approached by going east on Broadway to Verdugo road and then north to the

tract office. Or if you prefer to come to our office at the above address, we will gladly take you to the tract in our own cars."

"Close to Car Line"  
"Located within two blocks of the new Glendale & Montrose electric line which will be in operation by January 1, and overlooking the exclusive Oakmont Coun-

try club, Oakmont Heights offers the advantages of the foothills coupled with closeness to the heart of Glendale and the market and school conveniences of close-in property.

"The lots are large and varied in contour, allowing of great variety in landscaping. Homes of the type that melt into the hills can be erected here within the means of the average man. The movement in lots is all toward the hills, nowadays, and nowhere are there more charming hills than the green Verdugos that are Glendale's pride."

"Those who have been looking for just the right lot to buy for a home-site will take advantage of this special pre-opening offer and be on hand at the tract Sunday afternoon. We prophesy that every lot in Unit 1 will be gone by Monday."

Copper-treated rope bulks less, weighs less and will cost less than that treated with tar.

### Sales Tax Payments Are Due November 30

Collector of Internal Revenue Rex. Goodcell yesterday gave warning to thousands of sales tax payers in Southern California, that their returns and payments of tax for October, must be in his office or in the hands of his deputies in branch offices, on or before November 30, to avoid penalties of 25 per cent and 5 per cent, and a specific penalty of \$1,000.

This class of taxpayers includes manufacturers of automobiles and parts and accessories, candy, and all other persons manufacturing taxable articles; theatres, country clubs, jewelers, manufacturers of syrups, soft drinks and carbonic acid gas, ticket brokers and telephone and telegraph companies.

Unselfishness commences by using the word "we" a little oftener than the word "I."

### Contractors Plan to Publish Cost Review

The Southern California Chapter, Associated General Contractors of America, is preparing a complete review of construction costs from 1840 to 1923 for the use of students and professors in Stanford University, according to E. Earl Glass, executive secretary of the organization.

Request for this information was made of the local chapter of the contractors' national organization recently by Prof. J. C. L. Fisk of the Palo Alto institution. The survey will show the fluctuations in the general cost of construction throughout the United States over a period of more than eighty years.

Lazy bones are soft but not pliable until they are placed in a splint that hardens them.

## Glendale Heights Extension

DO YOU WANT A PERFECT HOMESITE! A  
SUPERB VIEW! AN ACCESSIBLE LOCATION!  
A PROFIT-SURE INVESTMENT!

### Then, Don't Wait

We have the prettiest little home spot in all California, right here in Glendale. From its vantage points you can see Mt. Baldy, the Los Angeles business district, over Glendale to the head of the San Fernando Valley, and on clearest days, to the ocean.

"Can you make money on these lots?" Most assuredly. Glendale is growing so fast the GLENDALE CHAMBER OF COMMERCE sent out "Calls for Help" in Friday's issue of the Los Angeles Times, from which we quote verbatim:

### "Wanted At Once"

"More places to live in, more homes to rent, more accommodations for the thousands of people who are coming to Glendale every month to live. The tremendous growth of this magic city has far exceeded all expectations. The present rate of increase in population is breaking all past records and the very extensive building plans of the local property owners are proving entirely inadequate to supply the demand for new houses."

### WHAT EFFECT DOES SUCH A CONDITION HAVE ON REALTY VALUES? THE QUESTION NEEDS NO ANSWER.

Come out and select your home-site now, whether for an investment of surest returns, or the finest little spot in the world in which to live.

LOCATION:—Go to Adams and Palmer Avenues, thence south to the brow of the hill. The tract lies to your left.

"The Beauty Spot of Glendale"

### Folks! Here's a Tip—

Don't wait until Monday, because every lot in this first unit will be sold before sun-down Sunday.

Our autos are at your service to show you this beautiful tract.

## Announcing the Pre-Opening Sale of Homesites in "OAKMONT HEIGHTS"

"The Newest Sub-Division in the Fastest Growing City in America"

## Sunday, November the 25th

If you love the charm and restfulness of the Hills, come to Oakmont Heights—you will like the infinite beauty of this foothill tract. These beautiful homesites nestle along the picturesque Verdugo Road, within 2 blocks of the new L. A. Electric line—overlooking the exclusive Oakmont Country Club on the northwest and the city of Glendale towards the southwest.

## There Are Just 36 Lots in the First Unit Now Open for Reservation PRE-OPENING PRICES ONLY \$1500 AND UP

Each lot includes all modern improvements, such as gas, water, electricity, and graded streets. Protective building restrictions guarantee the high quality of the homes.

### HOW TO REACH O AKMONT HEIGHTS

By Auto:—Drive out East Broadway to Verdugo Rd., then drive north until you reach the tract office.

Via Street Car:—Take any Glendale-Montrose car, get off at Opechee Way and walk two blocks to Verdugo Road.

## Glendale And Shell Oil Teams to Open New Park In Impressive Ceremony

By AL DIX  
Of The Evening News Staff

The game between the Glendale and Shell Oil teams of the Triple A league which is scheduled to formally open the new ball park at San Fernando road and Park avenue, will be witnessed by the greatest constellation of stars of the baseball and movie firmaments that has ever been gathered together in this city.

The list of those who have purchased tickets will positively be there when Dan Toby, veteran announcer, calls the meeting to order at 2 o'clock Sunday was made public by Frank Kerwin yesterday. This list includes such famous past and present stars of the diamond as Frank Chance, Fred Clarke, Isbell, Reichow, Monte Cook, Irish and Bob Meusel, Charlie Lockhart, Red Killefer, Del Howard, Fred Haney, George Cutshaw, Howard Ehmke, Arnold Stutz, Dumovich, Hollis Thurston and Pete Donahue. A telegram was received from George Sisler, newly appointed manager of the Browns and declared by all to be the greatest first baseman of all time, adjudged the best player in the American league in 1922, stating that if he is able to reach Los Angeles in time he will surely be here to attend the opening game.

**Film Luminaries**  
Patsy Ruth Miller, George Walsh, Tom Miller, Walter Hiers, Tom Kennedy and a host of others from the Hollywood colony will also be there. In addition, Manager Kerwin is in touch with many other persons very much in the public eye, notably Jack Dempsey, hoping that he may have the greatest collection of notables ever gathered together in Southern California.

The opening ceremonies will start promptly at 2 o'clock. Following is the program as announced today:

Flag-raising exercises. Spencer Robinson, mayor of Glendale; Jesse Smith, president Glendale Chamber of Commerce; W. H. Reeves, city manager.

Billy Slesinger's Shell Jazz band will play for this occasion. Presentation of Harry Williams of Los Angeles, newly elected president of the Pacific Coast league.

Presentation of a candy hat from the Paulina company of Los Angeles to Manager Mike Donlin of Glendale by Frank Chance and Fred Clarke.

Presentation of a floral horseshoe to Babe Herman, Glendale boy, by his many admirers in this city.

**"Play Ball"**  
The game will be called promptly at 2:30. In order to take care of the huge crowd which it is expected will be present, autos will be allowed to park along the fence for this game. Extra seating capacity has been provided. Reserved seats are on sale at Cornwell & Kelly's hardware store, 107 South Brand boulevard. Box seats are 75 cents and grandstand seats 50 cents.

A surprise is in store for those who have not seen the new park, as it is one of the finest plants in this part of the country. The diamond has been sodded, and the lot has all the aspects of a big league enclosure. The teams in the Triple A league are made up of the fastest semi-pro and league players wintering in the south, and a good article of ball is expected.

**Men Behind Club**  
The men behind the Glendale franchise are Frank A. Kerwin, secretary of the Southern California Baseball Managers' association; Grant Leischner, treasurer of the same organization, and Mike Donlin, former captain of the Giants, who is piloting the team. They have invested a good sum of money here to give Glendale real baseball, and they hope for the support of the town.

Many of the luncheon clubs and commercial organizations will have representatives at the game tomorrow.

The teams will line up as follows:  
Glendale: P. O'Brien, cf; Matusch, lf; Herman, rf; O. Crandall, 2b; Doran, 3b; Donlin, 1b; Bedell, ss; M. O'Brien, c; A. Crandall and Heidler, p.

Shell Oil: Cuyler, cf; De La Guerra, 2b; Lafayette, rf; Smith, lf; Snyder, 3b; Metz, 1b; Fromme, c; Young, ss; Fairbanks, p.

Arrangements have been made with the Pacific Electric whereby special busses will be run direct from the corner of Brand boulevard and Broadway to the ball park.

**Cubs After Hornsby, Believe Deal Closed**

CHICAGO, Nov. 24.—Interest in the next stopping place of Rogers Hornsby, star slugger and second baseman of the St. Louis Cardinals, rests again with the visit of Branch Rickey, manager of the Cardinals, and the report that the Cubs' dicker for Hornsby has been completed at the cost of five players and \$100,000.

The five Cubs mentioned were Hack Miller, Marty Callahan, Charlie Hollocher, Virgil Cheever and Ernie Osborne.

The deal was expected to rouse as many denials as the first reported trade of Hornsby, who is known to be going somewhere.

At the same time it was rumored that William (Kid) Gleason, who quit as pilot of the White Sox, would be with the Cubs next season, coaching pitchers for Bill Killefer, Cub manager.

## WEIGHT TELLS IN COVINA CONTEST

Glendale Team Concedes 20 Pounds Per Man in Game at Monrovia Field

By NEAL E. SOOY  
Of The Evening News Staff  
Covina High school got their much desired revenge on Glendale yesterday afternoon when they trounced the local 130 pounders on the Monrovia field by the score of 20-0. But they gave the Red and Black midgets a good alibi—they outweighed the latter about 20 pounds to the man. And in a lightweight game, weight counts.

The Class B B aggregation is supposed to average around 130 pounds. But the Covina pigskinners averaged around 145 to 150 pounds and they simply smashed their way through the lighter Glendale line. All along the side lines ever gathered together in Southern California.

The opening ceremonies will start promptly at 2 o'clock. Following is the program as announced today:

Flag-raising exercises. Spencer Robinson, mayor of Glendale; Jesse Smith, president Glendale Chamber of Commerce; W. H. Reeves, city manager.

Billy Slesinger's Shell Jazz band will play for this occasion.

Presentation of Harry Williams of Los Angeles, newly elected president of the Pacific Coast league.

Presentation of a candy hat from the Paulina company of Los Angeles to Manager Mike Donlin of Glendale by Frank Chance and Fred Clarke.

Presentation of a floral horseshoe to Babe Herman, Glendale boy, by his many admirers in this city.

Presentation of other celebrities from the diamond and silver screen.

**"Play Ball"**  
The game will be called promptly at 2:30. In order to take care of the huge crowd which it is expected will be present, autos will be allowed to park along the fence for this game. Extra seating capacity has been provided. Reserved seats are on sale at Cornwell & Kelly's hardware store, 107 South Brand boulevard. Box seats are 75 cents and grandstand seats 50 cents.

A surprise is in store for those who have not seen the new park, as it is one of the finest plants in this part of the country. The diamond has been sodded, and the lot has all the aspects of a big league enclosure. The teams in the Triple A league are made up of the fastest semi-pro and league players wintering in the south, and a good article of ball is expected.

**Men Behind Club**  
The men behind the Glendale franchise are Frank A. Kerwin, secretary of the Southern California Baseball Managers' association; Grant Leischner, treasurer of the same organization, and Mike Donlin, former captain of the Giants, who is piloting the team. They have invested a good sum of money here to give Glendale real baseball, and they hope for the support of the town.

Many of the luncheon clubs and commercial organizations will have representatives at the game tomorrow.

At the same time it was rumored that William (Kid) Gleason, who quit as pilot of the White Sox, would be with the Cubs next season, coaching pitchers for Bill Killefer, Cub manager.

## The One and Only Mike Donlin

Skipper of the Glendale crew in the Triple A league. For many years idol of the New York fans when captain of the Giants under McGraw. Mike has been playing a stellar game for the locals at first base, and his hitting has been very consistent.

## SQUAD LEAVES TO MEET SAN BERDOO

Crucial Struggle to be Staged On Ontario Gridiron This Afternoon

With the cheers of the entire student body still ringing in their ears, Glendale's champion football squad left this morning for Ontario, where on Chaffey Union field they will fight with San Bernardino for the right to meet the winner of the flag in the Bay league, in the southern California semifinals.

Never in the history of the local institution has a team been given such a send-off. For the first time this year every student at the school was gathered in a monster bleacher rally. Members of the team, as well as Coach Hayhurst, gave short speeches, and the vocal organs were well exercised under the able leadership of Archie Neal, yell leader.

The entire team is brim full of confidence and fight. As the time for the game with the winners in the Citrus league draws near a spirit of victory is spreading over the local campus, and it is freely predicted that the Red and Black warriors will win by two touchdowns.

Although outweighed, it is figured that Hayhurst's forward line will out-charge the San Bernardino wall, and there is no question but what the back field will be able to hold its own.

Following a light workout Friday afternoon, the team was announced as being in fine shape for the game, and will present the regulars at the start of the game. The game is called at 2:15 and a large crowd is expected.

If you cannot attend call the Evening News, Glendale 132, after 5 o'clock, and ask for the score of the game.

## Trojans and Vandals Today's Grid Feature

LOS ANGELES, Nov. 24.—University of Southern California, having hit their stride after one of the most disastrous football seasons in years, today took on the "Wandering Vandals" from the University of Idaho.

The game promised to be one of the most entertaining of the season, and will be the final argument for both teams as far as the Pacific coast conference is concerned. Both teams have been defeated and are out of the running for far western football honors, but, despite this, a hard fight is sure to be staged.

A collar button that will not roll, having a weighted octagonal base, has been invented.

## Stanford and California In Annual Contest on Gridiron This Afternoon

By ELLIS H. MARTIN  
For International News Service

BERKELEY, Nov. 24.—Battling on terms conceded to be almost even, Stanford and California clashed this afternoon in the new memorial stadium in the annual football classic of the west.

It was the twentieth meeting of the two ancient rivals at American football. The greatest crowd that has ever witnessed a football game on the Pacific coast—73,000—gathered early for the contest.

At stake was California's unbeaten record for the past four seasons, the honor of topping the Pacific Coast Conference and the even more important inter-institution rivalry.

**Good Weather**  
The great throng which will witness the game began to enter the big concrete structure at 11 o'clock when the gates were thrown open for the first time. It was a colorful crowd and within the giant bowl as it slowly filled the excitement was intense.

The football teams did not arrive at the scene of their football carnage until nearly game time. Andy Smith and Andy Kerr kept their rival squads up in the hills where they have been resting until the last minute. Both teams were fit as they arrived for the encounter. There were no regulars missing from the line-up. True, there was a question whether old injuries would permit all to play throughout the game, but on the sidelines were plenty of eager and competent "subs" awaiting their great chance.

The eyes of the crowd early singled out Bill Blewett and Ernie Nevers, who have been publicly proclaimed as the "threat" men of the California and Stanford elevens, respectively. The arrival of the two elevens was the signal for frenzied cheering from the rival sections. The duel of cheers started almost with the arrival of the first ticket holders and promised to be as memorable a contest as that to be staged on the gridiron.

The blue and gold of the California rooters and the red and white of the Stanford supporters stood out in bold relief and in the riot of cheering the tremendous structure resembled a giant scooped out beehive inhabited by a million gaily colored bees.

Overhead just outside the rim of the stadium two airplane police patrols hummed lazily around and around guarding against stunt flyers imperiling the lives of those gathered in the stadium.

They were under orders to pursue and force down any planes attempting to fly over the big bowl.

## K. C.'s Win and Lose in Fraternal League

The American Legion won two games from the K. C. second team, and the K. C. No. 1 team took three from the Odd Fellows in last night's games in the Fraternal League.

At St. John and his ball rollers will bowl the I. B. Carlock team Monday night at the Recreation Center.

Last night's scores were:  
**AMERICAN LEGION**

# THEATRES

## THE GLENDALE

Plenty of raggy jazz, gay life and "morning after" among the so-called "400" are to be found in the Hodkinson film, "Youthful Cheaters," showing today only at the Glendale Theatre, with Glenn Hunter in the lead, the actor who made "Merton of the Movies" a favorite on Broadway.

The story is that of the young son of a captain who meets the daughter of a multi-millionaire. They fall in love and the boy is whisked into an atmosphere he has never experienced before. The effects of this laziness and jazz on his growing manhood are vividly shown.

Starting Sunday, "Monna Vanna," the William Fox film from Maurice Maeterlinck's great drama, comes to the Glendale Theatre for a four-day run. All lovers of the drama will want to see this film. The most dramatic moment is where the general, Vitelli, demands that Monna Vanna visit him alone in his tent, clad only in a cloak, or he will sack the city. When she appears he sees it is the woman who once saved his life, and spares her.

## THE GATEWAY

Rudyard Kipling's "The Light That Failed" shows at the Gateway Theatre for the last time today. George Melford directed this great film for Paramount. In the cast are Jacqueline Logan, Percy Marmont, Sigrid Holmquist and David Torrence.

For fast moving drama, with a heart throbbing that is compelling and genuine, this film version of "The Light That Failed" stands as one of the unique achievements of the year.

Starting Sunday, the feature for three days at the Gateway Theatre is "Woman-Proof," the first of Paramount's "new policy" pictures. For six months prior to shooting the negative, extensive research work was carried on. The result is a production practically perfect.

Alfred E. Green is the director. George Ade wrote the story. The cast includes Lila Lee, Thomas Meighan, Robert Agnew, Mike Donlin and a host of other notable players.

## Diet and Health

By Lulu Hunt Peters, M.D.  
Author of "Diet and Health, with Key to the Calories"

### ANSWERS TO CORRESPONDENTS

"Dear Doctor: I am very grateful to you for all you have done for my family and myself. By your advice I have cured my baby of rickets and myself of constipation. I can safely say that all my family feel 100 per cent better since we have been following your advice. I am saving all your articles. They are my greatest treasures. I hope some day that they will appear in book form. Thanking you again, I am,

"Sincerely yours, Mrs. J. F." I run such letters as these because they will encourage others. I am getting many similar ones, and they make me very happy. Thank you, Mrs. F., for writing.

"Dear Doctor: Two days a week (Wednesday and Saturday) my husband is away. What do you say to my taking the liquid diet on those days? How much ought I to total on other days so as not to offset the good obtained? My flesh is hard as iron and I find it hard to reduce. I am of the thin faced, long nose type and I find I look haggard as a grave cloth when really my body is well preserved indeed.

"Now a question of another type. Does a venereal disease always prevent pregnancy? Do you advise people to adopt children or merely take them and give them a good home? Will you recommend an orphanage to me?"

"Mrs. A." Beginning with question 1, yes, I think taking a liquid diet for one or two days a week is an excellent plan while reducing. Some people can't seem to get results without doing this. You can take any liquid you like, not totaling over 600 or 700 calories during the day. Skim milk or buttermilk, each 80 calories to the eight ounces; orange juice, eight ounces to the 100 calories; grape juice, four ounces to the 100 calories; hot consomme (no fat on it) only 25 calories to the eight ounces.

Usually, I recommend 1200 calories a day for a reducing diet, but if you take the two liquid days, you probably could go on 1300 or 1400 calories daily and still reduce.

It is not uncommon to look a little haggard and pale while reducing. I recommend the appli-

cation of a tiny bit of natural looking rouge in these instances so the friends won't discourage. This haggard look disappears after the weight is normal and the maintenance diet resumed.

No, venereal diseases do not always prevent pregnancy, but they are very apt to, or to produce repeated abortions. I advise adopting children when there are none in the family if it is possible; the younger the better. Your telephone directory will give you the names of the orphanages.

Mrs. Q.:—The reason lemon juice is superior to vinegar is because vinegar is a free acid—a decomposition product of alcohol—and is an irritant; while lemon juice is a combined acid built up in Nature's laboratory, is high in anti-scorbutic and anti-neuritic vitamins, and is a good food. Lemon juice may be used freely in children's diets, while vinegar should not be. In fact, lemon juice would be better than vinegar for adults also.

The foods containing tannic acid in such amounts as to be objectionable, are tea, coffee, strong cocoa and chocolate. Oxalic acid is a characteristic acid of rhubarb and sorrel. Do not use rhubarb leaves for greens because they have been known to cause poisoning due to the amount of Oxalic acid. There is a small amount of it in other greens, but not sufficient to be objectionable.

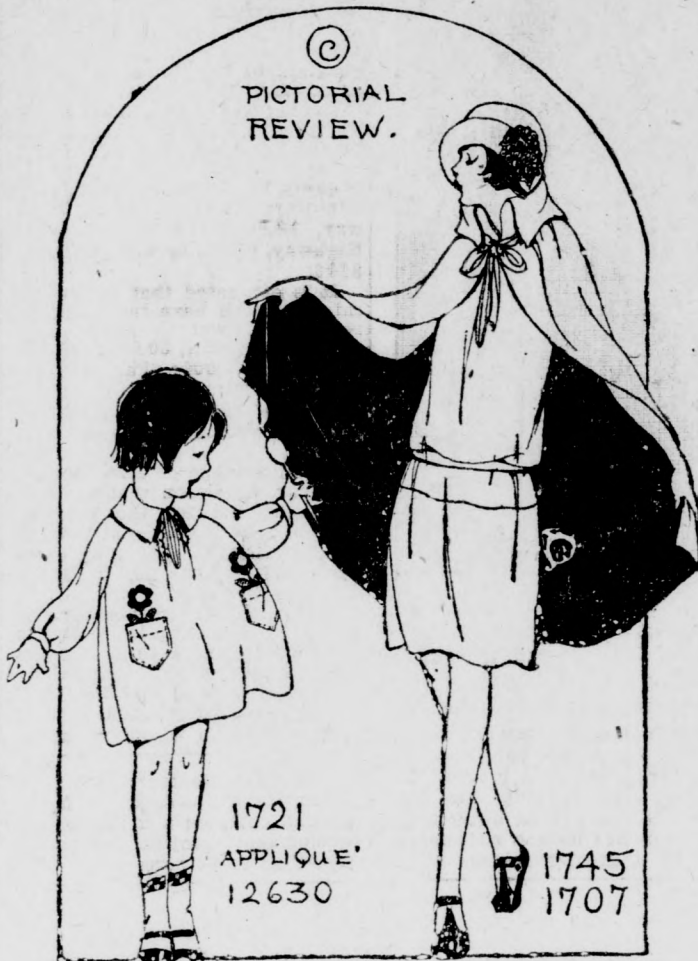

Monday:—Diet For Children—And Adults. Continued.

My Dear Followers: When sending for material which we offer you, please remember to enclose a stamped envelope bearing your full name and address. The pamphlet on reducing and gaining is the only one for which you must enclose 4 cents in stamps extra. Address your letters to me in care of this paper. Make them as brief as possible. The questions you ask will be answered in the columns as soon as possible, if they are of general interest. Don't forget the S. & S. I appreciate very much the beautiful letters you send me and regret it is impossible to give you individual answers. The questions you ask will be answered in the columns as soon as possible, if they are of general interest. Don't forget the S. & S. I appreciate very much the beautiful letters you send me and regret it is impossible to give you individual answers.

## DAILY FASHION HINT

Prepared Especially for The Glendale Evening News

YOUTHFUL, PROCKS CAREFULLY FASHIONED For little girls, the bloomer dress to the left may be fashioned in blue gingham, with applique in yellow and white chambray. The long raglan sleeves are gathered to straight bands, and the front is shirred below the round collar. Medium size requires, for dress and bloomers, 2 5-8 yards 36-inch material.

The needs of both girls and juniors are catered to in the outfit pictured to the right. It consists of a straightline frock of dark blue wool jersey and a cape of the same material lined with bright red silk. The dress has long raglan sleeves and, if desired, the lower part may be made of a contrasting fabric. The cape is gathered at the neck to a wide collar, which may be rolled high or low. It is slashed in front to slip the arms through. Medium size requires, for the dress, 1 1-4 yards 54-inch tubing; for the cape, 2 yards 54-inch material.

First model: Pictorial Review girls' dress No. 1771. Sizes 1 to 5 years. Price 30 cents. Applique No. 12630. Transfer, blue or yellow, 30 cents.

Second model: Dress No. 1707. Sizes 6 to 17 years. Price 35 cents. Cape No. 1745. Sizes 6 to 17 years. Price 35 cents.

Copyright, 1923, George Matthew Adams.

## Heart and Home Problems

By MRS. ELIZABETH THOMPSON

Dear Mrs. Thompson: I am a girl of 13. There is a boy in our room whom I like very much. He is the only boy I have ever really cared for. Do you think it would be all right to make some candy and get a book for him?

DUTCH. No, it would not be all right to make candy for the boy or get a book for him. If you do so you would be running after him. Since you are only 13 I would advise you to think as little as possible about boys. At your age you ought to enjoy your girl friends and studies.

Dear Mrs. Thompson: Do you know of a remedy that will remove superfluous hair on the face other than the electric needle? I have used removers, but they are not permanent remedies. If there is no way other than the needle, do you know of anything that will bleach the hair?

M. E. Superfluous hair can only be removed permanently by means of the electric needle. Apply peroxide of hydrogen every night before retiring and the hair will become lighter in color.

Dear Mrs. Thompson: Please tell me if you believe there is anything to fortune tellers. One told me about eighteen months ago that I would be married in two years or less time and that I would marry a grass widower about six feet in height, with black and blue eyes.

I have been going with one very much like that. He has had a divorce and his wife is married again, but he has never asked me

answered in these columns in their turn. This requires considerable time, however, owing to the great number received. So, if a personal or quicker reply is desired, a stamped and self-addressed envelope must be enclosed with the question. Be sure to use your full name, street number, and the name of your city and state.—The Editor

## BEAUTY CHATS

### COMPLEXION TROUBLES

From the great proportion of letters about it I know that the greatest complexion troubles are blackheads, pimples, and a red nose. These are the most unsightly things in the world and quite unnecessary. They come either from ignorance of the simple laws of proper eating or from a careless neglect of them. There is nothing in the world that is as wonderful as a good complexion, and few things harder to regain once it has been lost.

To begin with, you must diet. A cure is possible in no other way. You must, for a time, do away with most meat, with all things that are very sweet, very rich or very starchy. You must take some form of laxative, using your own judgment, since only you can judge whether constipation is one of your troubles. It will also help greatly to drink six glasses of water a day for a short period. The first two glasses being drunk hot before breakfast. This flushes out the bowel system and the stomach.

If there are many pimples buy an ounce of powdered flower of sulphur, mix it to cold cream consistency by working in lard, spread a thin coating of the over the face, throw a towel over your head and stand over a basin of boiling hot water. The steam softens and opens the pores of the skin, lets in the healing sulphur and releases the poisons in the pores.

Wipe off the sulphur, and while the skin is still hot press out the largest blackheads, using a watch key or special implement sold for the purpose. Rinse the face in very cold water and a second time with cold water made slightly

milky by adding a few drops of tincture of benzoin. You will probably not have a red nose if your digestion is in good order. Good health means a good skin and perfect cleanliness no blackheads.

Anxious Girl: It is likely that your friend bleached her hair with peroxide. The whites of eggs could not have turned the color of dark brown hair to that of golden blonde.

James H.: Sometimes a small abscess at the root of a tooth will cause recurrent attacks of boils; but there are many other causes also, such as a run-down system. The only way to treat this condition is to find out what causes it, which will not be through a continuance of dosing with the medicines you have been taking.

A dentist can tell you, by taking X-ray pictures, whether or not your teeth cause the trouble; and a doctor will be able to locate the trouble if it is in the system.

Anxious, M. A. D.: As it is natural for some women to have one bust larger than the other, it is best to accept the fact and not try to change it.

Olives are nourishing because of the oil in them, but they have no effect on clearing the skin.

All inquiries addressed to Miss Forbes, in care of the "Beauty Chats" department will be answered in these columns in their turn. This requires considerable time, however, owing to the great number received. So, if a personal or quicker reply is desired, a stamped envelope must be enclosed with the question.—The Editor

## Marching with American Legion

Col. B. O. Johnson, a legionnaire of St. Paul, Minn., has the unusual distinction of being the possessor of the Order of the Sacred Treasure, a Japanese decoration. The award is one of the two highest conferred by the Emperor of Japan.

The honor was conferred on Col. Johnson in recognition of his services as head of the allied railroad activities in Siberia during the world war. Col. Johnson was commander of the Russian Railway Corps, recruited largely from among Northwestern railway men. He is now assistant to the vice president of the Northern Pacific railway. Col. Johnson arrived in Siberia December 1917 and left that country in late 1922.

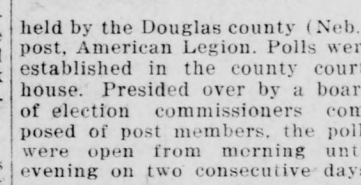

National officials of the American Legion participated in the burial at Arlington cemetery, recently, of the body of Private George Dilboy of Massachusetts, recognized by the War Department as one of the outstanding heroes of the world war. Dilboy was buried with full military honors. He lost his life at Belle Wood. The body was buried, but it was alleged, was exhumed and desecrated by Turkish soldiers, and his parents requested the body be sent here and buried.

Father William J. O'Connor of Cincinnati, O., ex-national chaplain of the American Legion, played an heroic part in the work after the hold up of Southern Pacific train No. 13 at Hills, Cal. Father O'Connor was on the second section of the train, en route to the legion national convention, when the explosion occurred, which cost four lives. He hurried to the scene where he said prayers for the dead and took charge of the relief of the wounded.

More than 15,000 cash warrants have been sent out within the past few days to ex-service men in Illinois who will receive bonus awards, according to Oscar Nelson, Illinois state treasurer. Issuance of the warrants will continue at the rate of about 2,000 a day for the next two months, he said. There are only a few more bonds to be sent out in payment of service claims, less than one half of 1 per cent of the ex-service men having asked for payment in bonds, Mr. Nelson said.

The American Legion in Monroe county, N. Y., has a number of comprehensive plans for the promotion of Americanization work in its community. One of the projects already under way is the conducting of recreation classes for adult aliens. With the

### RECOMMENDS FOLEY KIDNEY PILLS

"Your medicine worked a miracle for me," writes Mrs. C. Biron, 140 Fayette street, Lynn, Mass. "I was all run down, had a cough all winter, also kidney trouble and after taking a few boxes of your medicine my cough and backache left me. I can eat and sleep well. I canvass and recommend it at every house I enter." Prompt relief secured from kidney and bladder irritations, rheumatic pains through using Foley Kidney Pills. Insist on the genuine—refuse substitutes.

The woman who goes into a new home, should be careful in her choice of window draperies. For nothing so mars the appearance of a home as poorly draped windows.

All the shades should be of one color—a color suitable alike to the indoor window casings and the outside of the house. This will give the exterior of the house a look of unity and orderliness. If it is impossible to select a color suitable both to the exterior and the interior, one has always the double-faced shades to fall back upon (these are only slightly more expensive than those of one color).

"Glass" curtains (that is, those which lie nearest to the glass) are also an extremely important matter. If your house is painted deep white on the outside, do not have cream-colored glass curtains—and vice versa. The materials suitable for these curtains are net, scrim, muslins and other light cotton-wash materials. To obtain the proper "fullness," allow once and three-quarters the width

of the window for these curtains. The construction of the window frame, and the general style and turnishing of the room determines their length, but in general I might say that a good length for these glass curtains is from the top of the window frame to a few inches below its bottom (though not low enough to touch the floor base-board). At least for living room, hall and dining room, this three-quarters length is more dignified than the short length, in which the curtains hang only to the window sill.

Overdrapes prove the most fascinating question of all. One must be careful that they duplicate the colors used in the rugs and upholstery—otherwise the windows will stand out in vivid contrast to the rest of the room and make unpleasant breaks in the background of the walls. Many housekeepers like overdrapes consisting simply of one long, narrow side-curtain hanging on either side of a window. Others add a short ruffle, or "valance," across the top, between these two long side-curtains—thus framing the window on three sides and giving the room a more cosy appearance. Suitable materials for these overdrapes are: Living room—Tapestry, velvet, chenille, silk brocades, silk poplin, India and China silk, and cretonne or chintz in a formal, conventional pattern. Dining room—Cretonne in a formal pattern or in a dignified foliage pattern, silk poplin, chambray linen, and sunfast materials. Hallway—Same as living room. All upstairs rooms—Dainty silks or cretonnes in informal, floral designs.

MAIN STREET'S LEADING NEWSPAPER

### LATEST INVENTION IS FOR LONELY LADIES

T. EDISON SMITH, MAIN STREET'S BOY INVENTOR, BRINGS JOY TO THE LADIES BY HIS LATEST BRAIN-CHILD, WHICH IS KNOWN AS "SMITH'S SELF-SEATING CHAIR."

MY INVENTION THIS WEEK IS DESIGNED FOR THE SPINSTER OR THE LADY WHOSE HUSBAND GENERALLY DINES AT THE CLUB, AND WHO, THEREFORE, MUST SEAT HERSELF AT THE TABLE.

IN ORDER TO SEAT SELF, STEP ON PEDDLE (A) WHICH STARTS BELT (B) IN MOTION. ON BELT ARE NUMBER OF CUPS FILLED WITH SAND. WHEN CUPS REACH POINT (C) THEY DUMP SAND INTO FUNNEL (D). THE FLOW OF SAND STRIKES ON TEETH OF WHEEL (E) AND IT REVOLVES—AT THE SAME TIME REVOLVING WHEEL (F), STRING (G) THEN UNWINDS FROM WHEEL (F), RELEASES SPRING (H), WHICH SHOOT'S OUT ARM (I), WHICH PUSHES CHAIR QUICKLY UP TO LADY. WHEN CHAIR HITS LADY IN BACK OF KNEES, IT IS TIME TO SIT DOWN. IN CASE THIS INVENTION SHOULD NOT WORK SMOOTHLY WE ADVISE HAVING PILLOW (J) HANDY.

© GEORGE MATTHEW ADAMS

# BUYERS RUSH TO EDGEMONT TRACT

Sales in Ninety Days Reach  
Total of \$365,000, Says  
Owner of Property

With over \$365,000 in sales recorded at Edgemont Park in less than ninety days and 427 fine homesites gone, a wonderful record has been made, reports E. D. Hamlin, of the firm of Hamlin & Hopburn, 202 West Broadway, owners and subdividers of this fast-growing tract, located near the heart of Burbank.

"It is because of the remarkable values we are offering at Edgemont Park that Unit 1 and Unit 2 have sold out and home-seekers are rushing in by the scores to buy Unit 3," says Mr. Hamlin.

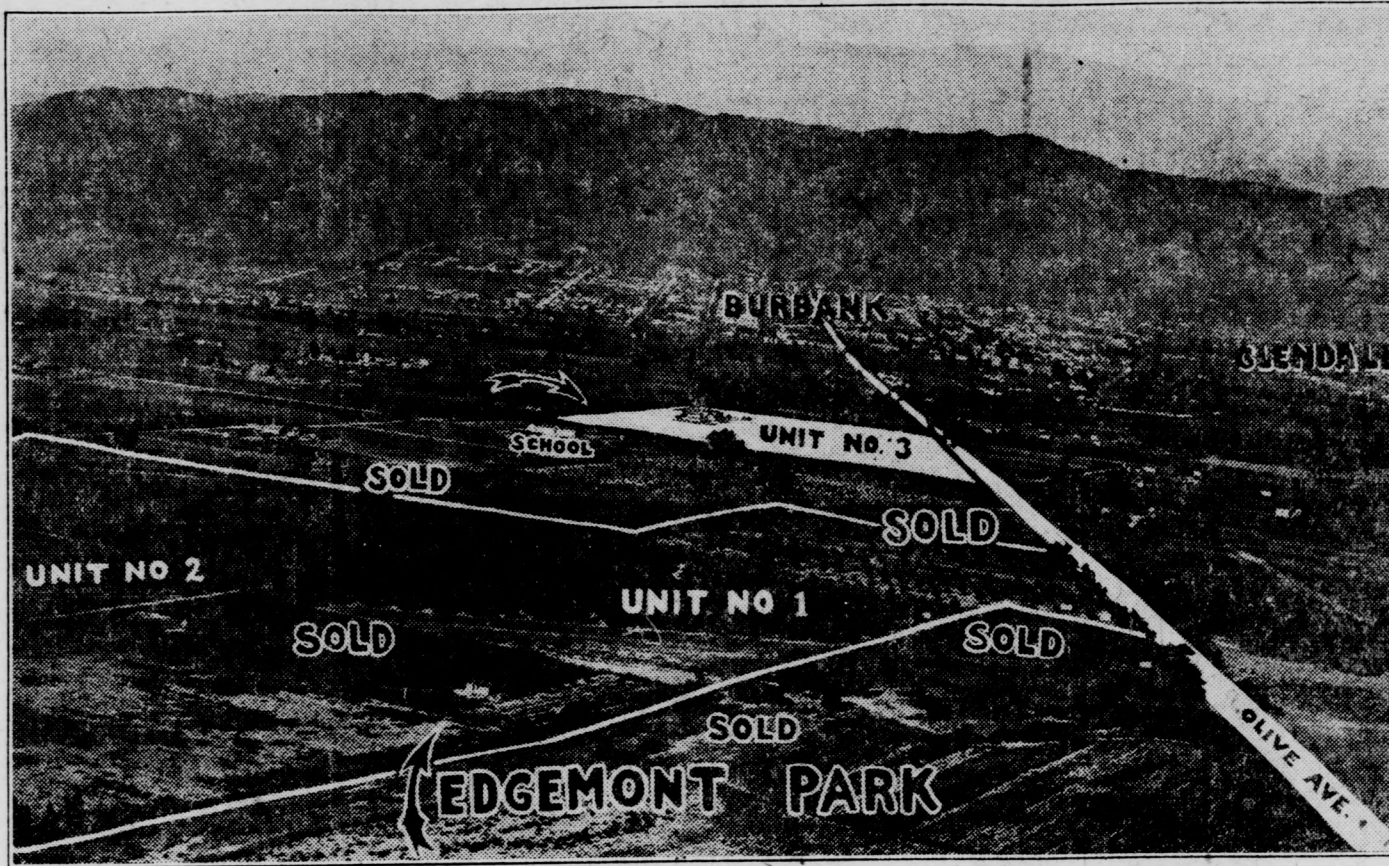

"What we are selling is fully improved lots at acreage prices. We can do this because we bought the tract right. When we began our extensive developments, prices of surrounding acreage simply doubled up."

"We did not intend to open Unit No. 3 until after the first of the year, but the insistent lot buyers have compelled us to 'come out of the brush.' This is a property that appeals at once to the homesite buyer. It is level yet has a remarkable view on all sides of the hills and the valley."

"There is a very narrow margin of profit for us in these lots. We are getting most of our 'pay' in seeing earnest, hard-working folks assisted out of the rent class. The majority of those buying lots in our tract have paid rent all their lives—couldn't get away from it. Our terms are so easy that they are able to make the break. Once they are off the rent list they experience a feeling of independence they never knew before. It is worth something to help folks get a start."

"Anyone who buys for investment cannot fail to appreciate these values. You can't buy ten acres anywhere in this vicinity on better terms than you can buy one lot right here at Edgemont Park. When it is considered that these lots are improved with gas,

## This Shows Location of Attractive Edgemont Park

water, electricity, curbs, sidewalks and graded streets; that they are near the heart of Burbank and close to all transportation facilities; that lots range from \$975 up, on terms of \$75 down and \$15 a month, and are from 45x135 feet to 50x150 feet; when these and the many other advantages of this tract are considered, it is easy to understand why sales have nearly swamped us."

**Aid to Home-builders**  
"Our lumber arrangement too has been a wonderful thing, whereby we are able to furnish on terms of \$50 down and \$25 a month all rough materials necessary to construct a home. We are proud that we have helped many sincere people to own a home. Already forty buildings

are up or under way with more rising every day.

"In all our experience as subdividers we never offered better values than we are offering at Edgemont Park. When Riverside drive is completed from Burbank to Los Angeles, residents in this tract will be able to get to the latter city as quickly as from the heart of Glendale or Hollywood."

Edgemont Park is reached by

### REAL DIRT FARMERS

En route from the east to Del Mar and the Santa Fe Rancho in San Diego county, W. E. Hodges, vice-president of the Santa Fe, gave out an interview in which he declared it is the policy of the railroad company to bring to this

driving to Burbank and going straight out Olive avenue.

state real dirt farmers.

"My object," said the official "is to make six blades of grass grow where none grew before, and to make ten carloads of freight for the Santa Fe where not more than five were seen before. The farmers are proving successful with fruit as well as other crops. The plan has been a success and will be a greater success within

## Tourist Travel Into South Sets Record

(Continued From Page 1)  
or the staggering total of \$2,920,000,000 a year.

**Life Blood Augmented**  
Can Southern California, of which Los Angeles county is the vital heart, ever cease pulsing and throbbing with prosperity, when its life blood is constantly and tremendously augmented by this flood of gold?

For those gloom-dispersers, pessimists and infidels who refuse to credit such figures, the request is made, that they familiarize themselves with the situation by visiting railway stations, steamship landings, and the headquarters of the Automobile Club of Southern California.

During 1922, by official check, the number of cars coming in over the various highways was as follows:

Santa Fe Trail, 27,831; Lincoln Highway, 14,978; Pacific Highway, 32,567; Ocean to Ocean Highway, 6800; by way of Blythe, 8366.

It is estimated that figures for this year will have increased to read as follows:

Santa Fe Trail, 30,000; Lincoln Highway, 17,000; Pacific Highway, 36,000; Ocean to Ocean Highway, 8200; by way of Blythe, 12,000. Making a total of 123,799.

At an average of three persons to a car, it is seen that the total passenger list for the year approximates 370,000, which would be equivalent to adding an entire city, such as Seattle, Wash., or Indianapolis, Ind.

By train, 3200 persons are arriving in Los Angeles daily; at the present time, a total of nearly 100,000 per month. The balance of the influx is by steamer, totaling approximately 1400 a week. The question naturally arises:

the next five years."

The Rancho Santa Fe is the railroad company's immense land development project, comprising more than 7,000 acres.

## Thirty-Five Lot Buyers to Get Good Property, Also Chance on Packard Auto

Aside from the fact that a new 1924 Packard automobile is to become the property of one of the thirty-five buyers of home-sites at Crestview Manor, according to Frederick C. Wolter of the Wolter Realty Company, 203 North Brand boulevard, the intrinsic value of the lots is such that large profits cannot fail to be realized in a short time.

"Or if one wishes to build at once," says Mr. Wolter, "Southern California offers no better location than this high and slightly tract adjoining and overlooking Campbell Heights, where values have been established and many fine homes are under way."

"Crestview Manor, nestled right up against the Verdugo foothills, has an altitude of 750 feet and possesses all the charm a home-

site could have, offering a panoramic view of the surrounding valley for miles around. At prices from \$2900 up, with generous frontage of 50 to 200 feet and restrictions adequate to make the property the type of residential park its location deserves, there is nothing in the way of the rapid growth of this tract into one of Glendale's best residential districts."

**Must Act at Once**  
"As the property is fast being taken up, it will be necessary for prospective buyers to lose no time in making selections. The \$3000 Packard automobile will become the property of one of the buyers. Each purchaser of a lot at Crestview Manor gets a ticket and as there are only thirty-five lots, every buyer's chance is one in thirty-five."

"So reasonable are these lots that before the automobile offer was even announced, one purchaser re-sold at a profit of \$750 within seven days. Other such re-sales will be made in increasing number, as the lots are taken up, for the values are there. Close to the new bus service that brings the Kenneth road section right to the doors of Glendale's business center, Crestview Manor offers choice foothill property with every convenience the heart of the city has to offer."

The tract is approached by driving to Kenneth road and then to Ben Lomond drive, at the end of which it is located.

## Central Square, In City Of Burbank, on Market; Bungalow and Lot Free

Central Square, Burbank, opening tomorrow, offers the greatest values per dollar to be found in Los Angeles county, claim Baskerville & Burnett, of 126 West San Fernando boulevard, Burbank, its owners and developers.

Right in the city of Burbank, they state, offering a wonderful view of the valley, close to the new \$250,000 high school, the tract has many advantages. It fronts on both Central avenue and Buena Vista street, two eighty-foot boulevards, one of which, Central, is to be paved at once.

Central Square is right on the direct route from Burbank to Hollywood, via Lankershim, the owners point out. With lots selling from \$450 up, properly restricted, sizes 50 to 65 feet by 128 feet, values are such that profits are certain.

**To Give Away Home**  
In order to make a special inducement to early buyers, Baskerville & Burnett are going to give away free a fine four-room bungalow on a lot 65x138, feet to one of the first fifty-seven to purchase lots in the tract. They invite the public to visit the tract at once and inspect this home, then buy quickly if interested, so as to insure being in on the proposition.

They report that gas and electricity are now on the tract and that water pipes are to go in at once. Streets will be finished in decomposed granite, making fine roadways.

Central Square is approached by driving to Burbank and out Olive avenue to Buena Vista street, then direct to the tract.

## Facts and Figures Give Plenty of Evidence South Is Happy and Prosperous

(Continued From Page 1)

the erroneous impression that no income was realized from the sale of capital assets. The profit from the sale of property constitutes one of the chief sources of income to our taxpayers, especially in Southern California, and every dealer in real estate should inform himself in the main provisions of the internal revenue laws in this regard.

"Every sale or transfer of real estate made by a taxpayer should be itemized upon his income tax return for the year in which the sale or transfer was consummated. Any profit realized from such sale is subject to income tax; and in the case of property acquired subsequent to March 1, 1913, the taxable income is the difference between the cost and the sales price received, less any expenses in connection with the sale."

### Examples Given to Prove Case

"In computing gain and deductible loss upon the sale or exchange of property prior to March 1, 1913, both the original cost and the fair market value as of March 1, 1913, are taken into consideration. The examples in the following table will give a brief summary of the amount to be reported or of the amount that may be deducted as a loss, and will be an invaluable guide to taxpayers. To avoid complexity no adjustment has been made in these examples for depreciation or depletion."

Cost	Fair Market Value, Mar. 1, 1913	Sale Price	Result
\$10,000	\$15,000	\$20,000	\$5,000—Taxable Gain. Excess of amount realized over fair market value as of March 1, 1913. Gain attributable to the period prior to March 1, 1913 not taxable.
10,000	5,000	3,000	\$2,000—Deductible Loss. Excess of fair market value over amount realized. Loss attributable to the period prior to March 1, 1913, not deductible.
10,000	30,000	20,000	No taxable gain or deductible loss. Reason: A gain on whole transaction, which gain is attributable to period prior to March 1, 1913.
10,000	3,000	5,000	No taxable gain or deductible loss. Reason: A loss on whole transaction, which loss is attributable to period prior to March 1, 1913.
10,000	5,000	20,000	\$10,000—Taxable Gain. Reason: Gain on whole transaction, all of which is attributable to period subsequent to March 1, 1913.
10,000	15,000	5,000	\$5,000—Deductible Loss. Reason: Loss on whole transaction, all of which is attributable to period subsequent to March 1, 1913. Only actual loss sustained deductible.
